Drilling Jars.

We would respectfully announce to our cus-
tomers and the public generally that we keep con-
stantly on hand

Cast Steel Drilling Jars
Which for Strength and Durability excel any Steel
Jars at present in use.

The Advantages we Claim
Over Metal Jars is that, being ALL STEEL, they
resist more than Jars composed partly of Iron,
and in cutting a Steel surface to the rock, they are
not liable to wear on the outside, and will keep
their size longer.

**We Want Them to Drill
Fifteen Hundred Feet.**
We also keep on hand
Cast Iron Working Barrels.
