Drilling Jars.

We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars

Which for Strength and Durability excel any Steel Jar heretofore in use.

The Advantages We Claim

over Lead Jars are that, being ALL STEEL, they resist more than Jars composed partly of Iron and partly of Steel, and being a Steel surface to the rock, they are preserved from wear on the outside, and will keep longer.

We warrant them to Drill Fifteen Hundred Feet.

We also keep on hand

Cast Iron Working Barrels.
