The time-table of the O. C. & A. R. will be found under the markets.

LARGE OIL FIRE!

1,000 BARRELS OF OIL DESTROYED! LOSS UPWARDS OF \$20,000!

Between 12 and 1 o'clock this morning a disastrous oil fire broke out in the vicinity of the Baum farm and Evans tract, Cherry-tree Run, by which a number of oil well rigs, engine houses, tanks, and about 1,000 barrels of oil were destroyed. The fire was occasioned as follows: The workmen of the Niagara Oil Co. were engaged in running oil into the Central Transportation Co's tank No. 13, when owing to some negligence the tank—a 500-barrel one—was allowed to overflow, no one discovering it until the oil had run down the Run as far as the Chambers tract, about a quarter of a mile below, at which point it took fire from a gas light from one of the wells, and in an instant there was a mass of flames. The fire extended as far as the receiving tank, which, with its contents, was entirely destroyed. The fire spread rapidly to the adjoining tracts with disastrous effect. The following is a list of the wells burned:

Baum Farm—one derrick belonging to farm; rig, engine house, and tank containing 100 barrels of oil, owned by Pollock Brothers.

Evans tract—Well No. 3, derrick and tank containing 100 barrels of oil, owned by Evans & Gordon. Well No. 2, same tract, derrick, engine house, rig and tank containing 150 barrels of oil; owned by R. W. Evans.

Chambers tract—Two wells, rigs, engine houses, tanks, &c.

Hart tract—Well No. 1, derrick, engine house, &c.

The Niagara Oil Co. loss over 500 barrels of oil.

Receiving tank, &c., owned by the Central Transportation Co.

Scott's pump, engine house and entire rig for pumping water to the hills on both sides of the Run and oil to the Story farm, was destroyed.

The entire loss will not fall short of \$20,000.

Oil has been discovered in Haymond township, Taylor county, West Virginia, and no little excitement prevails there.—Oil wells are going down, others are in contemplation and leases are being rapidly made.

Mr. J. S. Water is offering groceries and provisions at remarkably low prices. By referring to his advertisement it will be seen that he is prepared to sell a large quantity of a different variety of articles for the small sum of \$1.00. Give him a call and see for yourselves.

The water in Niagara river has not been so high for years. Several of the islands which are usually dry are being rapidly made.

The Oil City Times has been enlarged by the addition of one column to each page, making it a 23 column paper.

The Pittsburgh Commercial's correspondent at Foster Farm, writing to that paper under date of May 6th says:

Well No. 75, Snyder Farm, owned by the Venango Central and Duck Creek Oil Company, put down last fall but never has produced over twenty barrels a day, was torpedoed on Thursday last and is now doing two hundred barrels and increasing. This is the best well on the Allegheny river and probably the best in Venango county today.

The McDonald well, about three hundred feet farther up the hill, on the Hamby Farm adjoining Snyder Farm, of which mention was made some time ago as doing twenty-five barrels, has been torpedoed, and is now doing eighty barrels.

The Prentiss and Angel well, just put down on the Snyder farm, makes an excellent show, and is good for a fifty or seventy-five barrel well. This opens up a large tract of territory yet undeveloped.

The Philadelphia and Boston Company has made a good strike on their territory on the face of the hill, from the lower trestle at Foster. This well started at about four barrels, was torpedoed last week, and is now doing one hundred and twenty bbls. This is the latest strike about Foster, and is causing considerable excitement. Direct on the oil belt, across the river, in line with well No. 75, Snyder farm, are the Foster and Rial property. The former, inexhaustible as it appears to be, still maintains its reputation; the latter (Rial property,) adjoining Foster, but yet undeveloped, has everything in its favor to be good territory. These strikes will undoubtedly cause lively times around Foster the coming season.

To-morrow Gardner & J. Forepaugh's Circus and Menagerie put in an appearance at this place, giving two performances, afternoon and evening: What the character of this show is can be seen by the remarks of the N. Y. Sunday Mercury:

Gardner & Forepaugh's Circus & Menagerie combined, made their grand entrance in town yesterday, making a splendid street display. The procession consisted of a band-choir, drawn by twelve superb horses, followed by twenty-two vans containing the most rare specimens of brute creation. They exhibited yesterday afternoon and evening, to the largest audience ever assembled in this city, their large three-centre-pole being filled to overflowing.—The equestrian part of the performance is all of a high order of merit, the variety portion being fully up to anything ever seen here. The collection of wild animals is acknowledged by all to be the largest and finest now traveling.

ANOTHER FIRE.—A fire occurred on Wednesday night last on the Osborn Reserve of the Big Tank Farm, Cherrytree Run, which destroyed the derrick, engine house, &c., of the Osborn well. It appears that the well had been torpedoed Wednesday, and during the night commenced flowing through the casing and thence through the gas pipe into the fire-box beneath the boiler, where fire was communicated which resulted as above. Mr. Osborn's loss is about \$1,000. The well is still flowing at the rate of 12 barrels per day.

Elsewhere we publish the request of the Republican citizens of Oil City that Mr. W. J. Galbraith be a candidate for Congress, and also his letter of acceptance. Mr. G. is a very popular man and would undoubtedly poll a heavy vote. He has also served his country honorably and in an acceptable manner.

