Gold 112 3/4.

RAILROAD ACCIDENT AT PARKER'S LANDING.

A serious railroad accident occurred on the Allegheny Valley Railroad, at Parker's Landing, about 11 o'clock last night, by which a large number of oil cars and other property was destroyed. It appears from what we could learn that a train of eight or ten oil cars and a locomotive were standing on the main track on the time of the down freight train. The flagman was ordered out to flag the train, and instead of attending to his duty went off and got intoxicated. In the meantime the train, consisting of a locomotive, forty-two tank cars and caboose, came along at full speed and ran into the hind end of the train standing on the track. The concussion was fearful, several of the cars being literally broken into fragments. One of the tank cars which was piled on top of the tender of the engine caught fire and was destroyed. The engineer and fireman jumped off. The fireman was seriously injured. A large amount of oil was destroyed, and travel was interrupted for several hours.

The McNair well at West Hickory commenced testing yesterday noon, and last night was yielding at the rate of from 75 to 100 barrels per day. The well was put down through the small casing and started up at the rate of 50 barrels per day, constantly increasing up to evening, and to day it is rumored is pumping 200 barrels. The well is located about half a mile south of the Venture well, thereby opening up a much wider scope of territory than many had supposed existed there. The well had 37 feet of oil bearing sand rock.

The Commissioners of Mercer county have decided to build a new bridge across the Shenango, below Sharon, near Otis Iron Company's grounds. It will be of iron and one hundred feet long, and twenty feet wide with double track, and three

OIL CITY RACES.

Derby Winner of the First Race... An Interesting and Close Trot with Clara.

At about half past two, the five horses were called, and were promptly on hand, as follows: Hilliard, Watson, Derby, Clara and Red Hot.

First Heat.—After an innumerable amount of scoring, the word "Go" was given, Hilliard being chosen as first in the race, Watson second, Derby third, Clara fourth, and Red Hot fifth. Derby took the lead, with a splendid send-off for all; but Clara gained and passed Derby at the first quarter, when Derby again came up and passed, coming in on the home stretch, one length ahead, winning the heat; Derby first, Clara second, Watson third, Hilliard fourth, Red Hot fifth. Time 2:35.

Second Heat.—Again, the usual amount of scoring was indulged in, occupying nearly an hour, when the word "Go" was given, Derby again in the lead, with Clara one neck behind. Hilliard came up beautifully but broke at the first quarter, when Derby led to third quarter; Red Hot next, Watson coming up and passing Red Hot. Derby and Clara close together, Derby making the last quarter half a length ahead, and held it to the score, winning the heat; Derby first, Clara second, Watson third, Red Hot fourth, and Hilliard fifth. Time 2:37 1/2.

Third Heat.—Clara led off, but Watson a neck ahead at first quarter, Clara putting her time splendidly, reaching the second quarter first, with Watson second. Derby and Clara, on the home stretch were close, Clara coming in at the score about one neck ahead, winning the heat; Clara first, Derby second, Watson third, Red Hot fourth; Hilliard distanced for running to the first and nearly to the second quarter. Time 2:38.

Fourth Heat.—Clara lead to first pole and up the hill, when Derby came up, and it was neck and neck to third quarter. Here Clara did splendid work, coming down the hill one length ahead, winning the heat. Clara first, Derby second, Watson third, Red Hot distanced for running. Time 2:35 1/2.

At this time the heats standing 2 and 2, the excitement was intense and there were no particular favorite in the pools. Those who had invested in Derby were little afraid of Brown, Derby's driver, when the judges promptly ordered a new driver, when the last heat was called.

Fifth Heat.—Clara lead at the send-off and to the first quarter, when Derby came up and passed, leaving Clara several lengths behind between the 27 and 3d quarters, but the heat and race was brought to a close by Clara's filling up the space, coming on the home stretch neck and neck, with Derby but Clara broke just as she neared the last flag; and Deby came though in flying colors, winning the heat and race. Derby 1st, Clara 2d, Watson 3d. Time—2:37 1/2.

There was a large attendance at Sobel's Opera House, last evening, to witness the performance of the beautiful drama entitled "The Flowers of the Forest," by the France & Lannier Constellation. The accomplished lady performers, Miss Katie Estelle and Fanny Garbanatti, are rapidly gaining popular favor. In the several characters taken by them in this drama they exhibited a degree of perfection that at once stamps them as bright particular stars in the theatrical horizon. They were well supported by the balance of the company.

The always popular drama of "Under the Gaslight," will be brought out this evening in which Miss Katie Estelle will appear as Laura Courtney, and Fannie Garbanatti as Peach Blossom. The entire company in the cast. Give them a full house.

A large crowd of people are in attendance at the races to-day. As yet we have not learned the result.

A CARD.—I take this method of informing my friends and the public generally that I have dissolved connection with the establishment known as the Petroleum Exchange Hotel. I propose to remain in town, and hope to be established in business again before long. ED. SUMNERLAND.

