The ice went out of the Allegbeny River on Saturday, without doing much damage. At Parker's Landing, the boat which had been used as a "free and easy," bade farewell to that place and at arted with the ice "on its windlog way to the ses." When our informant left the boat was below Brady's Bend and still moving with the ics. At this point, yesterday, Oll Creek was more than raging, not having been so high eince a year age last August. Considerable lumber went down, but no great damage was done that we can learn. Several families living on the fist

NEW METROD OF RECTIFTING PETRO-LEVE .-- It is announced that a French chemist has successeded in discovering a cess for rectifying petroleum, by the addition of a small quantity of a certain chemical product (not samed) to the liquid before distilling, by which means an oil is obtained without say odor, even when burning, and the point of inflammability,

of which is so low that it must be heated to 177 degrees before ignition occurs. The volatile gas, usually so readily disengaged from mineral oils, becomes as fixed that no evaporation takes place, and, consequently the danger of fire and explosion is reduced to its minimum. The oils thus prepared, it is stated, can be made into soap, or can be mixed with vegetable oils and burn like calm in carcel imps. The scap made by this new form of petroleum oil is said to be very efficacious in diseases of the skin; and it is also applicable to the destruction of insects. Articles washed with this are claimed to be ever afterward free from attacks by moths. This promises almost too much; but if the results at all approach the claims made from this oil, a very important advance will have been made in

Exough -Adam Goodenough, who formerly kept the Tiffany House in this city poor enough, fleeced some of our citieens well enough, and started off quick enough, but didn't run quite fast enough, nor keep running long enough, nor go quite far enough, got a Jersey policeman's grip on him tight enough, and at the request of Governor Geary, Govervor Randolph was kind enough to surrender the said Adam Goodenough to answer the charge of forging the name of James Ford to a check on the First National Bank of this city, on which be obtained the money. He will be returned to this city for trial, which Goodenough whi so doubt consider tough enough. The whole affair is bad enough .- Meadville Republican.

There was considerable of an los gorge in the Allegheny River, at Oll City, yes-NO DI done, although some of the residents he flats were in fear of being flooded.

THE MONSTER BULOFF.

NO LESS THAN SEVEN MURDERS LAID AT HIS DOOR-HIS CONFESSION TO HIS COUN-SEL-FROREN TOES LEAD BIN TO THE GALLOWS.

From the Utica Herald.

Now that the third jury has prononneed Edward H. Ruloff guilty, and, for the sectime guilty of murder in the first degree, and he has been sentenced to be hanged by the neck till be is dead, it seems proper enough to record the gist of the confession to which we alluded the other day. At his trial in Ithaca, twenty-five years ago, for the abduction of his wife, he gave the full particulars of his crime to his counsel. Mr. Cushing. Mr. Cushing dying left it with a legal brother of Ithaca. It was to this effect: Mrs. Ruloff and their child were at the bottom of Cayuga Lake. Ruloff first rendered his wife insensible by chloroform. He then took up a plank in the floor, and bled her to death, the blood flowing throgub the opening. The child he disposed oftin simfar menner.

He then put the dead bodies in a box prepared for the purpose. He got a neighbor to help him load the box upon a wagon, alleging that it was filled with books. He drove to the lake, put the box in a skiff, then filled it with stones, and , rowed out to the middle of the lake, where he pushed the box with the corpses of his wife and shild overboard. No one saw the dreadful deed, and until very recent none but the confident of his early counsel knew the facts We have the name to whom Mr. Cushing told the above, but refrain from giving it. The facts as we have stated them we have reason to believe are correct, and as such are here first made public.

It will be seen by reference to our telegraphic columns that Judge Hogeboom has dealed arrest of judgement, and sentenced Ruloff to be hanged on Fildsy, the third of March next. We can well believe that he beard ble sentence in "sullen silence." He has listenedo t a like sentence once before. Three time he has beard the word "guilty" fall from the lips of the jury foreman. He bas seemed possessed of a charmed life. For a quarter of a century be has carried with him the knowledge of a revolting crime.-He has gone on in crime. Merrick was his third known victim. Jarvis and Dexter educated in crime by him, lay their deaths and disgrace at his door.

His mother-in-law was his sixth victim. She, bowed down with grief over the loss of ber daughter, had dragged along in life till confronted at Binghamton in August last with the man whom she believed, but did not know, to be guilty of that daughters death. The shock was too great, she died in less than three days. And we say again, that if his sentence be; carried out on the 3d of March, Ruloff's death willsbe the sev. onth death known to be charged to Ruloff's agency.

A dispatch from Harmsburg to the Pittsburgh Commercial, dated January 18th,

A serious accident occurred this morning on the Allegheny Valley Railroad, about a half mile below this place. John Livingston, a section boss, started for Parker's Landing with a hand car, accompanied by Elizabeth Anderson, an adopted daughter. a Mrs. Fergason, and three men. While on their way they were run into by an extra freight train coming north. The men jomped from the our instantly and were not tajured. The women, being afraid to jump, were thrown between the cowcatcher of the cagine and the hand car, and dragged a distance of fifty-five yards. When the cars had stopped they were pleked up in a state of insensibility, and very badly bruised. It is thought that Miss Anderson will not recover, Had the train abead of the extra carried a flag, as they should have done, the accident would not have occurred.

Hon. Frank Biair has been nominated U S. Senator by the Democratic legislative caucus of Missouri., The nomination was maile of Friday last.

To-day the weather is cold and disagree

Beth of the pipe lines used for running to \$2,537,203.

oil from the wells on the McCray farm to the Egbert farm switch, O. C. & A. R. R., were swept away by the flood some time fire.

yesterday. The loss was not discovered until this morning after the workmen had commenced running the oil as usual. About eighty barrels ran into the Creek and was lost. The damage to the pipe line will be repaired as soon as the water lowers.

Our townsmen, Messes. Phinney, Woods, McCray and Adams, are among the number lavited by Mr. Henry Harley, on the grand excursion to New York. The party will leave Titusville to-morrow, going in one of the Erie Railway Palace Drawing Room cars. We understand some 18 or 20 oil men have accepted Mr. Harley's invitation .--Undoubtedly they will have a pleasant Sime.

We learn that Mr. Bateman Goe, of Pittsburgh, one of the heavy short sellers of oil has failed. He had sold largely buyer's option for the next three and six months at from \$3,65 to \$3,75, and the rapid advance in oil forced him to suspend .-Several parties in this place held his contracts for considerable oil, in all probably 1901000 Largelle.