Constable Lawrence has made the following appointments for this place and Rouseville:

J. Holaway, Deputy Constable for Rouseville.

W. H. Smith, Deputy Constable for Petroleum Centre.

We understand Mr. Smith is going on as night watchman.

Yesterday morning, about half past eight o'clock the building formerly occupied by J. W. Downer, Yosemite Bitter manufacturer, was found to be on fire, and but for the timely assistance of the neighbors would certainly have been destroyed together with the adjoining buildings. The fire originated from a defective flue. Loss about \$100.

Susan B. Anthony said, while there last week, that "Dayton was a very handsome little city, and could be made the most delightful place to live in the world, with an intelligent woman for Mayor!"

One hundred souls with but fifty thoughts, and one hundred hearts that beat as fifty, were granted permission by the Cincinnati Probate Court, last week, to see if they could keep it up for a life time.

Pittsburgh has at last got a woman suffrage association, composed of thirty-five members, who are delicately classed as "nearly all gushing young maids."

The personality of the gentleman in black has been set at rest. The question was settled at Mooreville, Ind., the other day.—Some workmen, in making an excavation, dug up a skeleton, well preserved, corresponding to the human skeleton in all respects, except that the forehead was villainously low, with two horns curving backward; the arms were of unusual length, and the spinal bone terminated in a tail, of which about a foot in length still remains. Monkeyism would account for the tail, but falls lamentably on the horns. Now arises the interesting question, whether, if there be anything satanic about this skeleton, it proves the original demon to be dead or alive.

Daniel Webster once said: "There is nothing upon this earth that can compare with the faithful attachment of a wife; no creature, who, for the object of love, is so indomitable, so preserving, so ready to die. Under the most depressing circumstances, woman's weakness becomes a mighty power, her timidity becomes a fearful courage, all her sinking and shrinking passes away, and her spirit acquires firmness of marble—adamantine firmness, which circumstances drive her to put forth all her energies under the aspirations of her affections."

There is every reason to believe that the Fenians mean business. The utmost activity prevails among officials; men being dispatched daily to different points to facilitate the concentration of the army, which is said to number thirty-three thousand well disciplined men, fully provided for a long campaign. O'Neil says he is fully provided with means, and that contributions are flowing in rapidly, and says that the statement that the 10th of May is set down as the time for the grand movement is incorrect.

The other day Molecule propounded the following to Atom: "A boy said to a gentleman, 'My father and mother have a daughter, but she is not my sister.' Now how do you explain that?" Atom reflected but all in vain. To his every suggestion Molecule replied by a mild but decided negative. At length Atom was forced to give it up. "Why, it's simple enough," said Molecule with an exasperating smile, "The boy lied!"—Harvard Advocate.

On last Saturday, at Castalia, Ohio, two ladies, Mrs. T. W. McCarty and her daughter, Mrs. Dwight, were terribly burned by the explosion of a lamp containing burning fluid. The daughter died about one o'clock p. m. Mrs. McCarty was, at that time, expected to die at any moment, and was lingering in terrible agony. Both ladies were burned to a crisp from head to foot.

A fire at Quincy, Ill., Thursday night, destroyed fifteen business houses, including the Daily Herald office, causing a loss of three hundred thousand dollars. The amount of insurance is not yet known. The principal sufferers are James A. Parker of the Daily Herald, Bristol & Co., Emmons & Aldrich, Murphy & Charles, and Dr. Ralston.

It is stated that Reil is so elated with his greatness that he has dropped his scheme for annexation to the United States, and will be satisfied with nothing else than independent nationality. O'Donahue, one of Reil's ministry, is a Fenian, and hopes to make Winnipeg the battle ground between the Brotherhood and the Canadians.

This is what Leavenworth, which is in Kansas, claims the champion belt for: "We can turn out a larger number of people to a small fire, and they'll leave a better mine, and run faster, and surround the conflagration quicker, stay there longer and go home wicker than any other town in America."

Somebody said very neatly, though perhaps some time ago: "Politeness most invariably requires a gentleman to agree with a lady, but when she speaks of the great beauty of some other lady it is always safe for the gentleman to say there are other styles of female loveliness that he admires much more."

Gloves, it is said, will be very cheap in the fall. The Paris market is over stocked, and the Italian gloves are rapidly gaining favor, although they do not wear as well as the French gloves, and the kid is not so fine.

A French chemist, Mr. Hurtault, has invented a process for making petroleum explosive by mixing with it a small quantity of "amyl alcohol."

It is stated that in the villages of New England where the Maine law is enforced, the increase in the sale of opium is so large as to attract attention.

CALL.
W. J. GALBRAITH, Esq.,
DEAR SIR:—As the time is fast approaching when the Republican voters of this Congressional district will be called upon to elect a candidate to represent them in the Halls of Congress, and believing that in the future as in the past you will be found on the side of truth and right, and having confidence in your integrity and ability, We, the Republican voters of Oil and Venango City, would respectfully request you to be a candidate pedging you our united support:

GENTLEMEN:—Your letters requesting me to be a candidate in the Republican party for Congress in this district, has been received.

In reply, permit me to say that although I feel myself unworthy of the trust which you confide in me, yet the urgency of your call, and its strength both as regards numbers and influence, constrains me to yield my consent.

Having confidence that in the coming political campaign, as those which are past, (whoever may be your standard bearer in this district) the principles of the Republican party will triumph, I am

Yours Respectfully,
W. J. GALBRAITH.
