SILVER PALACE SCHEDULE. No. 1—Direct from Philadelphia without change. No. 2—Direct to Philadelphia without change. No. 3—Direct from Pittsburgh without change. No. 4—Direct to Pittsburgh without change. Monday, May 30, 1870.

Gold at 1 p. m., 113 3/4.

THE RESULT IN THIS DISTRICT.—The returns for Congress in this District indicate a disastrous and humiliating defeat for C. W. Gillilan, the present incumbent. Mr. Samuel Griffith, of Mercer county, being elected by a majority of from 200 to 400. What makes the defeat more humiliating, showing plainly that the people were desirous of allowing Mr. G. to "go where the woodbine twined" and stay there, is the fact that two years ago his majority in the District was 1,812—a difference of over 2,000 votes between the late ballot and the former.

OBITUARY.—Mr. James Wood, for a long time associated with Mr. Samuel A. Wood, in the capacity of book-keeper, in this town, died at his home in Pittsburgh, on Tuesday evening last, of congestion of the lungs. Mr. W. had many friends in this vicinity, who will regret to learn of his demise.

The infant son of Mr. and Mrs. G. R. Harris, formerly of this place, died at Cincinnati, on Tuesday last, of inflammation on the brain. The sympathies of a large circle of friends and acquaintances are with them in this sad affliction.

THE LARGEST DRILLED HOLE IN AMERICA.—The "big hole" on the lease of Mr. Buxton, Central Petroleum Co.'s farm, was completed yesterday, and is being tubed to-day preparatory to testing. One of our American drillers, Mr. W. H. Coulter, has succeeded with American tools in doing that which experienced English drillers, with expensive English machinery, after eight months trial, on the same lease, gave up as impossible. This hole is 10-inch diameter to the second sand—a depth of 400 feet.—It is cased with 8-inch casing, being the largest casing ever manufactured. There may be something gained by sinking so large a hole, which must necessarily involve a great additional expense, but the experiment has demonstrated the fact that American tools with competent drillers are equal to the task.

A SONG FOR OCTOBER.

October strews the woodland o'er, With many a brilliant color; The world is brighter than before— Why should our hearts be duller? Sorrow and scarlet leaf, Sad thoughts and sunny weather— Ah me! this glory and this grief, Agree not well together.

This is the parting season—this The time when friends are flying; And lovers now, with many a kiss, The long farewells are sighing. Why is earth so gaily dressed? This pomp that autumn beaunt, A funeral seems, where every guest, A bridal garment weareth.

Each one of us perchance, may here, Of some blue morn hereafter, Return to view the gaudy year, But not with boyish laughter. We shall then be wrinkled men, Our brows with silver laden, And thou this glen may'st seek again, But never more a maiden!

Nature perhaps foresees that Spring Will touch her teeming bosom. And that a few brief months will bring The bird, the bee, the blossom— Ah! these forests do not know— Or would less brightly wither— The virgin that adorns them so, Will never more come hither!

MISS ADA TESMAN'S FEMALE MINSTRELS perform at Sobel's Hall on Saturday evening. The Elmira Advertiser has the following notice of the appearance of the troupe in that city:

Miss Ada Tesman has organized a company possessing much ability, both of general and special character, as was exhibited in parts one and two respectively of the programme last evening. As a vocalist, Miss Tesman did very well, while Miss Alice Sommers, Miss Lizzie Walby, Miss Minnie Wells, and Mr. James Rooms were repeatedly encored, in their respective specialties. Miss Maggie Nichols, upon the slack wire, did marvelously well, and Miss Josephine De Vansier with the magic bottles acquitted herself creditably. In fact from the demonstrations of applause and approval it seemed as if the audience could hardly see enough of some, and hear enough of others, of the performers. Several of them was called back once, twice and thrice. Should Miss Tesman visit our city again, with the same or as good a company she will be greeted again with a good audience.

A meeting of representatives of six railroad companies was held at Brocton station last week, to make combined arrangements in respect to oil transportation. The several companies were represented as follows: N. Y. Central, J. Tillinghast, Superintendent, and S. Drullard, General Freight Agent; Lake Shore & Michigan Southern, J. H. Deveraux, Manager and J. Desmond, Assistant Superintendent; Buffalo, Corry & Pittsburgh, M. P. Bemus, President, and A. K. Warren, Director; Jamestown (Pa.) & Franklin & Oil Creek Junction, P. H. Watson, President; Oil Creek & Allegheny River, J. H. Pitcairn, Managing Director, and F. Phillips, Treasurer.

