Drilling Jars.
We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars
Which for Strength and Durability exceed any Steel Lined Jar heretofore in use.

The Advantages we Claim
over Lined Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron, and presenting a Steel surface to the rock, they are protected from wear on the outside, and will keep their shape longer.

We Want Them to Drill Fifty or Hundred Feet.
We also keep on hand

Cast Iron Working Barrels.
