Vesper and Benediction of the Blessed Sacrament at 4 p. m. Catechism at 2 1/2 p. m. JAMES DUNN, Pastor.

Gold 112 1/2.

The report published in the Titusville Herald in regard to the shooting affair on Saturday night is erroneous in many respects. The shooting of the man Haley was entirely without provocation, as he had nothing whatever to do with the Cow Run men. The man Connors was arrested and bound over to court on an entirely different charge, that of breaking into the saloon of William Lozier and threatening his life. We do not pretend to uphold Haley, who is undoubtedly a notorious rough, but the question is—"Have men a right to draw revolvers and fire indiscriminately into a crowd?" As yet no steps have been taken to arrest the Cow Run men, but we trust they may be punished. Haley, the wounded man, remains in about the same condition. The Herald is right in one particular and that is that "blue ruin whiskey" was at the bottom of the whole affair.

There are now in this place a gang of about thirty roughs, pimps and loafers, who have no visible means of support whatever, and consequently the only reasonable supposition of the manner in which they get a living is that it is done by robbery and sneak thieving. If we are not mistaken there is a law on the statute books of this State which provides for the disposal of such cases in a proper manner, and in our humble opinion it is the duty of the officers of the law to see to it that community is well rid of the presence of these scoundrels. We feel confident in asserting that all good citizens will uphold them in this matter, and hope to see action taken at once. We shall have more to say on this subject in a future issue.

The VanSchaek & Barrett well, on Kane Run, is pumped entirely by water power, except when the weather is so cold that the water in the Run is frozen up. One of the old-fashioned undershot water wheels is used for this purpose. The well is about 630 feet deep, and is yielding eight barrels per day. In case the tubing has to be drawn steam power is used, the force of the water not being sufficient.

A good many new wells are to be put down in the vicinity of Kane City the coming summer. On the Marston tract eleven new wells are going down; Dempsey farm four or five; Brown farm, five; Lake farm, two or three, and several on the Mallory farm. The Metropolitan tract is also to be developed somewhat. This will have a tendency to make times lively in that vicinity.

A terrific boiler explosion occurred at one of Dr. G. Shamburg's wells, on Saturday. Fortunately no one was injured, the engineer being absent at dinner.

The engine house of the Lockwood well, at Alleghenon City, was destroyed by fire at an early hour this morning. Loss not heavy.

On a close estimate by a prominent mathematician of the place, there is about 5,000,005 cubic feet of mud in the streets at present. It's nice and slushy.

The Walker well, Central Petroleum Co's farm, is nearly completed. Will undoubtedly prove a good well.

Petroleum Items from all Sources.

The well owned by Jonathan Watson and others, located on Cottage Hill, was tested Friday, and Saturday evening was pumping at the rate of 40 barrels per day. This well is back on the hill, and explodes the theory set forth by many, that there is no oil above the old Hasson Well.

The Shaffer Run territory is now the centre of attraction. New leases are being taken almost daily, and several new wells are going down. Mr. S. B. Morehead, of Oil City, is putting down two wells on this run, and the Duncan & Broadhead well, now approaching completion rapidly, gives a splendid show.

In the Embleton district there is considerable activity among operators, and the spring will open a large amount of business in that locality. Wells are to be put down to a great extent.

The R. L. Shaw farm has three new wells one of them pumping fifty barrels daily. From the Tidouite Journal we get the following:

WEST HICKORY ITEMS.

On the R. C. Scott, (lower farm,) Thornberg & Goodrich No. 1 is pumping 7 barrels No. 2 is pumping 40 barrels. No. 3 rig going up. Crowell No. 1 down 628 feet.

The Sands well is about ready to commence drilling.

On the R. C. Scott, (home farm,) Palmer & Childs No. 1, down 450 feet.

On the Widow Gorman farm, Caulfield No. 1, pumping 5 barrels, do No. 2, 8 barrels.—Fisher & Cushing, No. 1, drilling.

On the Miles farm, Hoffman well, 6 barrels; Snyder, 5; Armitage, 3; Miles & Gillespie, 4; Tidouite & Hickory Oil Co.'s No. 1, 10; No. 2, 20; Collins No. 1, 7; No. 2, 15; No. 3, rig up; Wide Awake, 10; Irvineton No. 1, 7 barrels; No. 2, 9 barrels.

On the Royal Scott farm, Dewey & Laney are down 100 feet. Fisher well down 250 feet.

On the Tidouite and Warren tract the Fisher & Cushing wells are as follows: No. 1 drilling; down 250 feet. No. 2 just commenced drilling; No. 3 pumping 30 barrels No. 4 pumping 60 bbls. No. 5 spearing around tools. No. 6 down 450 feet. The Company's well No. 2 testing. No. 1 pumping 40 bbls. No. 3 down 360 feet. The other wells are doing as usual.

