NEW WELL ON THE WILSON FARM .-A new well on this farm, owned by Messrs Burt and Conkle of this place, was completed on Wednerday and commenced test-ing last evening. Commenced pumping oil at 11 p. m., and to-day we are latermed by Mr. Hart is yielding at the rate of 15 barrela per day. The well is 982 feet deep; had 20 feet of third sand rock, and a strong volume of gas. The well is located on the Plumer road, about three-quarters of a mile from the McGray farm, in a south-easterly direction The Wilson farm comprises about 300 cer s, and is owned by Egbert, Brown and Bronson. Considerable impor- His victim then was a young girl, when siderable new territory.

OIL WAR .- An article in the Omaha Herald gives an account of olis tested on the Union Pacific Boilroad, in which it is stated that "each car was lubricated by a different oil and run until a box became hot. Galena oil, manufactureed in Frank lin, Pa., proved the best of all dark oils. Gallery at Oil City. He also intends givrunning 750 miles without heat. A new oil from Cieveland was reported to run even ville before long. The Captaro's gallery in further than this, but costing over twice this place has been a complete success that of Galena. The Galena Oil Works Some excellent shooting has been done that now opens the war by a challenge to the would do credit to professionals. Claveland oil, claiming to run more miles, do better work and remain on bearings longer than any oil they can produce. suppose railroad men wil - watch with in-

Hou. J. D. McJunkin, Member of Assem-

The Tituse is Herald's monthly petroleum report for January was published this burs edde (II, I) which strange cup it had muratag. The average daily production is been planted. That was, indeed, peace placed at 15 477 barrels, 787 harrels per day growing out of war. more than the Carrier reported.

. Relative beauty-A pretty courts.

Speaking of the cil developments the Franklin Citizen saye:

The coming spring will witness more ex-"wild cat" territory, than any preceding year siece the discovery of oil Large tracts of land have been leased in Cran. berry, Placerove and Rockland townopening of spring to commence develop-

The striking of a good paying well on the Milton Parm, nearly opposite Reno, in Cranberry township, has bul the effect to convince operators that the "Reno belt" extends from that point to Foster, and the territory on this line is being taken up rapfely.

It is pretty certain that developments will be made in Rockland toweship on the line between the Angel & Prentice wells and the gas wells in Pinegrove town-

We are informed that several wells will be put down in Sandycreek township, west of Foster, and a large amount of territory has been leased in that section. Altogether the prospects of a busy season for oil operators are flattering.

The producers' report for January is out and shows a production of 18,497 barrels per day, a decrease of 1.681 barrels for the The stock in iron tanks February was 446,429 barrels, and at the wells 122.284 barrels, making a total stock of 568.718 barrels, or a decrease in stocks of 28,490 barrels over those on hand December 1. The number of wells drilling is reported

The appaliting ratified disaster at New Hamburg reems to have been a pure, up forseen and unaccountable accident. was not in the ordinary souse a collision; as the trains were approaching each other on parallel tracks. It was not amisplaced switch, a broken rail, or a rotten bridge that induced it. The report says the express train could not be signatled or war ned in time to stop, and also the axle which broke on the oil train had been fully tested and examined at the test station. It was a Casualty that could hardly be belowd in oldery-nine cases to a bucdred. Perhaps. however, the Coroner's Inquest may contradict these first statements, and put the matter in a new light.

THEATRE -The nantical drama of Black Eyed Susan has never been rendered in herter style in this place than it was last evening by Miss Katie Estelle and her tal nied company. Miss Katis as Witham acted out the character of a july rollicking sailor boy to perfection Besides being a lady of rare accomplishmen s, Miss Este le is a cherming and talented actress. Miss Maggie Estelle as Black Eyed Susan; Mr. Crane as Gnathrain; Mr. Duncan as Doggrass, and in fact all sustained their characters in good style. The afterpiece of "Lady and Devil" was well rendered. Miss Katle in the ending character appeared to as good advantage as in the first play, acting one character fully as well as the other.

