No. 3 - Direct to Philadelphia without change.

No. 2 - Direct from Pittsburgh without change.

No. 1 - Direct to Pittsburgh without change.

Monday, May 30, 1870.

Gold 113 1/2.

There was a rumor on the street this forenoon that a four hundred barrel well had been struck on the Tuttle farm, near Fagundes City, West Hickory. From a gentleman just arrived from that place we learn that the rumor is incorrect.

A new well was struck on the Jacob Black farm, near Pitohole, a few days ago. It is yielding six barrels per day. It is located on the black oil belt, but what is a little singular is that it is producing green oil of an excellent quality. Pitohole rejoices exceedingly thereat.

The Republican Convention of Clarion county has declared unanimously for the renomination of C. W. Gilliland for Congress from this district.

On Saturday seven ships, loaded with refined and crude petroleum, cleared from Philadelphia for Europe, comprising 1,169,000 gallons. The total shipments from Philadelphia amount to 5,000,000 gallons in excess of the same time last year.

The Citizen says: All persons who have not paid their taxes for 1868-9 should attend to it this week, as the County Treasurer will commence selling lands for unpaid taxes, at the Court house, in Franklin, on next Monday.

The third sand rock was struck in the McCray well, Omega Oil Co's farm, yesterday. The rock is very similar to that found in the Batzell well No. 2, and the indications are good for a big well. The well will be completed in a day or two.

A correspondent of the Venango Citizen, writing from White Oak Station, gives the following graphic description of the new Oil Dorado:

As per agreement I wrote you this morning from the new Oil Dorado, located on the hill a few miles below and south of Tidionte, and twelve miles above and north of the county seat of Forest county, Tionesta.

White Oak Station heretofore was only a way station of small importance, located nearly in the woods, on the bank of the Allegheny river, but now it has grown to gigantic proportions as a passenger station, and bids fair to become one of the most important ones on the O. C. & A. R. R. Daily the crowded trains discharge their living freight on a narrow platform, not more than eight feet wide, between building and cars, making a merciless jamming and crowding, in which the crinoline of the 16th Amendment suffers severely.

The town on the hill is growing much more rapidly than the one at the station, owing to the slowness of land owners. There is not over fifteen or twenty houses at the station, newly built, but I see evidence of rapid growth in the future, as the ground is being laid off in lots which are being rapidly leased at fair prices.

Double boarders can't have two beds with a room to it. Beds without bug in the rule, as everything is new, it not so clean. I notice that Petroleum Centre is represented in this region by Foster & Hamilton, News Agents; Schonblom & Wing, wholesale and retail grocers, and several others, whose name I did not learn.

A drinkist need not go dry for want of Jersey Lightning, as that article, and beer, ale, pop, etc., can be had on every corner and in every shanty.

PETROLEUM AS A STEAM GENERATOR.—A process for converting petroleum to the use of fuel and the production of motive power, has been experimented with for a week past at the foundry of Messrs. Barrows, Sayer & Co., of this city. The peculiarity of the invention consists in developing a hydro-carbon gas from the oil by the application of super-heated steam, and the consumption of the joint products of this gas and steam in the fire-box through ordinary gas burners. The process promises to work a revolution in the uses of petroleum and to be both economical and practical.

The grocery store of Thos. McHugh & Co., which has been closed for some days past, is re-opened again solely under charge of Mr. McHugh. He will continue to keep on hand a full and complete assortment of groceries, provisions, vegetables, &c., all of which will be sold cheap for cash. We speak for him a liberal share of the public patronage.

There is to be a race between Lady Fremont of Kane City and Bay Bessie of Jameson, for a purse of \$200, on Friday, June 17th. The place of running will be announced hereafter.

There will be a regular meeting of the Young Men's Christian Union, at the Presbyterian Church, this (Friday) evening. A general attendance of the members is requested as business of importance will be brought before the meeting.

The Presbyterian Church, at Cooperstown this county, will be dedicated on Sunday, June 26th, 1870. Rev. S. J. M. Eaton, of Franklin, will preach the dedicatory sermon.

Do not forget the grand race at Oil City to-morrow, between Kane City and Alleghozoelum City horses. A lively time may be expected, as the horses entered are in good condition for racing.

P. S.—The above race will not come off, one of the parties having withdrawn his horse from the contest.

DIVINE SERVICES.—Rev. David Patton, of New Castle, Pa., will occupy the pulpit in the Presbyterian Church, on Sunday next, forenoon and evening. The announcement made last Sabbath to the effect that there would be no preaching the coming Sunday was premature. Rev. Patton is represented as being an eloquent and able divine.

CRUDE AND REFINED.

An English farmer recently placarded the following announcement.—"Extensive sale of live stock, comprising not less than 140,000 head, and an unlimited right of pasturage." All he had was a few hives of bees.

Three things to avoid—idleness, loquacity and flippant jesting.

Three things to hate—cruelty, arrogance and ingratitude.

Wise sayings often fall to the ground, but a kind word is never thrown away.

Life is a good deal like a pair of trousers—the comfort increases as the skin wears away.

