ARRIVAL AND DEPARTURE OF TRAINS ON O. C. & A. R. R.

On and after Monday, May 30th, 1870, trains will run as follows:

Table with columns for NORTH, SOUTH, and FRIEGHT TRAINS NORTH and SOUTH, listing arrival and departure times for various stations.

Gold 113 3/4.

The report of the Petroleum Producer's Association for the month of May is out. By it we learn that the number of barrels of oil on hand at the wells at the close of the month, 99,541; Number of barrels of oil delivered from wells during the month, 497,908; Aggregate, 597,449; Deduct number of barrels of oil on hand at the close of last month, 97,880; Balance showing the production for the month, 499,569; Average per day for the month containing 31 days, 13,211.9; Number of wells producing during the month, 2,336; Average daily production per well during the month, 5.6; Number of wells being drilled, 443; Number of wells commenced during the month, 159; Number of wells completed during the month, 162; Number of wells abandoned during the month, 91; Number of abandoned wells resumed, 39. The difference between the Herald report and the producers, in the daily production, is 654 barrels. 48 districts are reported.

This evening Franco & Lannier's Theatrical Constellation open at Sobel's Opera House, for an engagement of four nights. This company are highly spoken of by the press everywhere they have performed and we bespeak for them crowded houses. To-night will be presented the great historical drama of "Lucretia Borgia," the performance concluding with a favorite farce.

The new well on the Omega farm still holds out at 50 barrels per day. We were in error yesterday in stating that the well had 37 feet of fourth sand rock. It should have read 37 feet of third sand rock, the wells in that vicinity having no fourth sand.

At Corry, last Friday, one of her verdant youth was swindled out of \$15 by betting on three card monte.

Corry claims twenty-nine manufacturing establishments, running from machine shops to ginger pop shops.

We copy from the Titusville Herald a synopsis of the report of the races at Oil City, yesterday:

Precisely at two o'clock the first race was called for horses that had never beaten 2:48 owned in Venango and Crawford counties sixty days previous to closing of entries. Purse \$100; \$200 to first, \$125 to second and \$75 to third horse. The following horses were entered, and promptly appeared on the track:

- 1. J. W. Humphrey, Titusville, b. g. H. George.
2. P. H. Tiernan, Oil City, br. m. F. Dew.
3. James McDean, Meadville, b. g. Dickens.
4. James G. White, Oil City, a. m. Lady Gay.

Foggy Dew held the call in pools at slight odds, Dickens being second choice. Honest George won the pole, Lady Gay second, Dickens third, and Foggy outside. After four ineffectual efforts the word was given, and the horses started on.

FIRST HEAT.—Lady Gay got a little the best of the send off, which she managed to keep to the three-quarter pole, Dickens following close. Foggy Dew held third place to one-half mile pole where she gave place to Honest George, whose steady, sure pace showed his usual "staying" qualities with no chance for "bellows to mend." As the horses turned into the home stretch "the great novelist" showed his stride for the first time in the heat and came dashing up to the score in 2:49 winning the heat by two lengths from Honest George, the brown mare third and sorrel fourth.

SECOND HEAT.—The horses got away well together, Foggy slightly ahead, but at once gave place to Lady Gay who led to the quarter pole in 44 seconds, Dickens second, Honest George third and Foggy fourth all apparently lapping each other. On second quarter, Foggy drew into the lead, Honest George taking last place and passed the half mile pole at length ahead of Dickens in 1:20. On the third quarter Dickens went up and the Lady showed him her heels, Foggy leading to three-quarter pole in 2:15. As the horses turned into the home stretch Dickens went off his feet and ran some distance, then suddenly dropped himself in good shape and crossed the score a neck ahead in 2:27; Lady Gay third and George fourth.

The heat was awarded to Foggy on the score of fastest trotting.

THIRD HEAT.—This was by far the finest heat of the race. The horses got off well together. Foggy Dew leading to quarter pole in 43 seconds, when Dickens, smarting under his late defeat, passed her and took the inside, retaining her position through the heat, coming in winner by two lengths in 2:53, Honest George second, Foggy Dew third and Lady Gay fourth.

FOURTH HEAT.—Betting, which at the close of the second heat was rather in favor of Foggy Dew, was now all in favor of Dickens, he holding call in pools as no end of odds.

RECAPITULATION.