This evening will be produced the sensational drams of East Lynne, Miss Katte appearing as Lady I abel and Madame Vine and Mass Maggie as Corney. Misses Viola and Malin an entirely new dance. Comclude with the roaring farce of the Frisky Cobbler, Give them a full house, Tomorrow evening benefit of Miss Katie Estelle and last appearance of the company,

O S Osgoul, allor So by, was arrested in Warrin, Ohio, last week by Sheriff Berget, on a regulation from the Governor, tensive off developments in what is called for a coling a noise near Maditaness I e, sometime previously, and ledged in our juli on last Sameday. The prisoner is the con who attempted to commit an outrage en a woman at McClintockvile, but was ships, and operators are only awaiting the | prevented by the screams of his victim. In als flight he took time to enter the McContock House, where he was employed, by means of a ladder and take from a room of one of the boarders some clothing and money and stole the torse from a neighboring stable to ride off fon. He was ar, costed on a warrant for stealing the horse. no charges having been made against him for the other off-nees .- Venango Specia-

Professor J. W. Powell, the explorer of the canyons of the Colorad , has recently been lecuring in Caseago on the "Ancient Cities of Arizona." He gives a singular account of the remains of these ancient habitations of a civilized race, which dwell in them long before the discovery of the continent. He says the Spaniards, during their invasion, destroyed sixty or seventy of these cities, but that seven of them still exist in the hitherto unexplored regions of Arizona. The dwellers in these cities totain their early religion and customs. The bouses are built bigh upon ciffs, and are of peculiar construction.

William Cuss is the name as well as the nature of a juvenile vagrant captured by the St. Louis police on Tuesday. Some of the older members of the family are still at large in that city.

The congregation and friends of Rev. P. P. Pinney, of Fagundas City, tendered him donation party, on Toursday evening at Bucklin Hall, on which occusion a purwas presented to the esteemed pastor, containing \$250 and mowards.

Naptha is an excellent thing for cleaning kid gloves.

A story is told about a young man of Pittsburgh, who proposed in a Sunday school "a committee of young ladies and gentleman be appointed to raise children for the Sabbath school."

A man named Mc Cimany, was burt by the cars while trying to get abourd the J & F Passenger train on Tuesday, at Repo. He was caught between the platforms, and badly crushed, but will recover.

Turfmen are excited over a match nade with Leonard W. Jerome by John Hunter. who wagers that he will produce a horse that can run one mile, carrying his proper weight for age, in one minute and forty-onseconds, over the Satatoga Course, at the arst Summer meeting. The best time himecto made for an even mile was made by Judge Cartis, at the July meeting at Serie toga last year, carrying full weight, in

Kenyou's New Double Acting on Pump for Pumping Oil or Water in Ocep Wells.

Kenyon's New Double; Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only products a continuous flow of sustains a constant and powerful suction, by means of which the sesons or volus of the well are to a great measure cleared of para fine and other obstruct cur, and the oil in the veins is drawn towards the well. It the vents is drawn towards the well. It has been ascertained by so not test that the use of this pump causes a gradually increasing flow of ot. It is well known by oll operatore that this improvement is of great value, and one that has been long sought for. The abl st mechanics of our country have for years been at work trying to find out some new and untried plan to protong the life time of an oil well; and nothing yet to our knowledge has been brought before the pord off at in any way equals the power of the Kenyon Pump, experience having tain ht that it is the one continued suc-tion that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo Boulton, operintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following test montal from the managers of the Columbia Farm:

Office Columbia Off. Co. Committe Farm, Jan. 28.

Mr. H. K. KENYON:
Dury Sr: -We are using your Double Acting till Pange in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them then was previously detained by the use of working barrels. We believe your oil pump to be the best in use.

Hespecifully yours,

G W. ROULTON, Sup't.
