FIRE MEETING, TO-NIGHT. There will be (a fire meeting at Sobei's Opera Honse, this evening at 8 c'clock abarp. A general attendance is requested as business of importance will come before the meeting. "

Two refractory Individuals from Shamburg, after getting boozy on the benzine sold thereabouts, paid a flying visit to Petroleum Centre. The mixture of the two qualities of chain lightning caused these lodividuals to lose their identity apparently, and they imagined themselves second editions of Henna and Morrissey, and concluded to run things accordingly, but instead ras directly into the arms of officer Kinney, who was bard-bearled enough to put them in the lock-up for safe keeping. This morning their identity became fully established after paying Justice Reynolds a visit and contributing a sum of money towards paying the current expenses of the township. And they took their departure for Shamburg, and probably will not pay this place another visit for some time.

The storm of yes terday afternoon made almost a complete wreck of derricks on the Pierson, Hess, Niagara Wood and other farms in that yicinity taking them down as if they; had been so much chaff. The damage is qu'ite heavy, as many of the derricks were connected with pumping wells, and will have to be rebuilt of entirely new eing literally broken into fragments. We have not learned that any one tarm was pumping 300 barrels per day. As was once a millionaire. When the oil fever was injured by the falling debris, but engi- he probably never saw an oil well, and un. broke out in Pennsyvania. Mr. Hart ownneers met with narrow escapes. On the derstands nothing about the oil business, he flats no injury to property to speak of was is excusable. done.

THE DRIVE WELL SWINDLE.

We understand that a man namedGreen bas been sending agents through the code-try trying to collect a claimed royalty of from five to ten dollars on drave wells, alleging that the right to use the same is covered by a patent obtained by him in 1868. The game has been tried to quite an extent in this vicinity, and a number vic-timized. We have received a circular from timized. We have received a circular from a perfectly responsible firm saying that this attempt at collecting a royaity is an un-mitigated swindle. The drive well princi-ple is an old device, and is not covered by any patent. The parties attempting this black mailing operation have been put to the test is court several times and have never dared to let the matter come to trial We advise our readers to pay no attention to any one claiming a bonus on drive wells for there is little danger of their submitting

their claims to a legal tribunal.-Corry Republican. The individual in question succeeded in victimizing quite a number in, this

vicinity, by threatening to prosecute them if they did not "come down with the stamps." It has the appearance of a blackmailing operati on throughout.

A CARD. felt thanks to Messrs Geo. Munger, John Waddell, Geo. and John Taylor, Mr. Lawrence, Reddy the Blacksmith, and all of my friends and neighbors, for their untiring exertions to save my property from the

devouring element, on Friday night last. GEO. HOWARD.

Petroleum Centre, May 24, 1870. The M'Cliutock House has recently changed hands, Mr. C. Griswold having sold out bis interest to Messrs Hulbert & Francis, who will bereafter "run the hotel," These gentieman have thoroughly relited it by painting, papering and cleaning it up in general, and propose to keep a botel that will not only prove a pleasant home for travellers and boarders, but be ,a credit to the place. In which we hope they may be successful,

Three suspicious individuals were watched by the police, last night, from the fact that one of them was overheard to make Baltimore would then he thirty miles nearer the remark, "that they must have money if by railroad and tide water to the oil regions they had to go through some person for it," which they evidently intended to do should a favorable opportunity present itself. As port, fle said that every possible facility they have not left town yet, the police have them under surveillance, and will arrest them on the least prefense.

We are informed that thirty-two derricks were blown down on the Blood Farm, during the storm of yesterday.

Griffes Bros, are enlarging and otherwise fitting up their drug store. When completed it will make a bandsome place of business.

Attention is called to the announcement of Henry Dubbs, who is a candidate for County Commissioner subject to the usages of the Republican party.

THE JAMESTOWN & FRANKMIN R. R.-The track of the Jamestown and Franklin railroad is now laid to Oil City, on the west at the terminus of the road, at that place. zle.

