CRANGES -Mr. J. W. Beatty is putting up an addition to his building. This is made necessary on account of his increased business.

J. E. Christle is fitting up the building opposite Schonblom & Wing's, on Washington street, preparatory to removing bis drug store. It will make a desirable business location.

Messes. Lammers & Alden are soon to remove to their new store in the Good Templars' building.

A brakeman named James Doyle was killed on the A. & G. W. R. R., near Reno, yesterday afternoon, by being ran over by the cars while engaged in switching. He is supposed to be from Buffalo.

Ephraim Parker, of the family who gave Parker's Landing its name, died in . that place on Sunday last, from the effects of bard drivking.

NEW WELL -A new well was struck on the Dempsey farm, near Kane City, yesterday. It is yielding twenty-live barrels per day, and is owned by J. W. 1rwin and Capt. W. W. Gibson of this place.

Wm Hesley, the man who was shot at the upper end of the town, a few nights since, and who has been at the American Hotel since, died yesterday afternoon about four o'clock. His relatives are supposed to reside at Buffalo and Lockport, N. Y. They have been telegraphed for several times but no answer has been returned. Parties were around raising money by subscription, last night, to defray his funeral expenses.

The Directors of the Jamestown Driving Park have decided to hold their Spring Races on the 25th, 26th and 27th of May,

Reputting to the Richardson Melbarra that progression in New York the Springfield Main., Republican says; While this \* general blackening of character is to go on as an excuse for morder, we trust that the person who knows most of the painful history that led up to the painful tragedy, but who has kept sileut, while the pure saints who conduct the pot house and back-kitchen press of New York have adopted every vul-

gar scandal they could hear and invent, and every sceptic in woman's virtue and man's bonor has rushed to indecent conclusions against her and her friends-we trust that she, Mrs. Richardson, the person now most interested in the truth, and most capable and the most willing to tell it, shall have the opportunity to give her story. It is due to herself, to her friends, and to the man who died for her, and to the cause of truth and justice, that it should now be given.

The devil-fish of Victor Hugo's fiction hrs its counterpart. A erab caught in Yokohamn Bay weighed about forty pounds. bad legs over five feet in length, and its mouth contained two large teeth. When in the water its strength was such that it could have overpowered a man. This horrible ghoul, as if attracted by that appalling calamity, was found clinging to the masthead of the recently subken steamer Oneida. A taxidermist in San Francisco is preparing the dead monster for exhibition.

# Fushion Notes.

Satin cazhmere in all the light and fashionable shade will be in demand for spring and summer wear.

Plain gold knobs of a dead luster, or cameos with an antique figure carved upon their face, mounted in red gold are on regle for gentlemen's caff buttons.

Never have ear-rings been worn as large as at present; pendants being the prevalent rage, although fine solitaires for the haut ton are still the mode, costing from \$1,000 to \$1,500 in gold.

The ladies of the Brooklyn Woman's Club have resolved henceforth to wear shirts regular shirts, with frizz'ed fronts and flaps. So we are told by "one who knows," and for all we know, wears. All right.

The trial of the Rev. Horace Cook, whose ecent elopement with Miss Johnson at New York was the cause of wide-spread scandal. will take place during the present session of the Methodist Episcopal Conference in that city. It is said, however, that Mr. Cook will not put the conference to the trouble of of appointing a committee of investigation. but will frankly acknowledge his crime and throw himself upon the mercy of his judges the result of which will probably be his suspension from ministerial functions. Many of the members of the Conference charitably believe in his insanity at the time.

At Spurenburg (thirty miles from Berlin) an immense layer of salt was discovered two years since,' which according to the report made last month to the German Geological Society, has been bored to the depth of half an English mile, or 2,630 feet, of which 2.347 or four-ninths of a mile, go through one layer of pure rock sait. The temperature at the bottom was 881; Farenheit.
