Drilling Jars.

We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars

Which for Strength and Durability excel any Steel-Lined Jar heretofore in use.

The Advantages we Claim

over Lined Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron, but presenting a Steel surface to the work, they are protected from wear on the outside, and will keep their shape longer.

We Warrant Them to Drill Fifteen Hundred Feet.

We also keep on hand

Cast Iron Working Barrels.
