ROBERTS' PETROLEUM TORPEDO.
TORPEDOES.
THE ROBERTS
PETROLEUM TORPEDO CO.
Office at the
RED PLANING MILL,
Corner of Pine and Second Streets,
(Near the Railroad)
TITUSVILLE, PA.

Owing to the large and increasing demand for the
Roberts' Torpedoes, and the fact that the
Commissioner of Patents is refusing to issue a
patent, and the decision of Judge Grier in the
case of the Roberts' patent have LOWERED
the price of their Torpedoes
TWENTY PER CENT.

so that every Operator can afford to try a Torpedo
before abandoning a Well.

The following is the decision rendered by Judge
Grier on the twenty-third (23) day of September,
1890, in the United States Circuit Court at Philadel-
phia. The case was argued three days by Charles
M. Keller of New York, B. F. Lucas and S. A. Pur-
viance of Pittsburgh, for defendants, and George
Hending of Philadelphia, and George H. Christy, of
Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIER.
As I write with diffidence I can only state the con-
clusions to which my mind has come after a careful
examination of this case.

The complainant has exhibited a patent dated
25th of April, 1885. This is prima facie evidence of
a good title, and puts on the respondents the bur-
den of proof that the patent is void or worthless.
I need not repeat in remarks in the case of Good-
year vs. Day (2 Wall, C. C. Rep. 229.) but must
adopt them as affording a rule of decision which ap-
plies clearly to the present case.

As the infringement of the patent is admitted,
the only question will be as to the validity of com-
plainant's patent of April 25, 1885.

"It was after speculation had been reduced to
practice, and after repeated experiments, that the
complainant succeeded in overcoming the prejudice
and ignorance of the people on the subject, and
persuading the public that his invention was useful,
after he had established its great utility and value,
and when his genius and patient perseverance, in
spite of sneers and scoffs, were completely suc-
cessful, that he, who had before made experi-
ments on the same subject, and was unsuccessful,
imagined that he had the best right to the inven-
tion, and after purchasing one or more complainant's tor-
pedoes he applied on the 1st of November, 1887,
for a patent for substantially the same combina-
tions of devices and arrangements as contained in
complainant's patent. On the 10th of the same month
respondents formed themselves into a company or
corporation called "The Red Torpedo Company,"
for the purpose of pirating the complainant's in-
vention, and supporting the expense of litigation,
and thus defrauding him of the fruits. They have per-
sued, even after their patent was in violation very
properly granted by the District Judge, a perpe-
tual injunction, and a Master appointed to take
an account according to the prayer of the bill.
R. C. GRIER, Judge.

NOTE.—The passage referred to by Judge Grier in
his former decision, 2 Wallace, p. 279, adopted as
applicable to this case was as follows: "It is usually
the case, when any valuable discov-
ery is made, or any new machine of great utility is
invented, that the attention of the public has been
directed to that subject previously, and that many
persons have been making researches and experi-
ments. False claims and unwarranted assertions
in some measure anticipated in the case of every
discovery, and many experiments have been success-
fully tried, coming very near, yet falling short of
the desired result. They have produced nothing ben-
eficial. The inventor who has perfected any truly
valuable discovery, and who has been patient and
persistent, not only by the inventor, but by many other
persons, who may have profited indirectly by the un-
successful experiments and failures of others, but it
gives them no right to claim a share of the honor of
the product of the successful inventor. It is when
speculation has been reduced to practice, when ex-
periment has resulted in discovery, and when that
discovery has been perfected by patient and contin-
ued experiments, when some new compound, man-
ufacture, or machine has been thus produced
which is useful to the public, that the party making it
becomes a public benefactor and entitled to a patent."
And yet when men make false claims, and when
scoffs, some valuable invention, but by many other
persons, who may have profited indirectly by the un-
successful experiments and failures of others, but it
gives them no right to claim a share of the honor of
the product of the successful inventor. It is when
speculation has been reduced to practice, when ex-
periment has resulted in discovery, and when that
discovery has been perfected by patient and contin-
ued experiments, when some new compound, man-
ufacture, or machine has been thus produced
which is useful to the public, that the party making it
becomes a public benefactor and entitled to a patent.

CAUTION.
The public is cautioned against employing any
of the regular, authorized Agents of the Com-
pany, since the Roberts' Patent covers the use of the
Torpedo and all explosive materials for oil wells,
and the use of such materials by other parties is a
direct infringement of the Roberts' Patent. Any party
infringing any of the ROBERTS' PATENTS will be
dealt with according to law, and as acting willfully
and knowingly in defiance of law and the decisions
of the Courts.

The Company have reorganized their business
with a view to accommodate Oil Men in every part
of the Oil Region. They have employed the most
efficient Agents and Assistants that can be procured
for the business. Each Torpedo is labeled with
date of patents, together with the price of the Tor-
pedo, and signed by an officer of the Company, so
every Operator wishing a Torpedo may know its
price and whether it came from our office.

Operators will confer by reporting to this
Office any negligence of Agents.

of Pennsylvania and West Virginia.

"POICKRY!"
Enumerating a few of the articles to be

L. M. STERNBURG'S
Lumber Yard
Washington-St., Petroleum
Centre, Pa.

Friends and patrons, one and all,
Your attention to my "biz" I would call;
Times are dull an' money tight,
But in these times I'm looking for light;

To those who are building rigs without number,
I would inform—this is the place to buy Lumber;
My motto is this: "Quick Sales and Small Profit,"
For business is healthy and I think much of it;

In quality my Lumber is second to none,
And as for Shingles, I keep No. 1;

Some may not look at it in the light I do,
And for store I have a quality No. 2;

And to those who are particular—as some may be,
I still have another quality called No. 3;

I have good seasoned Lumber, Dressed up nice,
Which I will sell at a low cash price;

Such as Flooring, Ceiling and Siding, both Rough
and Dressed,
Lath, Battens and Surfaced Lumber, all of the
best;

I also have Rig Lumber of all kinds,
At prices to compare with oil and hard times;

All kinds of Timber kept constantly on hand,
And a box of Cigars of a very good brand;

My facilities for selling are surely without number,
I always keep good teams to deliver good Lumber;

So if you want Lumber, Rough, Dressed, Soft or
Hard,
You will find just what you want at L. M. S's Lum-
ber Yard. 1879-14
