The "corner" in oil still occupies the st- Latest and Most Important tention of oil men. This alternoon the 'bears" appear a good deal disbeartened at the non-arrival of cars. They have been short of cars at Miller Farm to-day. at which point at least twenty-five were expected. They claim, however, to have 200 cars on the way here. Forty loaded cars were dispatched from Boyd farm this morning. As the matter stands it is plainly to be seen that the "bears" are on the "anxious seat" and do not desire to see many more cars "shoved" at them. During the heavy thunder storm last evening, Capt. F. J. Keffer, while on his way down the hill from the Daizell farm.

received a severe shock of electricity from the effects of which he has not fully recovered. At the time he was holding an umbrells over his bead, and so severe was the stroke that the ferule on the upper end of the umbrella was melted off. The Captain was rendered insensible and remained so for nearly ten minutes, being brought to his senses by the rain beating in his face, Upon coming to he was unable to proceed for some time his limbs being numb and without feeling from the effects of the lighting. It is supposed the lightning struck the Mc-Cray and Egbert pipe line at some point on the hill and ran down the pipe, and as Mr. K. was just in the act of crossing it he probably received nearly the full force of the shock. It was a miraculous escape from in-
