Drilling Jars.
 We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars
 Which for Strength and Durability excel any Steel-lined Jar heretofore in use.

The Advantages we Claim
 over Lined Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron; that preventing a Steel surface to the rock, they are protected from wear on the outside, and will keep their shape longer.

We warrant them to Drill Fifteen Hundred Feet