NEW WELL.—Well No. 4, Arnold, Phinney & Derousse tract, McCray farm, was completed yesterday and tubed to-day.—Pumping commenced about 3 o'clock this afternoon, and the well is now yielding at the rate of 20 barrels per day. It will probably increase largely.

The regular meeting of the Y. M. C. A. will be held at the M. E. Church, this evening. A general attendance is desired as business of importance will come before the meeting.

We hear it rumored that the township election is to be contested, on account of fraudulent votes said to have been cast at Rousseville.

The following are among the patents issued to citizens of Western Pennsylvania for the week ending October 1st, 1870; and each bearing that date:

Window Washer and Scrubbing Pad; Jos C. Hull, Meadville. Pump valve; David W. Clark, Tidioute.

A fascinating youth of Louisville was recently very badly "sold" by the matron of the Kentucky State Prison, in whose daughter he seemed to evince a very strong interest while traveling in a railroad car.—Thinking that the flirtation had continued long enough, she suddenly changed her seat to the side of the young man and whispered in his ear: "Sir, you are a total stranger to me, but I feel it to be my duty to warn you of impending evil. That young lady is just out of the State Prison." A passenger got off at the next station.

London, Oct. 13.

A dispatch from a French source says an engagement occurred on the 10th between a body of Franc-Tireurs and Prussians, and after a short engagement the latter was routed with a loss of 30 killed and wounded.

French loss unknown. The occupation of Orleans by the Prussians is not yet confirmed, though it is certain the French have fallen back along the left bank of the river.

The Prussians are leaving Gournay and marching to Mezieres, and turning from St. Quentin they threaten Amiens.

An engagement occurred at Nea Negras yesterday but no result is given.

A force of 800 Prussians and 500 Saxons have already occupied Gleuses.

The Germans also appeared at Montmedy where a small detachment of them was defeated.

Versailles, Oct. 13, via Berlin. Yesterday the French army of the Livre were driven out of Orleans after a nine hour's fight.

Orleans was subsequently stormed. The Prussians took upward of 10,000 prisoners.

Their loss was small.

The French made a sortie, and after the battle, were driven back with tremendous loss.

The Prussians took a great number of prisoners.

The fund for the education of the children of Captain Williams, of the Oneida, wants only \$500 to complete the amount desired—\$10,000.

Jimmie Reynolds, a sixteen year old boy of Black Hawk, Miss., had a little disagreement with his step-father, and got the best of the argument by filling the old man full of buckshot. If anybody covets the position of step-father to young Reynolds the situation is open.

A Springfield man who has been visiting in the eastern part of Berkshire, reports a pastor who rings the bell to call the people to service, pitches the tune and helps sing, and the story goes, that in addition to preaching to the living, he stands ready to dig the graves of those who die, and all for a salary of \$700.

This is the way some evil disposed person pictures Harriet Beecher Stowe in her Florida home: "Amid the orange blossoms where the mocking bird carols his sweetest hymn, where all nature is a picture of beauty and of love, the old gnome sits, like the giantess of Doubting Castle, picking the bones of the southern dead, and her insatiate greed still unsatisfied, digs her lanky talons into the grave of Albion's sweetest poet, and tattoos the long buried bones of the king of verse."

In an obituary notice of a little Kansas baby, seven months old, we find the following grief provoking stanza:

Our cottage, aye, is lonesome now, We see the dress and bib, But not the eye and noble brow That filled the empty crib.

Now, if the eye of the deceased baby was so large and her brow so expansive as to fill the empty crib what an infant Hercules it must have been.

THE "SHOW BUSINESS."—An exchange has taken the pains to compute that there are thirty-two circuses and menageries in the United States. Of this number three are circuses and menageries combined; three menageries without the circus; and nineteen circuses without the menageries. These establishments give direct employment to 7,000 men and horses, requiring 900 vehicles for their transportation, and representing a capital of \$2,000,000. The receipts of each company average about \$850 a day while their expenditures amount to \$700.

The new edition of the School Laws of Pennsylvania is ready for delivery and should be in the hands of every one interested in the public schools of the Commonwealth. School directors and controllers will be supplied by the county superintendents of their respective counties. Any person can get a single copy by addressing the School Department at Harrisburg, and enclosing ten cents for postage.
