THE OLD STORY.

The sails are set and the breeze is up, And the prow is turned for a northern sea;

I kiss your cheek and kiss your lips, Never a change this heart shall know, Whatever betide—come life come death— Darling, darling, I love you so!

O, but the northern nights are keen! The sailor clings to the frozen shrouds— A kiss burns hot through his dreams of home, And his heart goes south through the frozen clouds.

The maiden laughs at the garden gate— Dreams of love are the soonest o'er! Kisses fall on her lips and hair, And the world goes on as it went before.

To all Coal Men.

The undersigned hereby fully endorse the card published by J. M. Sharp in the Record of yesterday in relation to false weight by coal dealers.

While we always have, and still do warrant the weight of every load of coal sold from our yard, we will no longer give place to men who pretend to sell cheaper than we can purchase.

We use standard scales and know we are right; furthermore, on and after this date we offer the use of our scales gratis for the purpose of weighing any load of coal that shall be brought to us for that purpose, and will give a bill of weight in each case, to be correctness of which we will testify on oath whenever called upon to do so.
