The striking of so many big wells within the past few weeks has given the "bulls" and "bears" in the oil market a good opportunity of influencing the price of oil on the strength of a large daily production. While we have given the actual production of the new strikes, it is perhaps justice to also mention the falling off in wells on the McCray farm. Phillips & Boyles well No. 1, which started up at over 300 barrels per day is now yielding but 125, having fallen off nearly 100 barrels within the last twenty-four hours. Their well No. 2, which started up at 250 barrels per day, is now yielding only 25 barrels. Several other wells have decreased largely.

GAS EXPLOSION AND FIRE.—An alarm of fire about half-past twelve last night, was occasioned by the gas from the Kepler, Watson & Co.'s well, McCray farm, catching fire from the tool dresser's forge and exploding. The tools were about 35 feet in the third sand rock when the gas vein was struck, the gas coming to the surface with great force. The derrick caught fire and was chopped down to prevent the flames spreading. As the well was within six feet of being completed, the fire will occasion a delay of two or three days before operations can be resumed.

BIG WELL AT RENO.—From a reliable source we learn that a 250-barrel flowing well was struck at Reno, last evening. It is located on the Reno Oil and Land Company's property, back of C. V. Culver's house, on top of the hill. The well was nearly completed, when a heavy vein of gas was struck and she commenced to flow at the above rate. So strong is the volume of gas that the workmen have been unable to put in the well but eight joints of tubing through which the oil is flowing. This will be apt to create another oil excitement at Reno.

Police.—James O'Brian and James Murray, residing in Hennehoff Run, got into a war of words, which finally ended in blows and Murray making threats to reduce O'Brian to the consistency of mince meat, against the peace and safety of the Commonwealth. For these offences Murray was held in the sum of \$200, by Justice Reynolds, to keep the peace and appear at Franklin to answer.

Frank Deats for assaulting and battering Frank Mullen, was mulcted in the sum of \$2.00 and costs, by Justice Reynolds. The parties reside at Pioneer.

"G. W. B." the Youngville correspondent of the Erie Dispatch says:

On Wednesday last I visited Stand Off City, on the far-famed Shaw farm. This new "city" was named only the day before my visit. It now consists of one hotel, and another in course of construction, two hardware stores, two dry goods stores, two blacksmith shops, groceries, dwelling houses, &c. In fact everything that goes to make up a smart oil town is coming in daily. It is situated on the old turnpike between Oil City and Plumer, about three miles from the former named place, with Rouseville about one mile and a half to the west. The natural location of this town is much better than most of its predecessors, being on a high, dry elevation. The oil wells in this vicinity bid fair to outlive any in the oil region (except the Tidoute district,) for permanency.

MARRIED.—In Danvers, Mass., Oct. 1st, by Rev. G. J. Sawyer, Mr. GEORGE F. LAWRENCE, of Petroleum Centre, Pa., to Miss JOSEPHINE L. BARTHOLOMEW, of Hardwick, Mass.

At last our friend Lawrence has read himself out of the "bachelor crew," and taken a companion for life. We wish him all the joy imaginable. May his future course be bright and happy, and never a cloud of sorrow arise to dim the horizon of a wedded life so happily began.

"I saw two clouds at morning,
Tinged with the rising sun;
And in the dawn they floated on
And mingled into one."

WHO CAN'T LEGALLY PRACTICE.—By a recent act of the State Legislature, persons who have not graduated with the degree of M. D., or have failed to take out a county license, are prohibited from practicing medicine. Although a heavy penalty is attached to the violation of the above law, some of the more venturesome break it with impunity. Those persons had better take care as their liability to prosecution and conviction may bring them into difficulties from which it will not be easy to extricate themselves.

Wells No. 3 and 4, Phillips & Boyles lease, McCray farm, are in the third sand rock, and will soon be completed.

A report has been in circulation for several days that the McCray farm has been sold for \$1,000,000. The report has no foundation in fact.

It is reported that a forty barrel well has been struck at Walnut Bend, on the Allegheny River. Should this prove true it will cause a revival of the oil business in that vicinity.
