WAR DECLARED.

A Bispatch received at this office from Washington, dated noon to-day says: A dispatch has just been read from the Speakers desk, andouncing that war was declared between France and Prussia.

Or course the uppermost topic of the -the throatened war-must be the subject of some remarks. And yet, what can ing July 12, 1870, and each bearing that we say of it? Every day some new opinion, some new intelligence, "on highest authority" destroys all theories already written, and leaves us in a state of mind which could only be induced, one would suppose, by an atternt to understand the Schleswig-Holstein difficulty, or the reading of a manuscript letter by Hasace Greeley. As Brat-class journalists, however, we are forced to put on a wise look and talk knowingly of the great powers, the immense armies, and the Gett of war on American securities To do this with a good grace we have bad secourse to the reading of all the news and the comments upon that news that have some to head. The result of this systematic study is condensed for the benefit of our readers in the following epitome.

Naugreon, Blamurch and Prim were each individually sullty of the intrigue which cocas.ou d ae difficulty; Prince Hobsezollern will resign, and he won't; Spain will reject and scrept him; Prussia witt retract, and fight; and Napoleon Prossis and Spain will el be victor was, and all suffer defeat; while the other countries will each take both sides and at the same time remain neutral. The con amone to wich the reader will naturally come are so obvious that we consider it af Louis mary to sum up this "reliable inteligence "

It is a mer sen idea that Congress adjournal yesterday, to-day, the 15th, is the

The Venango Spectator says:

There is a considerable excitement among the oulet citizens of Raymilton and vicinity over a ten barrel well struck on Friday

The new strike is an old well which was bored by A. W. Raymond, Esq., the owner of the land, some nine years ago. After reaching a depth of some four hundred feet. with but slight indications of oil, work was suspended. A few months ago Mr. Raymend leased this well to some parties, who put it down to a depth of 766 feet, reaching a third sand rock, and struck what is certainly a good paying well. It is now producing ten barrels a day of green oil of light gravity. The strong flow of gas on Saturday was an obstacle in the way of pumping, but that difficulty has been overcome by conducting it out of the way. An attempt to make it useful, by turning it into toe turnsce under the beiler, nearly caused a general conflagration.

There are eight owners in the working interest and they all feel correspondingly good over their success. Six hundred dollars was freely offered for eight interests on Monday, but there were no takers.

The third sand was struck at a depth of 751 feet and is fitteen feet thick. The new well is about forty rods in a south-eastern direction from the Mason well, struck some three months ago, in which twelve feet of third sand was found.

We think the new strike opens a new oil territory to the westward of this city, and that future developments will be satisfactory. A few weeks will decide whether Raymilten shall make a noise among oil operators or not.

THE NEW WELL -The valves in the R. B. Lee well, McCray farm, were changed vesterday morning, since which time it has been increasing, and is now yielding between one bundred and fifty and two bundred barrels per day. It was discovered that one of the valves had been cut by a piece of iron which through some means bad got into the working barrel. This well may safely be ranked among the best in the oil region. The excitement in regard to it does not abate in the least but is rather on the increase. Large numbers of people visit it daily. We shall ke-p our readers posted in regard to this new oil dorado.

At the conclusion of the concert by the Gachwandner Tyrolean Troupe, at Theobolt's Opera House, this evening, the company will by request give imitations of various animals such as a cat, dog, mule, monkey, hawk, &c. During the singing the company will be masked. As the en tertainment will be free, all should attend and hear this celebrated troupe.

The Young Men's Christian Association have a special meeting, this evening, at the Methodist Church for the purpose of taking measures towards building an association

We were in error yestereny in regard to the oil item making mention of the Phillips & Boyles well on the McCray farm. They bave a five-acre lease on that farm, upon which one well is nearly down and another one nearly ready for the casing. Instead of their putting a well down on the Ingersoil lease, S. Boyd farm, they are part owners of that farm, and have given out a lease to a man named Ingersolt. who has a well nearly completed. We make this correction in justice to Mesers. Phillips & Boyles, who are among our oldest operators.

The 4th of July was celebrated with great enthusiasm at Tionesta. The Forest Press thus epitomizes the doings on that day:

.. The 4th of July waked up at one o'clock in the morning with cannonading. After breakfast we had a funeral, at noon a sermon, at one in the afternoon dinner, at two a street fight, and a big dance all day and night on Dutch Hill, in which a large num ber of our citizens participated."

One or two old wells on the bank of the Creek opposite Petroleum Centre, bave re cently been started up and are producing some oil. One of them has a large flow of gas which is kept burning all the time.

Do not forget that Gschwandner Tyrolese troupe appear at the Opera House Saloon this evening. By all means bear them sing, and enjoy a glass of cool lager.

"STRAWBERRY FESTIVAL."-Whitaker of the Venango Spectator, is responsible for the following: A man and woman went out inte a field to pick strawberries the other day in Perry county. The field belonged | York at the present low prices to the man-the woman she didn't. A little uneplasantness arose between the man and woman, and the man actually spanied the woman until "As Red as a Strawberry was She." This was bore than woman nature could' bear, and a warrant for the arcest of the base assailant was the issue of bisstrawberry festival.

On Tuesday last a man named Ralph the benefit of low Wright, living near Conneaut, O., killed his wife, mangling ber body in a horrible manner with a batchet and axe. He then set fire to his dwelling, and hung himself in Parties wishing to buy choice his barn. He was about 60 years of age.
