Table listing freight train arrivals and departures for the southbound route.

SILVER PALACE SLEEPING CARS.

No. 4—Direct from Philadelphia without change. No. 5—Direct to Philadelphia without change. No. 6—Direct to Pittsburgh without change. Monday, May 31, 1870.

Gold 112 1/2.

New Well.—A new well was struck on the Morrison, adjoining the Skinner farm, yesterday, and is, we are informed, yielding twenty barrels per day. This farm comprises something over 300 acres, and lies some distance beyond the McCray farm on the hill. This well is the third one put down on the farm, and the first producing one, the other two being non-productive. The striking of this well, at least calculation, opens up 100 acres of good oil territory on this farm alone. The farm is owned by Messrs. Moore, Hart, Denning, Bly and Splinter of Rochester, N. Y. These gentlemen are among our most energetic operators and we may expect to hear of more strikes before long.

Mr. W. B. Snow, the patentee of a new device by which railroad trucks can be adapted to any gauge ranging from six feet down to four feet eight, was in town to-day. Mr. S. has just returned from California whither he had been with a car mounted on his patent. Mr. Snow is well known in this vicinity and his many friends will be pleased to learn of his good luck.

The purest of Sandy Lake ice can be had by applying to C. H. Williams, at end of Boyd farm bridge. Buy your ice from Williams, and thereby keep cool.

A boat race will occur on the Allegheny River, at Oil City on the evening of the 4th of July.

About 150 firemen from New Orleans passed through Corry yesterday on their way to New York. They were met at the depot by the Corry firemen who gave them a hearty welcome.

Gen. J. S. Casement formerly commander of the crack brigade in the 23d corps, is at the Criffland House in Titusville. He was also the crack builder of a large portion of the Union Pacific Railroad.

A late Pittsburgh dispatch gives the following statement of the great oil fire in that City a day or two since including the losses:

The most destructive fire that ever occurred there is raging near the Sbarpeburg bridge. At three o'clock in the afternoon, during a terrible rain storm, in which houses were blown down and trees uprooted, a 20,000 barrel tank, belonging to the Eclipse refinery, Dr. Tweddle, principal owner, was struck by lightning. Another tank, belonging to the Citizens' refinery, was struck at the same time. The Eclipse tank instantly exploded, the burning oil running toward the river, burning all their buildings, including Dr. Tweddle's house, and setting fire to the Sbarpeburg bridge, which was totally destroyed. At the Citizens' refinery, one tank of crude and a warehouse were burned; Forsythe Brothers one tank, 3,000 barrels of crude; Astral, John B. Bell & Sons, buildings, etc; Anchor works, Diworth Brothers, one tank crude; National Refinery and Storing Company, bleaching house and agitators; Allegheny Valley Railroad Co., ten cars crude oil. The loss of oil is six thousand cars.—The Sbarpeburg bridge was insured for \$40,000. The estimated losses are Citizens, \$20,000—fully insured; Eclipse, buildings \$150,000, oil \$30,000, machinery, &c., \$60,000, insured in Eastern companies, Swearingen & McCandless agency; Forsythe Brothers, \$15,000—no insurance; Astral works, \$40,000—but little insurance, works not in operation; Anchor, \$12,000; National, \$15,000—partially insured. The total loss is probably \$500,000. Henry B. Foster, brother of the late Stephen C. Foster, clerk at the Eclipse, was burned to death. Valentine Halley was injured, but not fatally.

SENECA SPRING, PETROLEUM CENTRE.—This justly celebrated spring is situated near Petroleum Centre, upon the bluff portion of the Datzell farm, and at one time showed a fine quality of lubricating and laxative oil, the fragrance of old harness, while its forward movement was equal to the famous beverage that is conveyed to New York by Croton Oil aqueduct. It now flows water, and as it is about the only place where this fluid can be obtained in an undiluted state, it attracts many visitors, and has wrought so many triumphs over disease, that the last two seasons have brought crowds to this point.

The village of Petroleum Centre is nestled among the green hills that border Oil creek, and with its pure springs, flavored with a delightful taste of Yosemite Bitters, its pure atmosphere with just enough benzine in it to give tone to the stomach, its cool nights, it is already famous as a quiet healthful summer resort, and a most desirable place of rest and recreation for the invalid, of pleasure-seeker. The surrounding hills, valleys and canyons are so full of health and beauty, and fun, as an "egg is full of meat." When you arrive at the Centre, you will find the Central and Rochester Houses both pleasant places at which to try your new teeth, the former being located near the depot, and the latter a few rods nearer the spring.—Titusville Herald.

The medical properties of this wonderful spring were tried by the Herald man but appeared to do him no good. He is as sallow and "yaller" looking as ever. It needs something stronger than benzine to bring him back to his natural color. Pitheole used to be his favorite summer resort when he was young. He forgot to mention the medical properties of its celebrated springs, especially the one in the Chase House.