A celebrated writer says that no one can describe the almost inconceivable mélange of a true female gossip, where dress and music, dancing and preaching, pelisses and beaux, flowers and scandal, all meet together like the oil and vinegar of a salad.

An amusing chap, out in Kentucky, thought to have a little fun the other evening at the expense of a neighbor by appearing as a ghost. The farmer, a Hercules in strength, struck out at the ghost straight from the shoulder. Result: Amusing chap carried home in a blanket.

The Louisville Courier-Journal announces that the feet of Kentucky women are as white and beautiful as snow-flakes.

The mere honesty a man has the less he effects the airs of a saint.

The Sons of Malta again flourish in Philadelphia.

To make little boys trousers last, when you make a suit of clothes for them, finish the coat first, and by so doing you will make the trousers last. It is the only way the thing can be done.

The Danbury News says there is nothing so calculated to call out the deep earnestness of a true woman, and enlist her most faithful devotion, as doing up her back hair.

Boise City, Idaho, has only one unmarried woman. This lack of girls is bad for Boise.

Baltimore is all broken out with strawberry festivals.

A few evenings since a widow, who was known by the entire congregation to be greatly in want of a husband, was praying with great fervency. Oh, thou knowest the desire of my heart," she exclaimed.—"A m-a-n," responded a brother, in very broad accent. It was wicked, but we are very sure several grave members smiled on the occasion.

An Indianapolis man, missing a quantity of his corned beef, found his neighbors watch at the bottom of one of the barrels. He revenged himself by putting it up at raffle, in aid of a church to which the robber belonged.

Mr. Stephen's Great Work.

We have received from the publishers advance sheets of the second volume of Alexander H. Stephens's book, entitled "A Constitutional View of the Late War Between the States." The first volume was delivered to subscribers more than a year ago. The second and concluding volume has been delayed until the present time by the ill health of the author. As an exponent of the views of the leaders of the so-called Confederate States, and a clear, tersely written narrative of events during the struggle, the book is invaluable to the student of history and to the general reader as well. The capacity of Mr. Stephens for the task no one will dispute. Himself a prominent actor in the events which make the civil history of the attempt at Secession, his facilities for the accumulation of facts, and his habits of patient research, could not fail to make a valuable addition to the history of the war. The intelligent reader will find much to command his attention, notwithstanding he may dissent from the author's views and deductions. The book is the only one worthy of note, on the subject of which it treats, written from a Southern standpoint. It is worthy of consideration as the work of an eminent thinker, and should be in every man's library.

The book will be issued in a short time; and as it is sold by subscription alone, agents are wanted in every county. Address National Publishing Company, 26 South 7th st., Philadelphia.

Jessie Williams had been doing something which her mama had told her she mustn't do. She had been eating currants, and of course, got her mouth all stained. That's the way she got found out. Mrs. Williams said:

"You know you were forbidden to eat currants!"

"But, mother, Satan tempted me!"

"Why didn't you say, get thee behind me Satan?"

"I did say, 'get thee behind me, Satan,' and he went and got behind me and pushed me right into the currant bushes!"

JUNE.—June, the sixth month in our calendar, has 30 days. The name is variously derived from Juniores (the young men) to whom Romulus is said to have assigned it, as he assigned May, to the elders; from Juno, whence it was sometimes called Junonialis; from Junius Brutus, the first consul; and from jingo (to join) with reference to the union of the Romans and Sabines. The month was named by Charlemagne Bratobmonst, or fallow month.—It is an old saying that June and October are the most perfect months of the year.

"And what is so rare as a day in June?"

Then, Heaven tries the earth if it be in tune, And over it softly her warm ear lays.

Local Notices.

ODD FELLOWS! ATTENTION! The installation of the officers of Petroleum Centre Lodge L. O. of O. F. will take place at Good Templars Hall, this (Friday) evening, June 10th, 1870. All charter members are hereby notified to be in attendance.

Banta's Patent Slate-Lined Refrigerator.

Lined with Slate, having Air Chambers without Filling of any kind—perfectly dry and sweet—they are believed to be unequalled by any other now in use, and are of Moderate Cost.

Slate possesses an acknowledged superiority over Zinc for lining purposes, being free from smell, taste and corrosion, and can be easily cleaned, preserving every article in a sweet and pure state.

SCHONBLUM & WING.

COLD is a word which Codrington & Corn well propose render obsolete. For modus operandi call and see them. march 10th.

All kinds foreign fruits at Felter, Fenner & Co's.

Infringement Notice.

The subscriber has learned that a certain firm in Titusville, known as "Bryan, Dillingham & Co.," have commenced the manufacture of Sucker Rods with Socket Joints. This is a Direct Infringement on his Rights, as his claim is "connecting two sections of rod by means of wedges, wedging sockets, and double coupling bolt." He does not specify any particular shaped wedge, nor of what material it shall be made. All rods made as above described outside of his manufactory, are direct infringements. This, therefore is to

CAUTION OIL OPERATORS, and all others, against buying or using any rods so made, except those of his manufacture, as by so doing they will lay themselves liable, and will be dealt with according to law.

WM. J. INNIS, PIONEER, April 9th, 1870.