Table with columns for Dickens, Honest George, Foggy Dew, Lady Gay, and Time, showing race results.

No. 2.—For pacers; \$175 to the first, \$85 to the second; and \$40 to the third. 1 Jas. Tate, Oil City, a. m. Mary Ann. 2 Isaac F. Dare, Cleveland, br. m. Maggie Mitchell. 3 S. M. Bane, Pittsburgh, g. g. Sam Hill, formerly Swan Bitters. The race was won by Maggie Mitchell.

Another large and fashionable audience greeted the Wallace Sisters last evening, and as usual their excellent performance in the beautiful burlesque of "The Invisible Prince," was loudly applauded. Miss Agnes as Prince Amabel; Miss Jennie as Apricotina; Miss Minnie as The Fairy Gentils, and Mr. Villa as The Infante Furibond, exhibited rare histrionic talent, the acting being life-like in the extreme. This talented troupe have the richest costumes, the liveliest singers and dancers, and the best light comedy and burlesque performers that have ever visited the oil regions. The little ones, Misses Minnie and Maud, came in for a large share of applause. The singing and dancing of these charming little ones is by far superior to anything of the kind ever performed here before. Our citizens will be pleased to learn that this excellent company intend paying this place a visit the coming season. They will always be welcome.

The well at West Hickory, struck day before yesterday, is yielding 40 barrels per day. It is located about forty rods north of the Venture well, and was put down by the same parties who own the former, Messrs. Vera, Blake, Irwin, Bird and others, of this place. They are of the opinion that it will increase in production somewhat, but do not think it will prove as good a well as the Venture.

Lent's famous New York circus, the best probably in the country, is posted to exhibit in Erie Monday, June 27th.

CRUDE AND REFINED.

A York State girl of spirit couldn't stand her father's reprimanding her, so she placed herself beyond his jurisdiction with bed-bug poison.

The Xenia, Ohio, Torchlight lamented that dogs with oyster cans attached are becoming scarce in that village, and it plaintively inquires, "Is the spirit of youthful enterprise dying off?"

Girls would do well when they are married to burn up all their old love letters. A gentleman found a letter addressed to his wife by some former admirer after he had been married to her two years, and was so provoked at the tone of the letter that he immediately applied for a divorce.

The railroad war goes bravely on, and from a reduction in passenger rates the fight has extended to the carrying trade. The rate of \$120 per car load of cattle from Buffalo via N. Y., Central, has been reduced to \$55. The Erie responds by reducing the rate to \$40 per car.

A Madison, Wis., editor objects to the "Keep-off-the-grass" sign in the park, and declares that according to his idea the chief end of grass in the parks is not to be made hay.

Nazareth Hill, who was accused of stealing a horse in Detroit, has been triumphantly acquitted. There is more good in Nazareth than he got credit for.

The wife of an Indiana clergyman procured a divorce and a fresh marriage license all within six hours the other day. Talk about the law's delay after that.

An exchange says: "Trying to do business without advertising is like winking through a pair of green goggles. You may know that you are doing it but nobody else does."

Just think of it! A Pittsburgh man actually picked up courage to thrash his mother-in-law. Of course the scoundrel was arrested. If he is sent to the penitentiary the authorities will not be at any expense in having his hair cut.

One Rodgers, who advertises himself as a "converted comedian," is lecturing on temperance in Sobenotady. The Union of that city hopes he is converted sufficiently to call at that office and pay a little bill which has been standing against him for several years.

A western obituary notice closes by saying: "She had an amiable temper and was uncommonly fond of ice cream and other delicacies."

M. Pichon, the new French Minister of Public Works, has but one arm, whereupon a pitiless Paris wag remarks: "Well, he can't dip in with both hands, anyhow." We have but few one armed office holders.

Connecticut is about to undertake to reform her laws by debarring the sale of all poisonous alcoholic beverages, so productive of delirium tremens and all other kindred ills. If she cannot prevent the sale of whiskey, she will at least try to exclude all its adulterations. Whisky, "pure and simple," is hereafter to be insisted upon, and the makers and vendors of beverages containing strichnin, sulphuric acid, benzole and other invigorating decoctions known as "liquid lightning," are to be visited with heavy penalties. If she succeeds, the may count on a rapid increase in her population. But she won't.

