Petroleum Centre Daily Record

Per Centre, Saturday. May 7

Gold 114%.

The time-table of the O. C. &A. R. R. will be found under the markets.

We give below our usual monthly report of the production, &c., of the several farms and trauts in this section of the oil region for April. There has been a small decrease on several farms, and an increase in others, meking about an even thing. There will be considerable of an increase over last month from the fact that several farms are reported which were not included in the iast. Other items of interest are also included in the present report. Those farms where the production is given from actual measurement by the superintendents and owners, are marked with a star; all others are estimated:

WOODS PARK Number of barrels on hand at month, Number of berrels of oil deliver-ed from wells during month, Average per day for month of Finance of wells producing,
Average daily production per
well, 434 Capacity of Iron tankage in bar-18,599 reis, Number barrels in iron tank, Barrels from tankage empty, No wells drilling, commen or abandoned during month. nenced, completed STAGARA FARM." 2 1-10

Empty tankage, Developing during the month was principally on the Dalzell, Columbia, and one or two farms on Cherrytree Run. Nothing whatever is doing on Benninghoff Hill. On the Hyde & Egbert farm quite a number of old wells were started up. We were unable to get the production of the Dempsey farm. on Cherrytree Run. New developments will be carried on the present month on nearly all the above farms and tracts. The total production per day of the farms mentioned above, actual and estimated, is 1,597 barrels. The production will probably reach 1,600 barrels per day in this neighborhood.

The widow Fregunda farm. West Hickory, was sold on Thursday to Grandin, Neyhart and Fisher Bros , for the sum of \$120,-000: This farm adjoins the Tuttle farm on which the Venture well is located. It has never been developed.

The Hydreck farm, located between the Paxton farm and Wegefarth City, on the plank rord from Pithole to Miller farm, is at present exciting some interest in petroleum circles. There are now on the larm two old wells, one of which is yielding 6 parrels per day and the other 10 barrels. Another well was struck on the same farm last week which is yielding 18 barrels per day, and is owned by G. V. Forman of Oil City, and W. W. Bronson of Pithole. The farm is owned by Geo. V. Forman of Oil City and Jonathen Watson of Titusville .-Several other wells are soon to be put down on this property and lively times are anticipated

Miss Maggie C. Temple has been appointed Postmaster at Polk, Venango County, vice Miss Jennie Temple, resigned.

DIVINE SERVICE -Rev. D. J. Beale of Green Springs, Del., will preach at the Presbyterian Church to-morrow (Sunday) both morning and evening.

On Monday evening at 714 o'clock there will be Episcopal Services held in the Presbyterian Church, by Bishop Kerfoot, of the Western Diocese of this State.

Several new wells have been started in the vicinity of the well recently struck on the Hiner farm, Pithole. Oil matters appear to be looking up in that neighborhood. The new well continues to yield 35 barrels per day.

The controling interest of the new well at Hickory, is owned by Petroleum Centre operators.

The up creek train was delayed this morning three honrs, an accout of a land-5 morning three hours 1 slide near Tidioute.

The follow address has been issued to the citizens of the United States, by Messra Wm. P. Mumtord, G. K. Gilmer, David B. Parker and Miss E. L. Van Lew, the committee ap. pointed to prepare an address to the citizens of the United States in regard to the condition and circumstances of the sufferers by the recent calamity at Richmond:

"Our beautiful city has again been visited by a dire calamity. We have been called to mourn the loss of many of our most valued and beloved citizens. Scarcely a family in our midst is exempt from the shadow cast by the Angel of Death. We do not mourn as those without hope.

We have the sympathy of the good and generous in every portion of our land, and we can plainly see through our tears the band of a kind and beneficent Providence. Many sweet drops of comfort are mingled in the bitter cap of our affliction.

The number of sufferers in this great calamity is not less than three hundred and fifty persons, of whom sixty-five have died and many more are seriously injured. Many of the families of those whose lives were taken from us, and many others who were dependent for support upon those who were wounded and are now helpless to give assistance, are suffering for the necessaries or life. To these we will esteem it a privilege to minister; but we would especially invoke the spirit of barmony and charity in i's most enlarged sense, and in our sympathies ignore all political and social distinctions in this hour of common suffering and sorrow.

"The object of the address is in the interests of a common humanity, to afford an opportunity to the benevolent of the whole country to give such assistance as their feelings may prompt."

From the Pittsburgh Commercial we copy the following, items in regard to the new well at Brady's Bend:

The oil excitement at Armstrong Run continues, as does also the flow from the big well. The average of the well is one hundred and fifty barrels daily with tools and rope in. It is not the intention to remove them as long as it produces at the present rate. Dr. Egbert, it is reported, has offered Mr. Meldron \$125,000 for his farm, which includes the new oil territory of Armstrong Rnu.

