Mass at 10 1/4 a. m. Veper and Benediction of the Blessed Sacrament at 4 p. m. Catechism at 2 p. m. JAMES DUNN, Pastor.

Gold 112 1/2.

We publish elsewhere an announcement of the death of that gallant soldier, Gen. Geo. H. Thomas, which occurred at San Francisco on the 28th. His death will be universally regretted by all.

EQUESTRIAN—Dr. James L. Thayer was in town yesterday gathering material for his new circus, which will be ready for the summer campaign. The Doctor informs us that everything about it will be new, and that he has never had so good a company as are engaged with him for this season. S. P. Stickney is equestrian manager, and the gentlemanly Green Berry, for many years manager of Van Amburgh's show is general agent.

J. M. Snyder, the news agent at the Union depot, is about to sell out his business, and will accompany the new show as chief of ceremonies in the refreshment department. We hope the Doctor and his establishment will meet with a full measure of success.—Eric Dispatch.

We are glad to learn that our old friend Dr. Thayer has "got on his feet" once more. His many friends in this section of country will be ready to greet him when the "new show" comes. Success to him and his enterprise.

The Meadville and Titusville Railroad bill has passed both Houses and been signed by the Governor.

Ice.—The report having gone forth that no ice would be had the coming summer, we are authorized by the firm of Bailey, Chain & Smith to deny the report. At the proper time they will be prepared to furnish ice to our citizens in quantities to suit all. This will cause the hopes of the lovers of mint juleps, brandy smashes and ice cold lemonades, to revive. Their ice is the purest of Sandy Lake.

The new wells going down on the Dalzell and McCray farms are making a fine show. One of them is yielding oil from the second sand rock, the sand-pump bringing it up in large quantities.

Speckle is getting to be quite plentiful.—Griffes Bros, Charlie Topfiff and one or two others are giving it out. We are also credibly informed that John Theobolt, who "goes and you no farder," is soon to resume specie payment.

Yesterday afternoon two drunken women passed through the streets. It is time that a stop should be put to exhibitions of this kind. Police?

The rise in the creek has nearly subsided. Since the appointment of the new position matters have been quiet at the upper end of the town.

In London they close the beer shops on Sunday; and the water companies, in their own anxiety to observe the Sabbath properly, cut off the poor man's supply of water on the very day when it is proposed he shall have nothing else to drink.

The Tomah (Wis.) Journal says: "An Indian lady passed by our office the other day, with a quarter of venison and two popposes on her back, a jug of whiskey in one hand, and a wigwam in the other.—How's that for Lot?"

DEATH OF GEN. THOMAS.

SAN FRANCISCO, March 28.

The past few weeks General Thomas enjoyed unusually good health, but to-day, about half past five o'clock, while in his office at headquarters attending to business, he was taken with apoplexy which resulted in death at 8 p. m. Gens. Ord and Whipple are absent in Arizona, and the command of the department temporarily fell on Col. Hough, Assistant Adjutant General.

Petroleum Items from all sources

Well No. 13, on the Chicago tract near Shamburg, which has produced oil for some time at the rate of about 40 barrels per day: was torpedoed on Monday, after which preparations were made to resume pumping, when it commenced flowing, and has since flowed at the rate of nearly 300 barrels every twenty-four hours. The casing is all in the well, and the tubing, with the exception of one length. It is known as the Foggins well.

A new well was struck on Sunday evening last, on a tract of 189 acres belonging to Geo. W. Forman and Isaac Ash, of Oil City, located about one mile back of Venango City. One well, put down on this tract has been producing about three barrels daily, and now there is a new one of 10 barrels, which makes a handsome revenue for the owners, and opens up a new oil territory. The well is owned by Wm. Haldeeman.

Well at Sowers' Run is down 285 feet with 24 feet of good sand rock. Well at Jamieson Run, Slaty farm, down over 450 ft. in blue slate, with good show of oil. Dr. Winne's well, on Little Hickory, has further increased its yield to 10 barrels a day, with prospect of continued increase.

TO THE CITIZENS OF PETROLEUM CENTRE.—The impression having gone forth that I intend to leave town and resign my position as night watchman after the 1st of May, I take this method of informing the citizens of Petroleum Centre that it is my intention to remain in town and act in the capacity of night watchman until dismissed by the citizens.

PETER KINNEY.

