Drilling Jars.

We would respectfully announce to oil men and the public generally that we keep on hand constantly

Cast Steel Drilling Jars

Which for Strength and Durability excel any Steel-Lined Jar heretofore in use.

The Advantages we Claim

over Lined Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron; that preventing a Steel surface to harden, they do not become worn on the outside, and will keep their shape longer.

We Warrant Them to Drill Fifteen Hundred Feet.

We also keep on hand

Cast Iron Working Barrels
