SHOOTING AFFRAY.—A man named Wm. Haley was shot and severely, if not fatally wounded, about half-past twelve o'clock Saturday night. The facts of the case, as near as we can learn them, are about as follows: Haley with several other parties were standing on the sidewalk a short distance above the American Hotel, and nearly opposite the Petroleum Gardens, engaged in conversation, when they were approached by five men coming from the upper end of the town. When very near Haley and his party one of the men made the remark—"I'm from Cow Run." A man named Connick answered that he was from Bull Run. The Cow Run man replied that he could whip any man from Bull Run, whereupon Connick struck him and threw him down. As he fell he shouted—"One of the other men immediately drew a revolver and commenced firing at random apparently, one of the balls striking Haley in the shoulder glancing downward and entering the spine. The Cow Run man immediately ran off and when near the Boyd farm bridge fired off two more shots. The wounded man was taken to the American Hotel where he now lies. The chances are that he will not recover. Haley resides at Lockport, N. Y., and had been here but a short time. It is said he had just been released from prison at Buffalo, where he had been arrested charged with committing a robbery between that place and Black Rock, on the line of the Erie canal. As yet no arrests have been made, but we understand that measures are being taken to arrest and bring to justice the guilty parties. The practice of carrying revolvers and firing them off on the streets after dark is a reprehensible one, and the parties guilty of it should be made to suffer the full penalty of the law. We look upon the shooting of this man, in the event of his death, which is extremely probable, as downright murder. We trust measures will be taken to punish the offenders.

On Friday last two boot-blacks were arrested in this place, by a detective in the employ of the O. C. & A. R. R., charged with breaking into the company's office, at Tidouke, and stealing a quantity of railroad tickets. They were taken to Oil City in the evening train, and for want of sufficient evidence were subsequently discharged.

ROBBERY.—Simon Beck, a resident of Story farm, was knocked down at a late hour Saturday night, near the lower tree and east, and robbed of his watch and chain. The parties that committed this daring outrage made good their escape.

Just received at the Rochester House, another invoice of fresh Salmon, Flounders, and Drock Trout. Call and see them.

The construction trains on the Jamestown and Franklin Railroad are now running as far as Bond. A few days of good weather would place the whole line in order for ballasting.

The Franklin Bank of Baltimore has formally resumed the redemption of outstanding circulation in cash.

POLICE ITEMS.—A man named Michael Conners was arrested yesterday by Officers Mellugh and Kinney, on oath of William A. Lezier, charged with assault and battery with intent to kill. The prisoner was brought before Justice Donaghy, who after hearing the evidence, held him in \$500 bonds to appear at Franklin for trial. Failing to give the requisite bail, he was committed to jail. Conners hails from the classic precincts of Lockport, N. Y.

James Sullivan was arrested by the same on oath of John Moreover, charged with making threats against his life, and John Moreover believed the said Sullivan intended to do him bodily harm. The evidence not being sufficient to hold him, Sullivan was discharged. Sullivan claims his home to be at Buffalo.

To soothe his injured feelings, Sullivan made oath before Esquire Donaghy charging Moreover with selling liquor without a license. Case now on trial.

The Wallace Sisters closed a very successful engagement of one week's duration, at Sobel's Hall, on Saturday evening, reproducing the burlesque of "Florida, or The Girl of the Period" in elegant style. Misses Agnes and Jennie, and in fact the whole company, seemed to vie with one another in their efforts to please the large audience present. During their stay here these two ladies have made hosts of friends. They are refined and cultivated artists and charming vocalists. Their manner of acting is so natural and unaffected that it at once stamps them as first-class performers. Little Misses Minnie and Maud are certainly prodigies in their line. We have seldom witnessed clog dancing that equalled theirs. On Friday evening Miss Minnie recited the poem of "The Shamrock" in a fine manner. She has a well modulated voice and needs but little experience to hold her own in a recitation of any kind. Our citizens will be pleased to learn that these talented sisters and their excellent company are soon to appear here again. Managers Dobson and Villa have certainly succeeded in getting together as fine a combination of talent as ever visited the oil region. Success to them wherever they go.

One of the chief dangers of ocean navigation at this time of year, is from floating ice fields and ice bergs. The officers of most of the European steamship companies have, in consequence, ordered their captains to take a course more southerly than usual, to avoid the danger. This winter the drift from the north is reported to be much heavier than usual, and the North German steamship which arrived recently at Southampton barely succeeded in extricating herself from the immense fields of floating ice. The steamship America, which arrived at New York on the 13th instant, reports passing in latitude 49° 05' north and longitude 44° west, two immense ice bergs and the Nebaska, which arrived Sunday night last reported heavy ice in 41° north and longitude 48° west. A propeller could be easily broken in attempting to force a vessel through the fields of drifting ice, and it is not improbable that an accident of this kind has happened to both the City of Boston and the Samaria; but with what other consequences may possibly ever remain a mystery.

We understand that a man from Wayne County has purchased two hundred acres about 2 1/2 miles from Warren, near Palmers Tannery, on which he proposes to put down three or four wells to test the territory for oil purposes. It may be interesting to the Warren people that negotiations are going on for the purchase of land across the river and near town, for the same purpose as above. There is a firm belief that oil does exist in this vicinity, and capital backed by brains is soon to thoroughly test it. The tests so far have not been thorough for the want of means. We have always believed this to be a good oil territory, and are glad that a thorough and proper test is soon to be made.—Warren Ledger.

At the mouth of the channel, three miles from Fleetwood, England, is or was, a lighthouse built on piles. Two or three weeks ago, a schooner laden with iron ran into the piles, and the lighthouse was pitched upon the deck of the vessel and carried away. Two men were in the lighthouse at the time, one of them being in bed. They were both saved, but "much frightened." A tug was sent out to the relief of the schooner, and she was towed into woodleatF and the lighthouse was safely landed.
