We have seen the plan of the new County l'oor House, which is to be located in the vicinity of Sugar Creek Station, on the line of the A. & G. W. R'y. When Snished it is estimated the costwill amount to \$60,000. The building is to be of brick with stone foundation and stope trimmings; in wings and all, 198 loot long and 141 wide, the main building being 72 feet wide. It is to he three stories high, the stories being respectively 11, 13 and 14 feet in beight .-There will be room in it for 106 beds without being crowded, and it will accommodate that many people and more if necessary .-It is to be fitted up with all the modern improvements. This is a work that has long been needed and we are glad to know has been commenced at last.

On Saturday the engineers of the Jamestown & Franklin Railroad were engaged in surveying the route for that railroad from Oil City to this place. It is understood the road is to be built over the hill, the O. C. & A. R. R. having purchased the right to lay a track on both sides of the creck on the flats, thereby forcing the J. & F. Com pany, to the event of the route bging conrun it over the hill. We are informed that it is the intention of the J. & F. company to commenon operations in building the road from Oil City to this place at quee.

The game of base ball on Saturday last, between the Red Caps of Dempseytown, and the second nine of the Blackfeet club of this place, was won by the latter .--The score stood: Blackfeet, 53; Red Caps, 21. The game was a spirited one.

The interest in the election which was to be held here on Saturday, for a division of this election district, did not amount to snything. No polls for voting on the question were opened.

Now is the best time to tay in a winter sopply of band coal. Codington & Cornwell are the men to buy from. June 28th.

he number of barrels of oil shipped from July 25th to the 10th inst., from Parker by rail and river:

B. S. Duncan, by rall 6,586 barrels T. Hackett, .. 2,300 .. river 2,350 "

Price of oil on cars, ranging from \$3,10, \$3.15 to \$3.20.

STUMP ISLAND. - This island has become valuable property, and operators are sure of a good strike. We notice that our friend, O. E. Shannon, Esq., has commenced to drill a new well on the upper end of the island. It is called "Douglas." We trust it may prove "a giant."

EMLENTON .- A new well, called the "Five Points," on the land of Joshua Gougher, is down 500 feet, with good indications.

East Sipe .- On the East side of the river the Graham territory continues to merit its local reputation. The old Graham well continues a yield that it has maintained for over a year, of 15 barrels daily.

The Keystone is a good twenty barrel well and has never failed to pay a bandsome dividend.

The Minnie Ray holds its own at 10 bbls

The Gien Cairn well, at the lower end of the Graham tract, is yielding from 11 to 20 barrels daily.

The Buckeye is a new well, making a fatt start at about 10 barrels and increasing.

The Graham Company is putting down two new wells one of which is nearly completed. Besides these, there are ten other wells going down on the tract.

Whilst the wells on the tract have not been so large as many on the west side, yet the general average is better; and the convenience to railroad facilities gives them a great advantage and make them proportionately much more profitable.—East Brady Independent.

A daring attempt at highway robbery was made on Cottage Hill, on Saturday night last, Mr. Carpenter, the father-in-law of Mr. O. I. Grier the well-known oil buyer for Fisher Bros. being the victim. The robbers got nothing for their pains. It is thought they mistook Mr. Carpenter for Mr. Grier, as the latter gentlemen resided in the same house with his father-in-law and usually carried a considerable amount of monsy with him. Yesterday morning the store of Porter & Cowell, at the same place, was broken into, the robbers becoming ularmed and making off before securing anything of value, but giving one of the proprietors a chance to identify them, which he did durlog the morning, and they were arrested and committed. One of the men turns out to be Jack Stefford, the individual arrested Mr. Robert Taylor's watch and \$50 in greenbacks, and who escaped through some reason unknown to us on the first warrant issued for his arrest, but who is wanted hereon another warrant for robbery. It is likely he will receive his just deserts on one or both of these charges.

On Friday a little girl named Drach was frightfully burned at Pittsburgh, while engaged in lighting a fire with carbon oil. The Commercial speaking of the accident savs:

She is sensible and converses freely with members of the family and all those around ber about the accident. She said to her sister. "I know that you have often told me never to put oil in the fire; but I thought only a little bit could do no harm." Poor upsuspecting child. How little did the think the accident which befell her would tollow when she emptied that oil on the fire, and yet how very few there are, both women and children, who will take warning and profit by the lesson taught them in a quarral, fust in de dance, fust in de ice the misfortune to this little girl. The Phoenix Oil Works, owned by Mai colm Lloyd, at Gibson's Point, on the Schuylkili, near Philadelphia, have been partially destroyed by a fire originating from an explosion of gas. The still man was badly injured. Loss beavy.

According to the books of the Adjutant Generals Department, there are two hundred and seventy-one companies of infantry cavalry and artillery, whose aggregate numerical strength is thirteen thousand men Thirty additional companies are in rapid process of organization. The minimum number of a company, according to a recent act of the Legislature, is thirty-one.
