SILVER PALACE SLEEPING CAR

No. 4 - Direct from Philadelphia without change. No. 5 - Direct to Philadelphia without change. No. 6 - Direct from Pittsburgh without change. Monday, May 30, 1870.

Gold at 1 p. m., 110 1/2

PICKPOCKETS ABOUND.—Just as the 1:20 train south this noon was leaving the depot a lady named Shanfield, living near Bean farm, and who was on her way to the Hess farm, announced that her port monie consisting \$50 had been stolen. At the same time Mr. Wm. Miller, postmaster at this place, called to some friends on the plat. form that Mrs. McEwen, wife of the Rev. McEwen of Mercer county, had been robbed of her pocketbook. Who the thieves were is not positively known, but those familiar with parties who travel over the road recognized several well known sneak thieves on the train, one or two of whom got off at this place. It would be a good riddance to community if some one would put a bullet through their miserable carcasses. Travelers will do well to hold fast to their valuables while on the case.

The report published by us yesterday to the effect that peace had been declared between France and Prussia appears to have been a canard, although it had every appearance of being reliable, and was confirmed by dispatches received at a later hour. It was doubtless started to affect the gold market.

We are grieved to announce the sudden death of Adelle, wife of Mr. Abner Yanney, which occurred at the house of her brother-in-law, David Yanney, at Rochester, N. Y., about 13 o'clock last night. Mrs. Y. had many friends in this place, who will sincerely mourn her demise.

FAST DRILLING.—The drillers employed by Mr. N. B. Parker, contractor for sinking oil wells, at well No. 5, Arnold, Phinney & Derrance lease, McCray farm, made 275 feet in less than five days recently. This is said to be extraordinary fast drilling by those who claim to be post-d.

A good rule - back your friends and face your enemies.

GREAT FIRE IN OIL CITY!

Iron Tanks and Tank Cars Burned.

Oil City, Nov. 11—3 p. m. Several tank cars and one large iron tank are on fire; iron tank just burst. 2:30 p. m.—Parker, Thompson & Co.'s tank on fire; others in danger; city in danger.

[By P. & A. Line.] Oil City, Nov. 11—3:00 p. m. Fire originated from a spark from passing locomotive on A. & G. W. R. R., at Parker & Thompson's landing, where they were loading six or eight cars which were mostly filled and were burned, together with the range and the old Searles & Henderson range; also, one tank belonging to Lookhart & Frow with few hundred barrels of oil in it.

The fire is now under control. The "boys" exercised their lungs last night in seducing mellifluous strains of heart-tearing music from a miscellaneous collection of instruments, in honor of a newly wedded pair, residing on the Egbert farm.

The loud report heard about 9 o'clock night before last, was occasioned by the top of the tar still at the Monitor Oil Works, blowing off. The damage was not large, but escape of the works from being destroyed by fire was narrow.

Court Proceedings

Franklin, Nov. 10. At three this afternoon the case of the Bilivis Petroleum Company vs. The Union Petroleum Company, was concluded and submitted to the jury. Verdict for plaintiff \$3,190.

Kemp vs. Calvin Bissell, George Hammerly and Fred Layman. Action on note. Tried, and verdict for plaintiff.

S. Russell vs. H. C. Cockley. Action for goods furnished and labor done. Tried, and verdict for plaintiff for \$189 90.

J. G. Reed vs. James Storey. On trial.

Serious Accident.—On Wednesday a man named L. Davis, a driller on the McGrew well, Wilson farm, near McCray farm, had his arm broken in an unusual manner. It appears he was using a crowbar to secure ly fasten the tools before lowering them in the well, when his foot slipped and he fell, his arm striking the wrench, and the weight of his body breaking his arm at the wrist.—Herald.

We copy the following items from the Venango Spectator:

Geo. Itherwood, a stone cutter, working at the Burning Well, in the employ of Mr. David L. McVay, contractor, was drowned opposite the Wilson farm, 16 miles below here, on Tuesday, while crossing the river in a skiff in company with a man named Stephen Brannock. The two men were under the influence of liquor, and the boat capsized. Brannock saved himself by a hard struggle. Coroner Larnie held an inquest, and the jury rendered a verdict of accidental drowning.

The Court on last Monday appointed Col James S. Myers Auditor to distribute the funds in Court, arising from the sale of the Pitloch Branch Railroad of the Clarion Land and Improvement Company. The amount to be distributed is \$61,000.