The President sent the following nomination to the Senate yesterday: Amos T. Akerman, of Georgia, to be Attorney General of the United States vice E. K. Hoar, resigned.

The Tidoute Journal estimates the production of wells in that vicinity at 417 barrels per day. Development is brisk, several new wells going down.

The daily production of oil in the West Hickory region is estimated at 500 barrels. Fifty new wells are being put down.

The new Methodist Church at Pleasantville will be dedicated on Sunday next at 11 o'clock A. M. Rev. Wheeler, of Meadville, will preach the dedicatory sermon. The public are cordially invited to attend.

CRUDE AND REFINED.

In playing poker, a good deal depends on good playing, and good playing on a good deal.

The latest fashion in croquet is to arrange the hoops in the form of a cross. The balls are driven from the centre to the end of each branch of the cross and back in rotation.

A Delaware farmer curbed the friskiness of his oxen's tails by tying a brick to each. He considered the plan a failure when one of the brutes swung the brick at a maddening fly and brained his oldest boy.

The Pittsburgh, Fort Wayne and Chicago and Pennsylvania Railroads Wednesday inaugurated a fast train between Chicago and New York, the time being twenty-seven hours, leaving Chicago at eleven a. m., and reaching New York at 3 p. m., the next day. Wednesday morning the fare was reduced to eighteen dollars.

Peregrine Pickle, who lives in Chicago, tells how he saw a pretty girl dispose of a piece of beef-steak about as large as a small brick: "She plunged her fork into it desperately, lifted it in mid air, gazed upon it pensively, opened that coralline mouth as if it had been red india-rubber, wider and wider. It was a key-hole, a teacup, a well, a bay window, a church door, and into that yawning entrance went that piece of meat entire, and then jaws, thorax, larynx and skull bones went to work on a job which ought to have been let out by contract."

Olive Logan is going to San Francisco for the summer. Amen!

Red Cloud wore a stove-pipe hat at Washington and looked unpicturesque.

A son of the late Edward Everett is to deliver the Fourth of July oration at Boston.

Shirley Dare, who writes letters from Washington, is Miss Susan Cuning, of Columbus, Wisconsin.

An injudicious young fellow at Cincinnati has lost the sight of one eye by carelessly opening a bottle of soda.

A Saginaw man put his foot against a saw to see if it was running. It was; but he won't run for some time yet.

Spotted Tail may be an Indian, but it is surmised that his head is level. On being shown the piles of national gold in the Treasury vaults the other day, he turned away his undazzled eyes and remarked, "Gold good, but much pretty woman worth more than gold."

PARKER'S LANDING OIL FIELD.—The Golden Gate, on the E. P. Marshall tract, owned by Sheriff John Scott, is yielding twenty-five barrels per day of fine oil.

The Thomas well on Tom's Run, owned by Gates, Morrow and others is producing fifteen barrels per day.

The amount of oil in tank at this point amounts to about 40,000 barrels.

The tankage is owned by the Mutual Pipe Line, Karns & Baker's Pipe Line, and the Empire Pipe Line of Parker & Thompson.

During April the Mutual shipped per barge, 2,000 barrels and O. L. Goldrick 2,000.

The product of Parker and Lawrenceburg daily is held at 3,000 barrels.

A sale of 4,000 barrels was made on Saturday last to O. L. Goldrick, for shipment.

Oil ranges from \$4.39 to \$4.40 per barrel.

The market is unsettled.—Independent.

ANOTHER FAILURE.—There was another run off on the Atlantic and Great Western road near Reno, on Friday last, but nobody was killed. Several oil cars were thrown from the track and a baggage car smashed, but so far as killing anybody was concerned the accident (?) may be set down as another failure. Now, inasmuch as this road has been presented by the Grand Jury, and in view of the fact that these chances for killing people turn up every few days on the track, and at about the same place, is there no authority by which this wicked and reckless tampering with life and limb can be stopped? Or must somebody be murdered by the company before the proper steps are taken to abate such a dangerous nuisance?—Spectator.

A Base Calumny Nailed.

The report of the Oil City Races, and the remarks thereon, published in the Titusville Herald of June 16th, is grossly incorrect and an outrage on the association. (Signed.)

Infringement Notice.

The subscriber has learned that a certain firm in Titusville, known as "Bryan, Dillingham & Co.," have commenced the manufacture of Sucker Rods with Socket Joints. This is a Direct Infringement on his Rights, as his claim is "connecting two sections of rod by means of wedges, wedging sockets, and double coupling bolt." He does not specify any particular shaped wedge, nor of what material it shall be made. All rods made as above described outside of his manufactory, are direct infringements. This, therefore is to

CAUTION OIL OPERATORS, and all others, against buying or using any rods so made, except those of his manufacture, as by so doing they will lay themselves liable, and will be dealt with according to law. WM. J. INNS.