STAMPED ENVELOPES.—About the 1st of July next, the Postoffice Department will commence the issue of a new series of stamped envelopes, and a new newspaper wrapper. The stamps will be of the same design and color as the new postage stamps of corresponding denominations. The shape of the stamps embossed on the envelope and wrapper will be oval.

Do not forget the opening performance of French & Lannier's Dramatic Constellation, at Sobel's Opera House, this evening. A splendid bill is offered.

By the following from the Erie Dispatch it will be seen that the manufacturers of that city are boring wells for the purpose of obtaining the gas from them, using it in the place of other kinds of fuels:

A big vein of gas was struck last night at the Canal Mill gas well, at a depth of about 290 feet, and one on Saturday night at a depth of 230 feet. Plenty of gas for the mill is now forcing itself out, but Messrs. Oliver & Bacon intend drilling some distance further yet. They superintend the operation and pay for labor by the day. Last week, between Monday morning and Saturday night, they bored a depth of 225 feet. Other manufacturers will soon follow suit in the putting down of gas wells, and in some places they are to be bared to obtain gas for private houses.

There are now six wells going down in the vicinity of Plumer for the purpose of testing the territory. It is predicted by many that Plumer will be the scene of another oil excitement before long.

RE-UNION OF NORTHWESTERN PENNSYLVANIA VOLUNTEERS.—The Re-union of Northwestern Pennsylvania Volunteers to take place in this city on the 29th and 30th of June, promises to be an entire success. The gentlemen in charge of the arrangements are in daily receipt of letters from soldiers in and out of the State, expressing an intention of being present. We are desirous to say that the invitation is a general one to all honorably discharged soldiers in this section of the State, without regard to the regiment or arm of service with which they may have been connected. Several gentlemen formerly in cavalry regiments, and now resident here, have decided to make a special effort for a representation of that branch of the army. A special headquarters for each organization will be provided. It is desired that those purposing to be present advise the committee of the fact and if possible reach the city on the first day of the Re-union. The headquarters of the 63d Regiment will be at Wayne Hall, and the headquarters of the 111th Regiment at the Court House. Communications may be addressed to Generals H. L. Brown, T. M. Walker, or Colonel C. P. Rogers, of this city.—Erie Dispatch.

SABBATH IN TIDOUITE.—The Pittsburgh Commercial has had a correspondent in Tidouite. After looking at her Churches, he breaks forth in song as follows: Tidilute sleeps—nor man, nor beast, nor "demlok,"

Is seen to stir the quiet of her Sabbath. The very birds are still; the chanticleer alone

Alarms the morning with his clarion blast; Assembling the feather'd clan to welcome morn,

And spread their dewy wings to court the sun!

The sparkling river rolls ever, ever on, Asure and pure, unwearied as at first

It laughing sprang from heaven-created source,

Historic, yet bearing on its mirror'd surface

No line of tribal wrong, or kingly conquest

Nor ought to make the trail of scarping-crag.

A flowing well was struck at White Oak, in Forest County, last Thursday about one mile and a half this side the Tuttle well, which it is thought will fully equal if not exceed that celebrated well in its production. The excitement appears to be coming this way at a good healthy pace.—Forest Free.

Local Notices.

Monte's Patent Stone-Lined Refrigerator.

Lined with Slate, having Air Chambers without Filling of any kind—perfectly dry and sweet—they are believed to be unequalled by any other now in use, and are of Moderate Cost.

Slate possesses an acknowledged superiority over Zinc for lining purposes, being free from smell, taste and corrosion, and can be easily cleaned, preserving every article in a sweet and pure state.

Soda Water and Ice Cream at J. W. Beatly's.

Infringement Notice.

The subscriber has learned that a certain firm in Titusville, known as "Bryan, Dillingham & Co.," have commenced the manufacture of Sucker Rods with Socket Joints. This is a Direct Infringement on his Rights, as his claim is "connecting two sections of rod by means of wedges, wedging sockets, and double coupling bolts." He does not specify any particular shaped wedge, nor of what material it shall be made. All rods made as above described outside of his manufactory, are direct infringements. This, therefore is to

CAUTION OIL OPERATORS, and all others, against buying or using any rods so made, except those of his manufactory, as by so doing they will lay themselves liable, and will be dealt with according to law.

WM. J. INNS.

PIONEER, April 9th, 1870.
