Forest County Oil Field.

On the Wilkins farm, the McNair well is producing from 240 to 250 barrels per day, and a large number of wells are being rapidly pushed forward.

On the Jones farm the greatest activity prevails, and a number of wells are being drilled. This farm is considered first class territory, as is all the land around White Oak.

The Scott farm, now owned by J. H. Dilks, of Titusville, which extends from the railroad at White Oak to the Preacher road, is about to be thoroughly tested.

On the McCalmont tract there is one well being drilled, and others will soon be commenced.

On the Gilson farm, the work has already commenced, one rig being up, and the engine on the ground for another.

On the opposite side of the river from White Oaks the lands are being sought after, and the work has already begun.

On the Fleming farm Messrs. Dickson and Carson are sinking two wells and others will shortly be commenced.

On Little Hickory the Winner & Stephenson wells, are being pushed forward with all possible speed. They met quite a serious drawback to one of their wells by its caving in. They are now drilling it through casing, and have struck the second sand. Their other bluff well will soon be commenced, the machinery being all on the ground. Their old well on the flats is still producing from five to seven barrels.

We have a copy of the correspondence between some twenty citizens of high standing in Venango county, and Hon. S. N. Pettis, calling out the facts relating to the alleged sale of a cadetship by the latter gentleman. We are bound to say that the statements of Mr. Pettis, supported fully as they are by the explicit testimony of the persons most directly connected with the transaction referred to, acquit that gentleman of not only the substance, but even the shadow of any substance of the charges which were at one time circulated in a portion of the press against him. His party made him its representative, conferring with the office all its privileges, including this right of appointment, and Mr. Pettis restored all the benefits of this appointment, when made, to the party which elected him. His own hands, like his motives, are pure and clean. The investigation has vindicated his personal and political honor—but at the expense of a very despicable self-exposure by a few of his personal enemies. We congratulate Mr. Pettis upon this, that he is above the necessity for changing places with his accusers in the public esteem.—Pittsburg Gazette.

POLICE.—Mrs. Frank Nelson was arrested a day or two since on oath of Sarah Marzella, charged with doing the aforesaid Sarah bodily injury, by hitting her with a piece of coal. The defendant demanded jury trial which resulted in her being found guilty, and she was sentenced by Justice Reynolds to pay a fine of \$2.00 and costs of suit. The parties in the suit are fifteenth amendments.

OIL SHOW.—R. E. Stafford has shown us a specimen of pebble or conglomerate rock coated with petroleum that oozed from between seams where the rock crops out of the ground. The spring where this was found is a little way north of this city and affords a continual flow of heavy oil. Mr. S. informs us that in the seam of the rock may be found considerable quantities of paraffine that has accumulated to the thickness of a man's hand. That oil exists in this section is beyond question, but the quantity that may be underlying us no man can know till a proper test is made.—Corry Republican.
