New Well —A new well was struck on the bluff territograf abe Blood farm, about 6 o'clock last evening, which started up at the rate of fifty barrels per day, which is kept up until the head was pumped off.-To-day it is yielding from ten to fifteen barrele which will probably be & wiproduction. Owned by Messrs. Freeman and Blood.

he people of Kane and Allemagoozelum cities celebrated the glorious fourth in an appropriate manner by holding a pic nic in the woods adjacent. Mayor Kinney, of the latter place, was present and read the declaration of our national indeperdence and also made remarks appropriate to the occasion. The affair ended with a grand dinner.

A new well was completed on Callaboose Run, yesterday, and is being tubed to-day preparatory to testing.

At the Opera House, late Akin's Hall, & full veriety company give select and pleasing entertainments every evening. Messra. Snowden & Co., the proprietors, are using every means to please the public. They have engaged the charming danseuse and einger, M'lle. Lizzie LaGrange, together with a full company star performers. Read their programme and drop in and enjoy yourself for an evening.

Refreshing rain to day.

Mesars. Word and Hoskins of Pleasantwille, are the owners of the new well on the Huldekoper farm, near Shamburg, mention of which we made yesterday. The well is said to be yielding fully one hundred and twenty-five barrels per day.

In a day or two we shall print our usual monthly oil report.

The Columbia Oil Co. are putting down farm, near this place.

THE STEAMBOAT RACE.

Sr. Louis, July 4 .- The steamer Robert E. Lee arrived at 11:25 A.M., three days, eighteen hours and fourteen minutes from New Orleans, beating the Natchez' time on her last trip three hours and forty-five minates, and the James M. White's famous time four hours and fifty-five minutes. The Natchez was detained by a heavy fog below Grand Tower, a hundred and twentyfive miles below here, and didn't pass thut point until 8:30 A. M.

Sr. Louis, July 4.—The following is the time of the stegmer Robert E. Lee, made to the principal points on the trip, from the steamers log:

	Days.	Hours.	Minute
Donaldsonville	1979	4	٥
Baton Ronge		8	
Red River	-	12	
Natchez	234	17)
Grand Gulf		22	
Vicksburg	1	100	
Lake Providence	1	5	
White River	1	16	- 4
Hetena	1	23	4
Memphis	2	ii.	
New Madrid	2	19	- 1
Cairo	3	1	2.4
St Louis	3	13	1.0

The trip was an ovation from first to last along the river. Thousands flocked, even from many miles in the interior to see the racers pass, and bonfire, cannons, pistols. and everything that could shoot, were brought into use to give vent to their feelings on the occasion. The crowd at the levee here was immense, and the bank of the river was lined with people from Carondolet to the above city, a distance of six miles, and windows and house tops along the city front were filled with spectators .-No similar event ever caused such an excitement or brought out such a crowd. A million of dellars probably changed hancs on the result of this race. The Natchez was detained by a dense fog below Graud

Tower, and had not arrived at 6 P. M. Leathers claims that, deducting time lost by log and repairs, the Natchez beat the Lee's time some twenty minutes.

COAL OIL -The Obio Statesmen gives an account of the fatal burning at Nelsonville, Ohio, of a girl, aged fitteen, who attempted to light a fire in a stove by pouring coal oil upon the kindlings. The can of oil exploded and the girl was enveloped in flames from bead to foot. After lingering in agony for several hours she was released from her suffering by death. This is the second accident within a few days from kindling fire by coal oil, and we mention the circumstances as an additional warning to the public.

If people will not learn, after the repeated warnings given, they must expect to suffer the consequences, and have no one to blame but themselves.

A few days since we received a letter from Oswego, N. Y., signed by five engineers, setting forth that they desired to visit the oil regions providing they could be guaranteed work, and asking our opiniou in the matter. Undoubtedly, if they are good engineers, they could command situations at once, but if they have good places at home our advice to them would be to stay there. They can do no better by coming to the oil regions.

Good Advice .- Don't get in a fluster and go on a buster, nor allow yourself to terrified be, but keep a cool head, and seekers. never be led on a burrah and a spree.

On Monday, of last week, a Fifteenth Amendment beguiled a gentleman of color from his farm near Erie, to Dunkirk, where he swindled him out of \$1,500. The colored sharper pretended to be wealthy and exhibited a beavy trunk said to contain \$60,-000 in specie, to Eric amendment. By some modus operandi be managed to get possession of the \$1,500 belonging to the Erie man, giving him a check for the valuable trunk as security. The colored sharper vamosed, of course, and the Erie gentleman had the trunk brought to Eric where it was opened and found to contain a stone weighing 280 pounds.

On Monday evening next, Gschwandner's troupe of Tyrolean Alpine Singers, are to give one of their grand entertainments at Sobel's Opera House. This troupe are well known as being among the finest singers in the world, having sang their national and other songs before all the principal crowned heads of Europe and in nearly all the large cities of this country. We bespeak for them a crowded house.

· A marriage in high life occurred at the Queen City Restaurant, a day or two since, the bridgroom being a no less personage than Comstock alias Thoraton, the Individual that has gained such a notariety by advertising that he proposes to jump over Ningara Falls, on or about the 13th of August. Should the latter come off, the of the public.

THE BARREY'S PRIN -The algo Beaute of the striped pole of the larger is probably understood by but veryflow of our readers. It fact, at the present period the sign has no significance, la European countries barbers used to combine the tansorial with the surgical profession, and practice the science of blood letting equality as well as that of shaving and hair cutting, and in consequence they chose for their symbol the waite pele striped with red, representing the flow of the blood after phiebotomy. Now, the barbers do not practice blood letting as much as they did, although some of our sharp razored friends occasionally take an ear, piece of a nese, or a liper two, by way of keeping the old and venerated custom ailve, but they never charge anything

extra. Adam Wyman never was known to do such a thing.

The opening of Wm. J. Innis & Co's manufactory at Oil Chy will be colobrated by a complimentary supper and ball this evening. Extended preparations have been made for the entertainment of guests. It is the intention of the proprietors to bring together as many of the oil operators and hardware men as possible, and to this end invitations have been very generally distributed. together as many of the oil operators and tributed.

The Chinese pirates are the most urbane, affable men in the word. Recently they chloroformed an entire ship's crew before ushering them into that undiscovered country from whose borne no traveler returns.