A private letter from a member of a well-known manufacturing house in this city, conducting a branch a Nashville, states that any man's life or property is as safe in any part of Tennessee as in Massachusetts. There is not only a law-abiding population, at the back of every county sheriff, and what these officers do not accomplish in suppressing and punishing crime cannot be done by the military it has been proposed to send there.—Com.

The lumber and salt men of the Saginaw Valley held a meeting a few days since and passed a resolution favoring a reduction of fifteen cents on wages during the ensuing season, and also forming a committee of five to examine the laws regulating the inspection of lumber in the different States, for the purpose of drafting a bill best calculated to promote the interests of buyers and sellers. The action of this meeting, if it results in anything practical, is of importance to a great portion of the community.

growing old.

I'm growing fonder of my staff, I'm growing dimmer in the eyes, I'm growing fainter in my laugh, I'm growing deeper in my sighs; I'm growing careless of my dress, I'm growing frugal of my gold, I'm growing wise, I'm growing—yes— I'm growing old!—Saxe

Thomas Carr, recently hung at Wheeling, after confessing to the murder of fourteen persons, said while speechifying from the scaffold, "I am going to heaven."

"I have left a number of letters for the guidance of parents that they may bring up their children properly." What healthy toned literature it must be to emanate from so pure minded a teacher.

Recent explorations in the Rocky Mountains have determined that the highest point in these mountains yet measured is Mount Harvard, being 14,270 feet. The climate of the mount is represented as very peculiar. The rains, which are frequent, are always accompanied by thunder and lightning; when dry and clear it resembles a tropical climate.

According to careful estimates foreigners now hold Southern State securities to the amount of over one hundred millions of dollars. The following amounts are returned, as positively known to the State authorities: Alabama, \$1,483,200; Georgia, \$62,000; Louisiana, \$5,235,933; Virginia, \$7,628,500.

The steamship City of Cork, from Liverpool for New York, has arrived at Halifax. She made the southern passage in search of the City of Boston without success.

NEWS ITEMS.

It is said the Virginia Legislature is preparing to abrogate its ratification of the Fifteenth Constitutional amendment by a coup d'etat, and that the members intend to rush the repeal through both Houses on the same day, without notice and without debate.

Rev. Robert Laird Collyer announced to his congregation in Chicago, on Sunday, that he was considering a call from Unity Church, Boston, whereupon several members arose and urged him to stay. The tears of his congregation prevailed, and he said he would live and die with them.

The War Department rejects the colored youth proposed by Ben. Butler for appointment to the Military Academy, on the ground that he is not of the required age.

The steamer Tarifa, from Liverpool, has arrived at Boston.

The mills of the Hampton Paper Company at Holyoke, Mass., were burned Sunday night. Loss \$250,000; insured for \$200,000. One hundred and fifty hands are brown out of work. The company will rebuild at once.

The building Nos. 202 and 204 Washington street, Boston, was badly damaged by fire Monday. It was occupied by William Bogie, dealer in hair work and perfumery, and A. F. Copeland, confectioner. Loss \$12,000; insured.

The annual dinner of the Alumni of Brown University was held in Boston Monday evening, Judge Theron Metcalf presiding. About seventy graduates of the University were present.

The New York papers are filled with glowing accounts of the grand opening spring fashions by the modestes of the metropolis. From morning till night Broadway was gay and more brilliant than ever, elegant equipages blocked the approaches to the mans of fashion, and bonnets and dresses were on exhibition in bewildering variety and profusion. There is nothing of a revolutionary nature either in the styles or materials to chronicle. The amounts of Stewart's reduction in rent, vary from 10 to 50 per cent. The Times says if Boutwell were half as zealous in his efforts to relieve the people by reducing taxation as he is in his behalf of a Funding bill—which keeps up taxation, makes war upon the banks, and promotes the withdrawal of greenbacks—the country would appreciate his exertions more highly.

Messrs Behrens, Kiser and Wingard inform us that a new order of Templars has been organized on Dutch Hill. No member is allowed to drink any water without pouring in a little whisky—unless he drinks the whisky first and the water afterwards, or the water first and the whisky afterwards. Should there be no whisky at hand, brandy will answer.—Forest Press.

Count Bismarck has presented to the University of Virginia a costly and interesting collection of photographic and engraved designs of recent Government works in Prussia embracing modern improvements as applied to bridges, canals, railways, and public buildings.

A bad go—Chica-go.

The fur West—Alaska.

High tide—A top-knot.

Late habits—Night gowns.

Bawl dresses—Baby clothes.

Joint education—Gymnastics.
