EDITORS RECORD:-The Venango County Convention of L. O. of G. T., which closed its session at Shamburg, yesterday, after due deliberation resolved upon placing in the field a candidate for Jury Commissioner in opposition to Mr. McAlevy, of Salem, and in doing so would respectfully present the following facts to the voters of there was fighting of considerable magni-

First, it is not a partisan movement inasmuch as two Commissioners are to be elected, while each individual vote is cast for one only, thus entailing the necessity of electing one from each of the two leading political parties.

Second. Mr. McAlevy was not nominated at the caucus, but has by some chicanery got himself placed upon the ticket, through what was evidently an oversight.

Third. He has openly declared that "Liquor shall be sold in Salem License or no License," thus showing a disregard or law and respectability totally at variance with the duties that devolve upon a guardian of the public morals.

Fourth. The man who has been placed in nomination to oppose him (J. R. Robertson, Esq., of Oil City) is a gentleman of undoubted probity and ability.

Fifth. No party has a right to elect a man to office who openly defies the law, and must inevitably bring reproach upon all his supporters.

ARMSTRONG RUN OIL FIELD. -We have nothing good or encouraging to report from this locality in this issue. In fact we are not in the best of humor with proceedings there, and regret to say that our fears in regard to the Walker well are almost verifled We spoke of the extreme folly of continuing to drill after the oil had been reached, predicting a result similar to the Armstrong. The Walker well has been tubed after drilling a considerable depth since oil was struck, and as a result not a bit of oil has been produced. Precisely the ame result from the same cause as the Armstrong. That there was plenty of oil that it gushed out on being struck and that everything proved a first-class well, the public know yet we are told that after reasonable pumping the well is doing noth-

There is too great an interest involved in this territory to have it trifled with; and we had hoped that the experience of the past would have been sufficient to prevent a recurrence of what all feel to have been the result of carelessness or ignorance in the management of the old well. Other wells are nearing completion, and with promises of abundant oil. Let the owners of these wells see to it that they are not spoiled before they have even been tested. - East Brady Independent.

In regard to this territory the fact of the matter is the operators have been badly sold, at least those who have put down wells. We are informed by one who "took a hand in," that the oil bearing rock is not over five feet thick, and that in his opinion none of the wells put down in that neighborhood will ever produce oil in sufficient quantities to pay for sinking them.

Speaking of these wells the Lawrenceburgb Independent says:

The Walker well has been tubed and

pumped, failing to produce oil. The old Armstrong well has again dwindled down to two or three barrels per