A correspondent writing from Brady's Bend, May 4th, says: I have just returned from the big well. It is flowing to-day at rate of 75 barrels in twenty-four hours .-From Salurday 5:30 P. M. to Snaday at the same hour the poduction was one hundred and ten barrels. There have been no forts as yet to get out the tools and rope from the bole. Jennings, of Brady's Bend. F. W. Andrews, and Dr. Jenkins, of Titusville. have commenced two wells a few rods from the big well. Buildings are going up rapid ly, and the excitement does not subside, but extends down Armstrong run to the river.

THE MIFARLAND TRIAL

NEW YORK, May 6.

The announcement that counselfor defense'would com up to-day aroused an im mence throng to the court room this morn. ing. For reasons unknown to the public, Judge Davis would not sum up for the prosecution, and said that his conviction was that the case was virtually ended. This remark caused a sensation among the friends of Richardson, who unbesitatingly asserted that cutaide influence had been brought to bear to prevent Judge Davis from summing up, as was his intention. When the Recorder had taken his seat, learned counse for defense, Graham. commenced his clos-

On Monday Frank Malpas, a merchant at Red Fork, Ark., was attacked by Ben and Sam Moore, in front of his store. He defeaded bimself with an axe, killing Ben and mortally wounding Sam.

A Toronto telegram of Thursday thus ruthlessly explodes the Indiana balloon story "No baloon started from here on the 28th of April, for New York or anywhere else."

The St. E. Can Lake Superior Rail-Oth Train's commence running to Kettle station this week.

The variety of languages spoken in the Ottawa Legislature, in Canada, was recently quite a source of embarrassment. The Speaker had occasion to call, in English, a disorderly member to order, the member did not understand, and the call was repeated in French; thereupon a third member began to remonstrate in Gaelie; the Speaker responded in what was supposed to be Greek; a Mr. Abbott thought it Choctaw, and uttered in forcible but not elequent English his protest against such bad language, whereupon a Mr. Levisconte began an elaborate harrangue in Spanish. It is suggested that the Parliament House be called the new Tower of Babel.

The Atlantic and Pacific Telegraph Company bids fair to give the public the benefits of more extended competition and a consequent reduction of rates. Contracts for the exclusive use of their wires have been signed with the Union and Central Pacific. Western Pacific, San Francisco and Sau Jose, and all the railroads on the Pacific coast, with but one exception. It is stated that this arrangement will result in the transfer of over two hundred operators from the service of the Western Union to the Atlantic and Pacific Telegraph Company.

The Cork Constitution says that vessels have been dispatched to the relief of a steam er reported fast in the ice off the count of Greenland.

A Wisconsto clergyman who has been preaching against marriaga. is ascertained to have upward of nine wives living in different parts of the country.

Revolvers were trumps in a recent Pbildelphia suchre party, and one man made four shots on a lone band, and went out .-The other gentleman passed-into history.

A man advertised lately to forward on receipt of a postage stamp, "sound practical advice, that would be applicable at any time and to all persons and conditions of life." On receipt of the stamps he sent his victim the following: "Never give a boy a penny to watch your shadow while you climb a tree to look into the middle of next week."

An Alleghany county, New York man who died recently, left his wife one cent, his brother a few dollars, and \$5,000 for the erection of a monument to bimself He is clearly entitled to the monument, but his wife should be permitted to furnish the in-

The owner of a number of government bonds, residing at Brattlebere, Vt., informs Gen. Spinner, United States Treasurer, toat for some time past he found an old stove a convenient safe for his bonds; but recently without his knowledge, the stove was used, and to his astopishment the bonds were baked to a crisp. The Treasurer has notified him to forward with the greatest care the "baked bonds," and if they can be identified, the government will elter pay their value or issue registered bonds in their place.

A Fifeshire man at the baptism of bis child being asked by the minister if he was prepared for the solemns occasion, replied with indignation, "I bae a firlot o' bannocks bakin' twa hame, on' a gallon o' the best Hieland whiskey, an' I wad just like to ken what better preparations ye could expeet frae a man in my condition in tife?"

OIL MATTERS IN FRANKLIN. - There is considerable activity among oil operators in this city. Twenty new derricks have ne up within a few days, and that num ber of new wells will go down. A very small weil-say three barreis ; of the heavy lubricating oil found in this neighborhood is a good paying investment .-- Franklin Spectator.

During a fight between the Moyamen sing Hose Company and Hibernia Engine Company, in Philadelphia Wednesday several men were severely beaten.
