Gold 113 3/4.

Mr. McJunkie, of Venango, is talked of for the next Speakership of the Assembly by the western members. He is well qualified and deserving of such a position.

The Devlin well, Dalzell farm, was doctored with a torpedo on Saturday with such good effect that the production was more than doubled. It is yielding twenty barrels per day. Before the torpedo was put in the yield was only eight barrels per day. Mr. James Devlin is the lucky owner.

The woods well on fire back of the McCray farm, yesterday.

There are now sixteen derricks up on the McCray and Dalzell farms. Four of these are pumping wells. Drilling has commenced on two or three, and the balance will be started up within a short time. More new derricks will be put up in a few days.

There was found near the Coxton farm, yesterday, a safe key. The owner can have the same by calling at this office and paying charges.

Equire Reynolds entered upon his duties as Justice of the Peace, to-day.

Gentle Spring rain to-day.

The oil shipping business is quite lively at present.

The Patterson & Dickey well, Dalzell farm, was torpedoed a day or two since, and the production increased from two to thirty barrels per day. It pumped at that rate for several days, when unfortunately the salt water came in and flooded the well. As soon as the salt water can be exhausted it is thought the well will be a good twenty barrel one. When first put down this well was thought to be a dry hole.

A decided improvement has been made at the upper end of the town in the putting up of eight street lamps, which are kept burning all night.

The Sunday School review service at the Methodist Church, last evening, passed off quite successfully. The attendance was large, and the members of the school acquitted themselves very creditably. The blackboard sermon by the pastor was excellent and secured the undivided attention of the entire audience. Much credit is due to the labors of the Superintendent, Mr. M. E. Hess, and the able corps of teachers associated with him. Judged by standard of biblical study and attainment (the only true standard of excellence) there is no better school in the oil regions.
