Drilling Jars.
We would respectfully announce to our customers and the public generally that we have constantly on hand

Cast Steel Drilling Jars
Which for strength and durability excel any steel-lined jar heretofore in use.

The Advantages we Claim
Cast Steel Jars are that, being ALL STEEL, they are stronger than Jars composed partly of iron. They present a steel surface to the rock, they are protected from wear on the outside, and will keep their shape longer.

We warrant them to drill Fifteen Hundred Feet.
We also keep on hand

Cast Iron Working Barrels.
