ARRIVAL AND DEPARTURE OF TRAINS ON O. C. & A. R. R.

On and after Monday, May 30th, 1870, trains will run as follows:

Table with columns for North, No. 5, No. 3, No. 1, and arrival/departure times for Oil City, Titusville, and Corry.

Table with columns for South, No. 2, No. 4, No. 6, and arrival/departure times for Corry, Titusville, and Oil City.

Table with columns for No. 5 and 6 run on Sunday, and arrival/departure times for Oil City, Titusville, and Corry.

Table with columns for Freight Trains North, and arrival/departure times for Oil City, Titusville, and Corry.

Table with columns for Freight Trains South, and arrival/departure times for Oil City, Titusville, and Corry.

Table with columns for Silver Palace Sleeping Cars, and arrival/departure times for Oil City, Titusville, and Corry.

Table with columns for Gold at 1 p. m., 113%.

Table with columns for Police, James McHugh, resident of Shaffer farm, brought suit a day or two since, before Justice Reynolds, against Johanna Winters of the same place, for assault, leg and beating his daughter.

Table with columns for The same party also made complaint against Johanna for threatening to kill his daughter, Mary McHugh. For this fun Johanna was bound over in the sum of \$100 to appear at Franklin. She will probably find out that it will prove "the winter of her discontent."

Table with columns for The Cozy Billiard Parlor, Robson & Arnold proprietors, will be closed for two or three days for necessary repairs. When re-opened it will prove a more popular and attractive resort than ever.

Table with columns for The new Democratic daily at Titusville made its appearance on Saturday. It presents a creditable appearance.

Table with columns for The cowboys and tinpanners were out again in force last night. The music was "heavily," and consisted of a miscellaneous collection of cowbells, gongs, tin pans, dinner bells, big and little brass horns, &c. A procession was formed headed by a beautiful transparency on which was painted appropriate mottoes. After playing several tunes near the residences of the happy couples, the "boys" were invited to "smile" and they "smiled" and "many a wink they wunk," while drinking to the health of the newly wedded couples.

Table with columns for The Bruah & Blackmore well, Pittsburgh lease, McCray farm, is being torpedooed to day.

Table with columns for Read the advertisement of Elwood's Female Minstrels.

Table with columns for And prevails to an alarming extent.

THE MINING REGION.—Among the passengers by the propeller St. Paul, which arrived from Duluth on Saturday were Mr. S. A. Woods, of Petroleum Centre; Mr. Wm. Bagaley, of Pittsburgh; and Mr. Edward Fox, of Titusville, prominent capitalists engaged in the mining business on the shores of Lake Superior. The above named gentlemen, in connection with others, composing the Cascade Co. have recently purchased and commenced the development of an iron mining tract in the Marquette region. It is named after the "Cascade," a fall of the east branch of the Escanaba River, twenty-seven feet over a precipice of ore. This is about three and a half miles south of the Negaunee village, and within two miles of a branch of the railroad leading to Escanaba. The tract contains 3,120 acres in one piece, nearly five square miles of iron deposits, that for richness are unsurpassed, being rated with the Jackson mine. The qualities found are the specular, slate and hematite, of which the specular, by analysis yields 62.09, and the hematite 58.89 per cent of iron. The supply seems absolutely inexhaustible, and for the next generation, there will be no necessity of shaft sinking. The land is mountainous, and hills rise to the height of two hundred feet above the marsh level, from the top of which the rich ores creep out. Over two hundred test holes have been drilled in different locations and they go to indicate that the tract is a mountain of iron. Comparatively few mines are now in operation, and the business is as yet in its infancy, but it is growing rapidly and the coming season promises to be far ahead of the present in production. The Jackson mine alone, (the nearest to the Cascade) shipped in 1869 128,245 tons. Comparatively nothing has been done at the Cascade except to prepare for the shipping season of 1871, but the thorough working of that tract—it can hardly be called mine when blasted from the surface—will make a great difference in the product, and as the ore tends eastward, must inevitably aid the commerce of our city. That the new mining range will be so developed as to make it one of the leading mines in the Lake Superior district, is evident. It is in the control of and owned by men of vast means enterprise and mining experience, the ore is rich, can be mined and shipped at comparatively light cost, and the supply is inexhaustible.—Erie Dispatch.

PETROLEUM ITEMS.—A new well was struck yesterday, upon the Wilkin's tract, owned by Messrs. Day, Thomas and others, which is reported as doing fully 250 barrels daily.

A new well, commenced testing yesterday, upon the Tuttle farm, owned by F. W. Andrews and others, and was doing about 50 barrels last evening with prospects of an increased production.

The "intermittent well" at Brady's Bend the striking of which was reported a day or two since, is doing fully 150 barrels per day, and spouts every hour and a half.

The 1,000 barrel well which was struck in Western Virginia a short time since, is reported by telegraph, and from what we believe to be a reliable source, as doing about 400 barrels per day at present.—Herald.

In Reno, yesterday, Andy Wiley was thrown from a horse and had his collar bone broken. He was attended by Dr. Seys, of Oil City.

Almost everybody in Williamsport swears a little girl, after listening to a conversation between her father and another man, asked her mother if "God's middle name was dam."

We find the following among the standing advertisements in the Meadville Republican. Comment is unnecessary: "CURTIS AND HYMAN.—The little brown cottage at Cambridge, Pa., is the place to call and have the marriage knot promptly and strongly tied. Inquire for Rev. S. J. Whitcomb."

Conductor Robert K. Hine, a brother of Fred. W. Hine, of Petroleum Centre, was killed in a railroad accident at Alexander, Ohio, last week.

The new well struck above Enterprise a few days since, has settled down to an eighteen barrel well.

During the year ending July 1st, 1870, not a death occurred in the borough of Pit-hole.

The Columbia Base Ball Club have issued a challenge to the Senecas, of Oil City, to play a game for the championship of the Oil Region.

Admiral Porter will be relieved from duty at the Navy Department, as desired by himself, and he will pay a visit to the principal cities in Europe in a United States vessel, in the same manner Admiral Broughton did.

A party tried at the recent court in Montgomery county, for assaulting an officer inside the point in his defense that the officer had no warrant for his arrest, whereas upon the court defined the rights and duties of police officers as follows: An officer, as any private citizen, has the right and it is his duty to prevent a crime with or without a warrant; and where a breach of the peace is imminent he ought to interfere and arrest the offenders; and when he sees an assault committed he ought to make an arrest and follow in pursuit, with or without a warrant. Whenever the officer has the offender within his view, at the time of committing the offense he has a right to make the arrest with or without a warrant. He has the power when the offense is committed in his view, but when he acts on the information of others he must have a proper authority. In this case the officer saw the affray or fight, which was stopped by his approach. He had a right to arrest offenders.

The Bath Times tells a very touching temperance story. It is about one of the members of the Bunker Hill Hose Company, which was in Lewiston a few days since. His boot, being tight, pained him to such an extent that he could scarcely move, and move he must. Accordingly he stepped into a shop, and buying a glass of the ardent, turned it into his boot, and proceeded about his journey. In less than two hours that whiskey had eaten its way out, and, as he was bootless, he found no trouble in locomotion.
