NEW DEVELOPMENTS.—About four years ago a company of Pittsburghers, of whom Messrs James Blackmore and James Lowry were the principal ones, leased 2 1/2 acres of the J. S. McCray farm at one half royalty, and started a well upon it on the side hill. Through mismanagement the well never was completed and for the time being was abandoned. Recently, however, the gentlemen have "put in an appearance," and propose to commence operations at once on their lease, the title of which is valid.—They are to sink several wells, and the machinery is already on the way here. The lease is known as the "Sixth Ward lease of Pittsburgh." The lease is a good one and oil will undoubtedly be struck by them.

Mr. John Eckert, of the Eckert House, Parker's Landing, was robbed of a gold watch and chain and \$200 in money on Friday night last, while sleeping on a sofa in his hotel.

The Phillips & Boyles well No. 1, Jas. S. McCray farm, commenced pumping at about 2 o'clock this afternoon. As yet we are unable to give the production. It will probably be a good well.

Cady & Thompson well No. 1, same farm, is being tubed to-day, and will commence pumping about 9 o'clock this evening.

In his wanderings about this place, yesterday afternoon, the Titusville Herald reporter itemizes that "a bevy of beauties might have been seen disporting themselves in the oil-tinted waters of Oil Creek, just below the Boyd farm bridge." When the fact becomes known that the "bevy of beauties" were a parcel of half grown men, it strikes us that it places the reporter in a very bad light as a judge of female beauty. In Pitohole he used to be regarded as A. 1 in that line. "His eyes must have mistook his ear sight."

Cool nights and warm days at present.

HEAR IT!

If you've any task to do, Let me whisper, friend to you, Do it!

If you've anything to say, True and needed, you or nay, Say it!

If you've anything to love, As a blessing from above, Love it!

If you've anything to give, That another's joy may live, Give it!

If some hollow creed you doubt, Though the whole world hoot and shout, Doubt it!

If you know what torch to light, Guiding others through the night, Light it!

If you've any debt to pay, Rest you neither night or day, Pay it!

If you've any joy to hold, Next your heart, lest it grow cold, Hold it!

If you've any grief to meet, At the loving father's feet, Meet it!

If you've given light to see, What a child of God should be, See it!

Whether life be bright or drear, There's a message sweet and clear, Whispered down to every ear, Hear it!

THE JAS. S. McCRAY FARM.—Oil matters on this farm are beginning to assume a lively aspect since the striking of the new wells. Quite a number of new derricks are going up and appearances indicate that developing will be pushed rapidly ahead. The following is the condition of the wells on this farm:

McCray & Donaghy No. 1, has the tools fast at a depth of 700 feet. Efforts are being made to take them out which will doubtless prove successful.

McCray & Donaghy No. 2, pumping 350 barrels per day.

McCray & Donaghy No. 3, ground broke for rig.

J. M. Kepler No. 1, pumping 200 barrels per day.

J. M. Kepler No. 2, commence drilling to-day.

Phillips & Boyles No. 1, is down and will commence testing to-day. Has a good show.

Phillips & Boyles No. 2, will be completed this week.

Phillips & Boyles No. 3, rig up and conductor being driven.

Lockwood, Kemp & McCray, rig going up.

McCray Bros., rig going up.

Hart, Moore & Conkle No. 1, down 500 feet.

Hart, Moore & Conkle No. 2, rig going up.

Irwin, Bradstreet & Sherwood, down 500 feet.

Phinney, Arnold & Drouse No. 1, 778 feet deep, struck third sand.

Phinney, Arnold & Drouse No. 2, down 100 feet.

Phinney, Arnold & Drouse No. 3, rig going up.

Cady & Thompson No. 1, tubing to-day.

" " No. 2, 180 feet deep.

Jones & McCray, rig up and ready to drill.

Sixth ward lease, ground broke for rig.

The Isabella wells No. 1 and 2, McCray & Thompson No. 1 and 2, and the Mr. Moriah well, are yielding together about 53 barrels per day.

The above wells are all old wells and situated on the side hill. The Mt. Moriah, the largest of the five, is doing about 15 barrels.

Altogether there are eighteen new wells going down on this farm, two of which will be completed to-day.

On Thursday afternoon next at 3 o'clock the Stevenson farm base ball club will have a practice game of ball on their grounds near the Catholic Church. Members of the club are requested to be in attendance.

NEW WELL.—The new well owned Edward Fox, on his lease Central Petroleum Co.'s farm, commenced testing last night, and is now pumping from fifteen to twenty barrels per day. The tools were fast in this well for nearly three months, and it was only by the most persistent labor that they were taken out.

THE BLYSON SALT WELLS.—These wells are located near Clarion, and are at present pumping about two hundred barrels of salt water per day. The water is 62 degrees, and makes excellent salt.

PETROLEUM CENTRE.—Since the striking of the Banner well at this point, business has experienced a steady increase, which does not yet show signs of abatement. The streets are filled with operators and business men, and the hotels are doing a trade similar to that of the "flush" times in 1865-66. The McCray farm and adjoining territory has proved itself to be of the very best in the oil region, which causes the citizens generally to assume that pleasant expression of countenance to be found only in prosperous and lively oil towns. Notwithstanding the many aspersions cast by outsiders upon this town, it displays a healthy and pleasing growth, and at no point in the Oil Region are the people more prompt in meeting their business engagements or energetic in the prosecution of trade than here.—Titusville Herald.
