REDUCING THE ROYALTY.—Mr. D. W. Kenney, Superintendent of the Metropolitan Oil Co., operating on Cherrytree Run, on a recent visit to New York city, succeeded in getting the royalty reduced, as follows: If the well produces \$200 worth of oil per day, no matter what the price of oil may be, the operator gives one-eighth royalty of the oil, and on all the production over that amount, one-fourth of the oil goes to the land owners. This applies not only to all new wells that may be put down but also to the wells now down and producing. The good effect of this reduction of the royalty by the land owners is tending to stimulate developments to a great extent in that vicinity, Messrs. Fisher, Bates & Co., of this place, who already have several wells producing on this tract, being about to put down two more at once, and other parties intending to commence developing in a short time. By this new arrangement both parties will be benefited, the owners securing more oil from the new wells, and the operators deriving more income thereby enabling them to sink more wells, even at the present low price of oil. The company have several choice leases which they are prepared to let to responsible parties. As all the wells on the Metropolitan tract are producing oil, a rare opportunity is offered to operators. The plan of reducing the royalty is a good one, and now that it has been started by the Metropolitan Oil Co., we hope to see other oil companies and land owners following suit, as it is a well known fact that the present extortionate royalty asked by the land owners deters many small operators from further developments of leases which they now hold, or the developing of new territory, they not having the necessary means at command. Let the good work go on.

A small parlor stove, in complete order, can be bought for \$3.00, by acquiring at this office.

The following is a synopsis of the Petroleum Producers' report for the month of October:

Number of barrels of oil on hand at the wells at the close of the month, 127,617; Number of barrels of oil delivered from wells during the month, 557,624; Aggregate, 685,241; Deduct number of barrels of oil on hand at the close of last month, 121,841; Balance showing the production for the month, 563,400; Average per day for the month containing 31 days, 18,171; Number of wells producing during the month, 2,899; Average daily production per well during the month, 6.2; Number of wells being drilled, 224; Number of wells commenced during the month, 122; Number of wells completed during the month, 151; Number of wells abandoned during the month, 80; Number of abandoned wells resumed during the month, 12.

Number of wells being drilled October 1st was 264, and November 1st 224.

The Philadelphia North American, alluding to the increase of population in Pennsylvania says:

Referring to the "wild-cat district" through which the Philadelphia and Erie Railroad passes we find the completion of that work to have achieved wonders. Elk has gained 2,900, while Forest, which had only 898 inhabitants in 1860, has now 4,183 and Cameron, a new county, exhibits a total of 4,273, the counties from which it was taken showing no decrease. Warren county has increased 4,707, and Clinton 5,490. This was, ten years ago, the wildest and most inaccessible portion of the State, the settlements few and feeble, and the people poor. It is now populous and flourishing. Petroleum, coal and railroads have wrought the change. And now that the region is open to the world it will reveal still more astonishing capacities during the ensuing decade.

Beware.—A watch tinker, calling himself Theo. Dexter, made his appearance in Tionesta, something less than three months ago, and up to the time of his departure, did quite a flourishing business. However he seems to have been dissatisfied with the amount of currency he was hauling in, and on Wednesday last "folded his tent like the Arab, and silently stole away." He took with him, to defray incidental expenses, a gold watch and guard, belonging to Dr. Winner, valued at \$150, a watch of Mr. Hackett's, worth, we suppose, about, \$50 a heavy silver watch of Nelson Cole's and a number of other time pieces and considerable jewelry belonging to his customers. He is under obligations to Mr. Proper, of the Tionesta House, to the tune of \$51. He left his jewelry boxes here, and carried all the missing goods away in his pockets, with the exception of Mr. Proper's victuals. This is the second tinker who has softly glided away from our vision, under like circumstances, and yet our heart yearneth fondly for some one else to take us in. Where is the next lucky tinker?—Forest Republican.

We understand that two of the pickpockets who have been traveling over the O. C. & A. R. R. for several days past, were arrested by detectives employed by the company, at Titusville, last evening. It is to be hoped that the scoundrels will have a liberal share of justice meted out to them in the shape of a long term of service for the benefit of the State.

The New York World figures Hoffman's majority in the State, without the official count, at 32,063. The Tribune estimates it at 32,900.

Among the good things of life there is nothing that excels a well cooked game dinner, and the place to get it is at the Petroleum Exchange Hotel, where they have just received a fresh invoice of game, such as pheasant, quail, rabbit, venison, &c. Drop in and try a saddle of venison.

Say, you Pet. Centre man, no talking back. You invite outside people into scrapes and then tantalize them about it.—Corry Republican.

We do not believe in "inveigling" people but the green ones of Corry can easily be led into scrapes, and when they get in ain't sharp enough to get out without being bit. It gives us Pats to record it, out 'tis true. Don't mention it, Republican.

A Biddisford, Me., woman wanted a man to control her property and advertised for a husband last July. She got him, but two months later, Lethario departed, taking with him government bonds to the amount of \$10,000; since when divers friends, who started in hot pursuit having ascertained that the doctor had two wives already, and was yet to wed a downy East damsel.

The Detroit Post frantically inquires, "What is a barrel?" Hereabout it is usually a vessel made of wood, about twice as long as its diameter, bulging in its central circumference, bound with hoops, and filled with vinegar and petroleum.

Gen. De Palades is now executing a movement which is designed to outflank Gen. Von Der Tawn's right.

The trial of Lieutenant Daugherty, for the killing of Van Horn, who slandered his sister, in the Tipton Circuit Court of Indiana, ended on Thursday in his acquittal.—The speech of Hon. Thomas A. Hendricks, for the defense, is pronounced the ablest of his life, and had a powerful effect upon the jury and the large crowd in attendance.—On the rendition of the verdict a shout of approval went up that is seldom heard in court rooms. As Lieutenant Daugherty was leaving the court room, Mrs. Van Horn attempted to visit summary vengeance upon him in pursuance of a threat she had made long ago, in case of his acquittal, but after one shot from a revolver, which did no harm, she was disarmed by the Sheriff. Reports came from Kokomo, where the deed was committed, that an excited mob had gathered about the depot to assail the Lieutenant, if he had gone up on the evening train. He went to Indianapolis however, and will go to Washington in a few days and await orders.

Orris Hall, Esq., has purchased the lot on which stood the old tannery, in Warren and on which a few years ago, a well was sunk (and some money) for oil. We believe that Mr. J. Trouby, has an interest with Mr. Hall and they intend to clean out the well and thoroughly test it. There is considerable oil in the well, which constantly rises to the top of the water and can be taken out any day, and is so taken. A new derrick is to be put up and an engine placed there soon. So says the Ledger.

Last week a beautiful monument of Italian marble, from the chisel of R. E. Lanbity, a celebrated New York sculptor, was erected in Oakwood Cemetery, Troy, N. Y. to the memory of the late General George H. Thomas. It is of the massive sarcophagus style, surmounted by the American eagle, grasping in his talons a fact simile of the sword worn by the General, and with its head and neck in defiant attitude, as if the duty of guarding the remains of the great soldier had been solely entrusted to it. On the front side of the monument is the following inscription in raised letters, encircled by a wreath of oak and laurels:

George H. Thomas,
 Major General U. S. Army;
 Born, Southampton county, Va., July 31, 1816,
 Died, San Francisco, Cal., March 28, 1870.
