THE NEW ODD FELLOWS HALL.—The new Odd Fellows Hall, on Main street opposite the McClintock House, is finished and was occupied by the Lodge for the first time last evening. The hall is finished and furnished in elegant style, and will compare favorably with any one of the kind on Oil Creek. Without going into an extended description of the furniture and fittings, we cannot refrain from saying that excellent taste has been displayed by the committee having the matter in charge, and the Hall is a credit to the place. Below we give a complete list of the elective and appointed officers of the Lodge:

ELECTIVE OFFICERS.

N. G., R. J. Atwell.

V. G., J. K. Elliott.

Ass't S., Albert Glenn.

The Permanent Secretary and Treasurer are elected annually in March.

APPOINTED OFFICERS:

S. W., W. J. Pollock.

J. W., David Ritz.

R. S. S., W. B. Montgomery.

L. S. S., J. T. Pollock.

The Lodge organized with 21 members, and now numbers fifty, which, together with the fact that it is entirely out of debt, shows it to be in an exceedingly flourishing condition, and one of the permanent institutions of Petroleum Centre.

There was a "muchness" of rejoicing by the Democrats of Kane City and vicinity, last evening, over the recent victory in the township and the defeat of Gillilan for Congress. The report of the cannon started the echoes over the hills in this neighborhood and sounded long and loud.

F. W. HASTINGS.

The quarterly or sacrament meeting of the M. E. Church is being held this afternoon, and will continue to-morrow. Preaching at the usual hours in the forenoon and evening.

One Michael Slavey, residing in Shamburg or vicinity, hired a horse and buckboard at McDonald's livery stable, day before yesterday, to drive to Shamburg as he stated. After arriving there it appears that Michael got drunk and concluded to go to Pleasantville and have some "fun with the boys." Upon the "fun grew fast and furious" and Michael drove to Miller Farm, on the road over smashing the wagon and cutting the horse badly on the fore legs. After "patching up things" Michael started for Pitohole, but before arriving there his "dream of pleasure" was brought suddenly to a close by a warrant in the hands of officer McHugh, and Michael was brought back and taken before Justice Reynolds; an examination was had and Michael was found guilty of trespass to the tune of \$35 and costs or three months in the county jail, which sum Michael failed to raise, the consequence being that for the ensuing three months he will have a chance to "play checkers with his nose" in the Franklin jail. Michael will depart from these fleeting scenes on the evening train.

An accident occurred to a workman in the employ of Mr. Dickey, the owner of the patent torpedo by that name, at Tarr Farm, night before last. It appears that he was engaged in preparing chemicals, when they suddenly exploded, blowing off one of his legs and otherwise bruising him. We did not learn the name of the unfortunate man, but understand he is still alive.

Remember the Female Minstrels at Sobel's Hall, this evening. An excellent programme is offered.

NEW WELLS AT THE POINT.—Mackey, Haslet & Connelly commenced pumping their new well at the point on Tuesday. It is 443 feet deep and is producing 50 barrels a day.

Heasley, Mattern, Nicklin & Co.'s well, on Taylor & Macky tract, commenced to pump on Friday last, and the first twenty-four hours produced over 100 barrels. It is now yielding about 35 barrels per day.

J. McC. Miller well No. 3, commenced testing on Friday last and is yielding about 7 barrels per day.—Venango Spectator.

Mr. Boecher created a sensation by his sermon Sunday last. His church was filled to more than the usual suffocation, it having been rumored that he would take a new departure in eccentric theology. The audience were not disappointed. Taking Matthew xxiii, 30th verse, as his text, he proceeded to pull the plug out of the bottom of the lake of fire and brimstone. The Bible, he said, was full of fiction; as example he mentioned the future life and the New Jerusalem. Every man, he declared, was his own heaven-maker. His remarks were humorous in the extreme, and the congregation were kept upon a broad grin until they drew the corners of their mouth for the benediction.

When Wilson, the convict for the murder of the Warden of the Connecticut Penitentiary at Hartford, on the 6th, was asked if he had anything to say why sentence of death should not be pronounced, he replied "I have only to say that I do not feel that I have been tried. I am perfectly satisfied with the result. To be hanged will be an act of supreme mercy compared to being compelled to live in the Connecticut State Prison as I have been."

North Adams was amazed a few days ago by the apparition of a Chinese dandy, in black broadcloth suit, fine sewed boots, starched bosom shirt, with collar and necktie complete, felt hat of the period, lounging gracefully about the street and making purchases fastidiously at the furnishing stores for the further adornment of his person.

One-half of the people of this country are engaged in agricultural pursuits, and at no time in our history was the occupation of tilling the soil gaining more rapidly. New territories, heretofore supposed to be as worthless as the Desert of Sahara, are coming under cultivation, and are found not only to be rich in agricultural resources, but in many cases, more fertile than any lands hitherto broken. The value of our cereal crops (wheat, corn, oats, rye and barley,) at the present time, is estimated at more than one thousand million dollars per annum, while their future value is may be safely said, is limited only by the cost of transporting them to market.

Henry's great comet, which has been seen at times since 1378, was seen in 1835, and returns in 1911.