Elsewhere will be found the intest Fenian news. Do not forget the fire meeting at Sobel's

Hall, this evening. Business of importance will come before the meeting.

The editor of the Jamestown Journal is

THE FENIAN ADVANCE.

BUFFALO, May 23 .- Great activity has existed among the Fenian brotherhood in this city for the last forty-eight hours. The leaders are very reticent. A movement is on foot of some kind, but whether an invasion of the neighboring frontier or to aid Reif is a quesion. Large bodies of drilled veterans left to-night. Their destination is unknown.

MONTPELLER, Vr., May 23 .- Many reports are in circulation to-day regarding the Fenlans, which, if true, show they mean to do something. Besides rumors of considera" ble numbers being below awaiting tansportation there is information that two companies of Fenians shipped from Burlington this afternoon for the frontier, and that another large body is en route for the same point by boat from Pittsburgh.

BUFFALO, May 23 .- I P. M.-The city is full of Fenians who are quartered quietly among their friends.

SAULT ST. MARIE, May 23 -Colonel Officy, American Commandant, has notified Colonel Balton that a number of suspicious characters have passed the canal. Guard I take this occasion to return my heart- has been doubled. Volunteers are warned to be in readiness.

Baltimore and the Oll Trade.

There was an informal meeting of our oil dealers at the rooms of the Petroleum Association, this morning for the purpose of having a consultation with John W. Garrett, Esq., President of the Baltimere and Obio Railroad, with reference to the shipment of oil to Baltimore via the Pittsburgh and Connellsville Railroad. There was quite a large attendance of oil dealers. Mr. Garrett was unable to be present, but he was represented by Mr. G. R. Blanchard. the General Freight agent of the Baltimore and Ohio road. The meeting was informal and conversational in its character, and a change of opinions was had. Mr. Blanchard stated that the Council'sville railroad would be completed within eight months. and referred to the advantage that the completion of the road would give to that city. than New York or Philadelphia, and would consequently be the natural point for exwould be given to the trade, when the road was finished, for the shipment of oil via Bultimore. Mr. B. also gave some interest-Baltimore. ing information in regard to the wharfage facilities and tomasge of Britimore, which was highly satisfactory to the trade.

The interview was a very pleasant one throughout, and from the manner in which the dealers expressed themselves, the Ind extions are that Baltimore is the "coming city" for the export trade in oil.-Pittsburgh Chronicle, Friday.

Johanna Gotlieb Christ Knipfenhausenstein has become a citizen of Pittsburgh. Path The man who is canvassing for the directory says there is not another person by that name in the ofty.

A Saritogs German sent the following dispatch to New York by telegraph, "Vy you no sont them, guts-I veichts for'm? He was up there waiting for his household' side of the Creek. Cars are now standing goods to errive, which will explain the puz-

> A mineral spring has been discovered near Philadelphia which is supposed to possess wonderful medicinal propeties, for its water taste like damaged corn beef brine drunk out of an old India rubber shoe.

Mr. John Hart, who is creating such a inclined to doubt the truth of the statement great furore in Kelly & Leon's Minstrels by made by us that the big well on the Daizell i his perfect delineation of negro character ed a bundred acres of wild land near Tidioute, Pa., worth about sixteen cents an acre. He was then running a canal boat on the Delaware and Hudson canal. In the Fall of 1864, several immense oli_wells were struck on Mr. Hart's land. Stock companies were formed in which he was a Prominent shareholder, and at one time he up by Schonolom & Wing, at White Oak was offered five hundted thousand collars Station, was caught by a whirlwind during for his interest. This was refused. He the storm yesterday, raised from its feunda- left the canal, built a most magnificent private residence, wore 'diamonds of almost fabulous value, and seemed made of money. At one time he was a prominent candidate for Congress, but failed to secure a nomination through the inertness of a trusted frienc-Fortune's wheel suddenly turned backward. Mr. Hart was inveigled into more oil speculations, and within three years was without a penny. He then turned his attention to negro ministrelsy, and is said to be superior to either Dan Bryant, T. D. Rice or Dan Emmett in his delineations of negro char