By reference to our advertising columns it will be seen that Messer & Stuard have purchased the interest of A. M. Shultz in the grocery and bakery, on Washington St., and will hereafter continue the business. These young men are new candidates for public favor, and hope by honest and fair dealing and the keeping on hand of a complete stock of groceries and provisions, to merit a share of the public patronage. The bakery in connection with their establishment will be kept running continually, furnishing bread, pie, cakes, &c., to their patrons. Drop in and examine their stock and prices.

Sarah Van Camp of Matamoras, Indiana, has brought suit against M. H. Aldrich & Co., of Cincinnati, for \$5,000 damages for the loss of her husband whose death was occasioned by the explosion of petroleum sold him by them in June last. They warranted the petroleum, she alleges, non-combustible; but on the 9th of August last, when she and her husband went to the cellar with a lighted candle to remove it, the fact that it was combustible was unfortunately demonstrated, the gas arising from it having ignited and enveloped her husband in flames, causing death.

A new list of passenger rates has been adopted by the Pennsylvania Central, New York Central and Erie roads, and others, to many prominent Western and Southern points. They are a trifle higher than the old figures.

Love is an eternal transport. So is a casual boat.

Latest and Most Important War News.

Tours, Nov. 10. The French, by a series of successes have compelled the Germans to evacuate Orleans.

London, Nov. 10. To-day's war dispatchs chronicle important French successes before Paris through the capture of several Prussian camps.

Garibaldi is again victorious, having routed a force of Germans 5,000 strong. The latest intelligence from the Army of the Loire is that there has been three days of continued fighting without a decisive result.

The losses of the French are frightful, but the Prussians have been driven back ten miles.

Tours, Nov. 10. News from Orleans is cheering. Advices are just received of a series of engagements near there, in all of which the French were successful.

The French were pressing towards the city, and as their movements tended to surround the enemy, the latter was obliged to evacuate.

The Prussians lost considerably in killed and wounded and prisoners.

Tours, Nov. 10. Orleans has been retaken after a severe fight. The Prussians lost five hundred men.

Upton, Hudson and Essex counties, New Jersey, propose to have a joint school-ship as a boys' reformatory.

Wedding fees amount to something in New York. None of your five dollar bills will satisfy the great preacher, and any one desiring the eclat of having a Tying or Beecher perform the happy ceremony should touch a \$50 note at least, and from \$100 to \$500 are the figures most in vogue, but double the last has been fingered on such an occasion by a happy divine.

Now the Spiritualists claim that they should have an Indian agent.

The Navy Department having investigated, pronounces groundless the story of an alleged survivor of the Levant.

In the noted Vanderpool trial now in progress at Kalamazoo, Mich., there is a curious dispute between the chemical experts. Prof. Duffield, of Detroit, who analyzed the blood found in the Field-Vanderpool bank, said there were human crystals in it, but Prof. Douglass and Rose, of Michigan University declare the analysis of blood cannot distinguish between human crystals and those of the blood of other animals.

On Saturday on Fleetwood course Pocomantas trotted the latest half mile to barons on record. Time: 1:06 1/2.

The total bank capital of St. Louis is \$12,307,147 21, besides \$5,430,585 30 surplus, and \$31,205,477 50 deposits.

The new telegraph company, using Little's automatic system, has notified the Postmaster General that it is ready to make a contract for the transmission of all communications of the department, at the rate of a cent a word up to and under five hundred miles distance, no message to be less than ten cents.

Professor Jacobi, of Russia, has succeeded for the first time in producing specimens of pure iron, that which hitherto has been considered the pure metal being in reality a compound. The pure iron deposited by the action of the galvanic battery, and which is always rich in hydrogen, being placed by him under the receiver of an air pump and heated to redness, disengaged hydrogen in torrents, increased in volume and changed to a silver white metal (the true iron), very malleable and ductile, and so soft as to be readily cut with scissors. Iron thus prepared oxidizes rapidly in the air, and decomposes water below the boiling point. It is probably that hydrogen combines directly with iron, increases its hardness and density, and diminishes its malleability and ease of oxidation.

An artesian well of six inches bore will deliver half a million gallons per day at the cost of the interest on say \$4,000, for sinking the well, which would be at 7 per cent., \$280 per annum. That is to say an artesian well of that size would furnish the people with 500,000 gallons of water for seventy-five cents per day, which amounts to but one-seventh of a cent for every 1,000 gallons.

Is it wrong to take any one in when it rains?

"When he didn't attend church he made it a duty to kill a digger Indian," says an obituary notice of a dead Laramie gentleman.

Fond parents around town are engaged in fixing up the front gates that were damaged during the summer sparking campaign.

Business men that advertise get the cream of the trade.

"What is home without a mother?" said a young girl the other day as she sent the old lady out to chop wood.

Local Notices.