An Irish girl at Erie, a day or two since, caught another girl on the sidewalk who had on a hoop skirt and a white skirt stolen from the party of the first part, compelled her to take them off and surrender them; then and there. The owner with a satisfied grin gathered up her garments, while the discomfited thief went away crestfallen and with her collapsed dress dangling about her heels. The affair caused a genuine sensation, and was undoubtedly useful in breaking the prolonged somnolence of that morpheused latitude.

At the great trial of mowing and reaping machines held near St. Louis recently, under the direction of the Missouri State Agricultural Society, the first prizes were awarded to the "Glimax" and "Acme" machines manufactured at Corry.

The Fourth of July is to be celebrated at Enterprise by a grand Picnic at Benedict's grove. The dinner will be followed by a social hop.

At Cherrytree Village there is to be a grand dance in the woods to-morrow forenoon. On the Fourth of July there will be a Sunday School celebration. A good time is anticipated.

A torpedo was exploded in the old Fox well, C. P. Co's farm, a day or two since, and the production increased to 25 barrels per day. Being removed the yield was only three barrels daily.

CLEANINGS

Cuban bonds are counterfeited. Milwaukee has had a grand beer fair. New York proposes fixing up its parks. Texas papers tell of a large immigration. The Hub water works cost \$9,765,959 87. Indiana has nearly liquidated her State debt.

Steam omnibuses are proposed in Montreal.

Omaha is to build a \$200,000 high school.

Minnesota is introducing fruit trees from Russia.

The streets of Allentown are to be macadamized.

Boston fish dealers are to have an exchange.

One old lady in Indiana keeps seventy pet cats.

The houses of Allentown are being renumbered.

Jackson, Louisiana, has a colored female Postmaster.

Chester has a new and elegant City Council chamber.

American girls are quoted as flirting too much in Paris.

Great numbers of cattle are going northward from Texas.

The West Point Cadets have established a prayer meeting.

A summer enjoyment of New Yorkers is chasing mad dogs.

44,000 women are employed as out door laborers in England.

The chicken cholera is playing havoc with Maryland fowls.

Indians are busy inventing new modes of assassinating potato bugs.

In New Orleans they are selling "native champagne" at \$10 a dozen.

Four hundred new money-order offices go into operation on July 15.

There is a gipsy queen in Indiana who is said to have a \$200 tea kettle.

A practical man wants to make a lager beer vault of the Mammoth Cave.

The Reading people are arranging for excursions down the Brandywine.

Texas is exporting large numbers of cattle, both by water and overland.

Seventy insurance companies are doing business under the Illinois State law.

The Coolie vote is a new element now introduced into New England politics.

Boston has just been authorized by the Legislature to have a great public park.

Newman Hall has declined a call to a Chicago pulpit with a salary of \$10,000.

The Ute Indians who were formerly friendly, are said to be preparing for war.

The pineapple trade of Florida promises to reach the importance of her orange trade.

Cedar county, Iowa, submits the question of total prohibition to the people this fall.

The annual production of quicksilver in California is now about three million pounds.

An Elmira man is still advertising at a great length "valuable gifts for the holidays."

Englishmen are delighted at the intelligence that the Nawab of Bengal reads Shakespeare.

The heat in London for a few days past has been unparalleled, causing much suffering.

Alton, Ill., claims that it manufactures the clearest and best glass made in the United States.

A Chicago tourist bought in Kansas by a dozen young buzzards, believing them to be eagles.

Georgia has a chicken cholera, and fears are entertained of the success of Christmas festivities.

Joseph F. Tracy, of Chicago, the leading railroad man of the Northwest, returns an income of \$2,000,000.

The second cargo of refrigerated Texas meat has been received in New Orleans and sold without difficulty.

Deposits of salt are found in Arkansas very thick, and in some places so solid it must be cut with an axe.

In North Carolina a railroad along the Tar river is to be constructed on the Welsh narrow gauge plan of two and a half feet.

The Iowa Grand Lodge of free and Accepted Masons, at its late sessions, amended its laws so as to admit negroes and Indians to the order.

Some of the most prominent members of the profession have affixed their signatures to petitions for the medical education of women in Edinburgh.

Hon. G. W. Scofield has been nominated for Congress from Erie County, and Orange Stable for the State Legislature.

The Corry Republican learns that a ten barrel well has been struck on Hosmer Run, four miles north of Garland. The well is but 68 1/2 feet deep and has 37 feet of sand rock. The Republican predicts a lively excitement in that vicinity soon.

We notice in the programme of the 4th of July celebration at Oil City, published in the Times, that the Petroleum Centre fire company will be in the procession. This is a mistake. The company received an invitation, but concluded not to accept it on account of the celebration here on the same day.

Do not forget the lecture this evening by Rev. A. N. Craft, on the subject of "Papal Infallibility—the Other Side," for the benefit of the M. E. Sunday School. The Rev. gentleman thoroughly understands the subject, and the lecture will be a rare treat.

Local Notices.