THE STEAMER CITY OF BOSTON.—The fate of the City of Boston still remains unsolved, no further tidings of her having yet been received. The false report of her safe arrival at Queenstown, it appears, was originated on the London Stock Exchange, and considerable indignation has been expressed in London, as well as in this country, at the perpetration of this cruel hoax. It is mentioned as a curious instance of want of English journalistic enterprise that the London Times published the canard uncorrected twelve hours after the truth had been generally known. Insurance underwriters in London have again reduced the premium on the missing ship, while advancing that on the Samaria, and in the House of Commons Mr. Lefever, on behalf of the managers of the Inman line, denied that the steamer was overdue, and asserted their belief that she is still afloat. Great excitement and distress exists in Halifax over the supposed disaster, and during the present suspense business is almost at a standstill.

Chicago rejoices in a visit from Ab Fung, a wealthy Chinese merchant doing business in San Francisco, the Pacific Island, Japan and China. He is a gentleman every inch of him, and carries about the grace of Beau Brummel—at least so the Chicago papers state. Fung is an educated man, speaks good English, and rejoiced the Chicago merchants by predicting an active trade between Chicago merchants and the Celestial Empire. Fung was the first shipper of American flour to China, having exported it first from San Francisco, in 1864. Now he shipped 40,000 sacks every month, and exported, he said, 10,000 sacks of wheat annually.

On Sunday last a Rouseville man, who we will call John Jones for short, came to this place and probably forgetting the Bible injunction to "remember the Sabbath day to keep it holy," got drunk and adjourned up to Oshkosh to have some "fun with the boys," but unfortunately fell into the hands of the Philistines and received a beating and lost his watch. If John had kept sober and followed out the Bible injunction doubtless he would have felt better both in head and purse.

Some years ago, a Milwaukee gentleman was robbed of a \$100 bond. The thief has now sent it back, with the information that it has "layed on his stummock ever sense." His reason for taking it was simple: "I tuk it for I wanted munny." His reason for not selling it is rather more complicated:—"Evry time I went to sell the thing something told me not to, and I didn't." His surrender of the security is unconditional:—"Here it is for I can't keep it no longer."

NEWS ITEMS.

A contemporary is anxious to know how soon the young Indiana ladies who advertise "love-making and man-choosing meetings" are going to get up "divorce matinees."

Louisville sends us a bit of queer news.—It is that Jeff. Davis is writing a novel which he proposes to complete before the year is out. It relates to the Mexican war, is not to touch on recent politics, and will be published first in England.

Lost—Miss Pollard is explaining who killed the Confederacy, just as though everybody didn't know it was for the want of such able-bodied fellows as the historian in the ranks, who shirked out, preferring to write, rather than fight.—Louisville Courier Journal.

Chicago wants a pneumatic railway. The Boston banks have \$5,000,000 in gold.

Strawberries and plums add relish to New Orleans desserts just now.

Seventy-five cents a day and rats is the price of Chinese farm labor on the Pacific.

The California Senate objects to its chaplain's reporting cock-fights and the P. R. for a sporting paper.

On that Wyoming jury was what the ribald might call a hen—Mrs. Amelia Hatch er. And didn't she set! Four days, and hatched it out manslaughter in the first degree.—World.

A strange case of child abduction occurred in Chicago on St. Patrick's Day. A little girl, four years old, while playing near home was taken off by a young lady. In the evening she was accidentally found in the organ loft of the Catholic Church, a mile and a half away, stripped naked and nearly perishing from cold. The organist was about to lock the church, and the child would have been kept there until Sunday, and would doubtless have expired. The cause of the strange proceeding is not known, but it is supposed to be revenge.

Some time since a gentleman died who during life refused to believe in any future punishment. Two or three weeks after his demise his wife received, through a medium a communication which read as follows:—"Dear wife, I now believe. Please send me my thin clothes and a barrel of ice water."

The Northern Pacific and the Lake Superior and Mississippi Railroad companies have made arrangements for the establishment of extensive mills at Duluth, Minnesota; for the manufacture of rail road iron.

Captain Eyre, of the British steamer Bombay, deserves the treatment Skipper Ireson received from the women of Marblehead, which Whittier has immortalized:—"Small pity for him! He sailed away From a leaking ship in Chaleur bay— Sailing away from a sinking wreck. "Lay by! lay by!" they called to him. Back he answered "Sink or swim! Brag of your catch of fish again." Old Floyd Ireson, for his hard heart, Was tarred and feathered and carried in a cart. By the women of Marblehead!"

A fatal boiler explosion occurred at Parker's Landing, on Thursday evening last, about 8 o'clock, on the George Parker farm at a new well of the Stanton Oil Co., and resulted in the death of Mr. David Joy, Superintendent of the well. Mr. J was a single man and resided at Pittsburgh.—The origin of the accident is unknown.

We learn that a movement is on foot to call a meeting of the Odd Fellows at present residing in the place, for the purpose of forming a lodge. The movement is a good one.

Mr. Frazer, salesman for the well known clothing house of Charles Stokes, Philadelphia will visit this city about April 1st. Those wishing clothing cut in the latest style and best materials will do well to reserve their orders for him. He will have a very large and complete line of samples.—Our prices will be found very low as the extent of our business gives great advantages in buying.
