A Country without Greenbacks.

The Overland Monthly tells how the Mormons manage to get along without greenbacks:

Hundreds of farmers living in reasonably comfortable circumstances, and having large families to clothe and educate, will not see a dollar in money for years. Such a farmer wishes to purchase a pair of shoes for his wife. He consults the shoemaker, who avers his willingness to furnish the same for one load of wood. He has no wood, but sells a calf for a quantity of adobe, the adobe for an order on a merchant, payable in goods, and the order for a load of wood, and straightway the matron is shod. Seven watermelons purchase a ticket of admission to the theatre. He pays for the tuition of his children seventy-five cabbages per quarter. The dressmaker receives for her services four squashes per day. He settles his church dues in sorghum molasses. Two loads of pumpkins pay his annual subscription to the newspaper. He buys a "Treatise on Celestial Marriage" for a load of gravel, and a bottle of soothing-syrup for the baby for a bushel of string beans. In this primitive method, until the advent of the railroad, nine-tenths of the business of the territory was conducted. And even now, in the more remote settlements, a majority of all transactions are of this character.

Go and see the black blonde performances of Ricardo to-night.

TIDIOTE RAILROAD—INJUNCTION DENIED.—The argument in this case, on the application of J. J. Vandergrift and George Y. Forman, petitioners, asking that an injunction might be issued restraining the directors of this road from increasing their capital stock, was heard before Hon. S. P. Johnson at Corry, on Monday last. C. H. Heydrick, Esq., of Franklin, appearing for complainants, and W. D. Brown, Esq., of Warren, for defendants.

After hearing the testimony and listening to the arguments of counsel, the Court decided that sufficient grounds for granting an injunction had not been shown, and denied the prayer of the petitioners.

A remarkable phenomenon occurred the day on which the earthquake was felt at Stumps' Mill, New Londonville, O. On a small hillside that has heretofore been dry ground, a stream of water about one foot in diameter, gushed out with great violence and has been running with the same force ever since. The ground, for a considerable extent around the waterspout, is settling. Long poles have been inserted but no bottom found. There seems to be an underground lake.

Do not fail to hear Hugh Hamill the exquisite balladist, at the Opera House to-night.

Miss Lizzie L. Boynton, the Elizabeth Cady Stanton of Crawfordville, Indiana, is no more. The ceremony by which she became Mrs. Harbert took place in the presence of a large assembly, on Tuesday of last week. The happy pair, after a brief wedding tour, will proceed to Des Moines, Iowa, where Mr. Harbert is practicing law and his wife, it is said, will enter his office as a law student.

Go and hear Charley Freeman in his favorite piccolo solo's at the Opera House to-night.

Nevada is a nice place to live. The other day three men built a fence across a stage road in that state, and when the stage came up, leveled their guns and began to talk business. The twelve passengers, headed by the Lieut. Governor and the warden of the state prison, got in single file, left their money and valuables, and were ordered back into the coach again. The robbers then pulled down the fence, fired a salute as the vehicle drove off, and thus pleasantly parted company with the guests.

McCray Bros. well No. 2, J. S. McCray farm, mention of which we made yesterday as yielding 15 barrels per day, has increased to 45 barrels daily.

The Armstrong, Christie & Brady well, same farm, which started at 8 barrels per day has increased to fifteen.

Those of our citizens who admire genuine amusement without vulgarity, should attend LaRue's Minstrels, who perform at Sobel's Opera House, this evening. Reserved seats can be secured at Griffes Bros. drug store.

We learn that a shooting affray occurred at East Shamburg, last night, in which a man named Parcel was seriously wounded in the shoulder, and another man called "Stotty," was shot through the left breast, and probably fatally wounded. Several of the parties engaged in the affray have been arrested and are held to await the result of the wounded man's injuries.

THE GREAT STORM ON LAKE ERIE.—On Sunday night and Sunday last Lake Erie was visited by the third great loss of life and property. At Buffalo considerable damage was worked by the wind and water while at nearly every point on the lake shore more or less damage was done.—Among the disasters on the Lake are the losses of the tug J. C. Harrison, which went down off Sturgeon Point about two o'clock Monday morning; the propeller Neptune, which sank at about daylight at Cleveland; the schooner Britannia which sank off the Peninsula at Erie, and the wrecking of several schooners and tugs at different points. The Buffalo Courier of Tuesday says that thus far only six lives are known to have been lost, and the captains and crews of the different vessels displayed undaunted heroism in the rescue of life and property. This storm is reported as the severest that has visited the region of country around Lake Erie this season. The total losses to life and property have not yet been ascertained.
