Drilling Jars.
We would respectfully announce to our customers and the public generally that we have constantly on hand
Cast Steel Drilling Jars
Which for Strength and Durability excel any Steel Lined Jar heretofore in use.
The Advantages we Claim
for Cast Steel Jars are that, being ALL STEEL, they are stronger than Jars composed partly of Iron; but presenting a hard surface to the rock, they are protected from wear on the outside, and will lose their shape longer.
We Warrant Them to Drill Fifteen Hundred Feet.
We also keep on hand
Cast Iron Working Barrels.
