NEW WELL AT ALLEMAGOZELUM CITY.

A new well located on the Metropolitan tract, near Allemagozelum City, commenced testing on Friday last, pumping oil at the rate of 30 barrels per day. The well is now yielding 20 barrels daily, which is about the figure it may be set down as producing. It is 568 feet deep; had 29 feet of hard or oil bearing sand-rock, and has a powerful volume of gas. Is owned by Mr. John Wallace, of Rynd Farm, a well known oil operator, and every way deserving of the good luck he has met with.

The striking of this well, and the recent reduction in the royalty by the Metropolitan Oil Co., which was accomplished through the exertions of Mr. David W. Kenney, the Superintendent, is stimulating developments to a great extent in that vicinity, and leases are in active demand. Two new derricks are in process of erection and others are talked of. Present appearances indicate lively times on that portion of Oberlytree Run another season.

An inebriated female was placed in the lock-up on Saturday night for disorderly conduct. For a time she made night hideous with her yells to be let alone.

PERSONAL.—O. H. Jackson, Esq., editor of the Ross-ville Bulletin, was in town Saturday. Represents that sheet as in a flourishing condition.

Mr. F. D. Bishop, of Oil City, the popular ticket agent of the Pittsburg Valley Railroad, paid us a call this forenoon.

In the wrestling match at Titusville, Saturday evening, between McLaughlin and Derrance, for the championship, the former was declared the victor.

During 1870, 1,691,240 lbs of petroleum were received in this county; an increase over the previous year, of 513,944 lbs.

The Titusville correspondent of the Pittsburgh Commercial, writing to that paper under date of February 1st, says:

Business affairs in this locality have been gradually assuming a more cheerful aspect during the past three weeks, relative to the upward tendency of the oil market, which is an incitement to renewed exertion on the part of operators in the way of miscellaneous developments of wild cat territory, and further prosecution of small wells hitherto abandoned on account of their owners falling to realize the usual dividends. A few of our most extensive buyers, in view of the decreasing production throughout the oil regions, and the immense oil traffic now carried on in all the large cities, have been storing large amounts of oil at Tidoute and Oil City, anticipating an advance. Their prophecies in this have been partially fulfilled, and since the news of the downfall of Paris and the probable return of peace between France and Prussia flashed over the wires, the oil business has advanced another step in the light of progression.—Heavy dealers contend that the foreign shipments have been comparatively small during the last six months, resulting from the unsettled state of affairs pending between those nations, and that their supply being nearly or quite exhausted, it will require a large amount of oil to supply this deficiency and as the foreign demand increases, the relative value must be enhanced in corresponding ratio here. So at the present time both producers and shippers look forward to a lively time during the coming summer.

The production of the Battle City territory is estimated at 1,800 barrels per day. The shipments from this station for January exceed the December shipments a trifle. There was a new well struck last week on the Fagnadas farm, which is pumping one hundred barrels per day. The well which is going down near the station struck a heavy vein of gas yesterday, and the owners confidently expect at least a ten barrel well. We heard from a pretty reliable source to-day that the well between Hickory and Nellsburg is still on the increase, and if it holds out extensive operations will be commenced at once. The pipe line between Battle City and Titusville thus far has proved a first-class fizzle, hardly run oil enough at present to pay for operating it, most of the oil being shipped from here and Tidoute.

We would call the attention of our readers to our financial column on the first page of the paper. While there is no sounder or more reliable banking house in Western Pennsylvania than our own home institution, Geo. H. Bissett & Co., and of course has the preference among our citizens, which is as it should be, still the Titusville bank's present favorable claims to business men, some of them paying six per cent interest on deposits. The Citizen's Bank presents a new feature in a safe deposit department for the safe keeping of valuables, plate, &c. This feature in banking has never before been introduced into the oil regions and will be of great benefit to parties desiring a safe place for depositing their valuables.

Now that the demand for Gas Pumps is active, we take pleasure in recommending the Foster Rotary Pump, for which Mr. H. Freeman is agent in this vicinity, as being one of the best in use. As an evidence of this fact Mr. Freeman has already disposed of this fact Mr. Freeman has already disposed of two or three hundred of them, and has orders ahead for as many more. Oil operators will find it to their advantage to give Freeman a call and examine the Foster Rotary Gas Pump.

In the matter of the clothes stealing case mentioned of which we made Saturday, Mr. Bailey withdrew the suit on Levitt paying damages and the costs. In this connection we are requested by Levitt to state that he has been at work all the time he has been in the place; did not run away from home, and no intention of stealing the bedding but intended to pay Mr. Bailey for the use of them. We give him the benefit of the doubt.

The "Battle of Gettysburg; or, The Festival of Roses," for the benefit of the widows and orphans of deceased soldiers, at Zobel's Opera House, this evening.

One, two, on oyster stew,
Three, four, you will call for more,
Five, six, goodness unmixed,
Seven, eight, never too late
To get an oyster stew at Lew Voucher's for 50 cents.

A New York dispatch says: Fifty-six volumes reported to have been lost during the month of January. The properties lost and missing is estimated at \$3,198,000.

"Cherpening" is a newly coined word, meaning scolding the Government as to its increasing peevishness, much used in Washington at present.

BILL ASP ON LIFE INSURANCE.

"Bill Arp," the famous Georgia humorist, has been "interviewed" by several life insurance agents, and favors the public, in his own inimitable style, with his experience:

A friend (I suppose he was a friend) found me and said he wanted to see me particularly. He took me away back and hauled out some little thumb papers full of figures and said he wanted me to insure my life. That scared me worse than anything, for it looked like I was in danger, and he had just found it out. Iaxed him if he thought there would be a fight. He explained things to me, and I felt relieved, and declined to insure for the present. You see I felt mighty well, and couldn't see the necessity. At the next corner I met another friend, who seemed glad to see me exceedingly. He held my hand in his several moments. He axed me if my life was insured. He said he was agent for the very best company in the world. I axed him how long a man would live under his company. He then explained to me that a man might die at any time; that they didn't undertake to keep a man from dying.—So I declined, but expressed my gratitude for his interest in my welfare, and promised to buy a policy as soon as I got right sick. Just as I left him I heard him call some feller a darned phool. When I got to the hotel there was a feller waitin' for me on the same business. He talked to me for an hour about the uncertainty of life and the certainty of death. I thought, perhaps, he was a missionary. He seemed much concerned about my wife and children, and once or twice wiped his eyes with a white-pocket handkerchief. I knowed he was a friend, and told him I would reflect seriously about the matter.

I believe that company is a purely philanthropic institution, and would lend a poor feller a few dollars if he was suffering. I think I will try to borrow a little from their agent to-morrow. This morning the first one come to see me axed and I concluded I was mighty bad, and axed him to excuse me as I was not feelin' well. I went to Dr. Alexander and got a dose of salts. He axed me if I was sick, I told him I supposed I was and the reason why. He then told me all about it and said there was about 100 of them fellers in town, and bored about half an inch at the first interview and an inch at the second in the same hole, and so on until they got to the hollow, and the patient give in and took a policy. I don't know about that, but I will say they are the friendliest, most sympathizen and kind-hearted men I ever struck; only I don't like so much talk about offins and graveyards. I didn't take the salts.

The name of the Lawrenceburg post office, Armstrong county, has been changed to Parker's Landing, and Miss Tillie Olden retained as Post mistress.

Discontinued—Office at Personville, this county. Papers should go to Shrewsbury.

We all remember the story of Mary's lit. the lamb. It has assumed many forms, but we have never before read the Germanic version of it. It is thrilling, interesting, and life like:

Mary's cot von leetle scheepe,
His vleeces was white as whool,
And every black vneer Mary's bin,
Dat leetle scheepe has been come too.

A man named Henry Whitford, has been arrested at Erie by a detective, charged with the Wincer murder at Titusville. The chain of circumstantial evidence is said to be very strong against him. His coat and pants were spotted, with what is supposed to be blood.

Plate glass (in) using stones for printers and beds for billiard tables have been patented by a Minnesotan.

The Young Men's Christian Association, at Tidoute, have issued a call for a convention, to be held in that town on February 15 and 16. The call is addressed particularly to all associations west of the Alleghenias.

Irvinston people are jubilant over a rumor that the Oil Creek Railroad Co. will have control of the Dunkirk & Warren Railroad, and locate the machine shops at Irvinston. So says a correspondent of the Warren Ledger.

The lumber business of Williamsport, Pa. amounted for the year 1870, to 250,764,078 feet, sent to market.

Having added to my large stock, I am now ready to supply Scotch Whisky, Jameson's, and all other imported goods at New York prices.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The oil at mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. }
Columbia Farm, Jan. 28. }
Mr. H. K. KENYON:
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.
Respectfully yours,
G. W. BOULTON, Sup't.
J. P. BARCROFT, Manager
