Gold at 1 p. m., 111 1/2

The oil producers of West Hickory and vicinity have formed an association for the purpose of protection of its members from exorbitant rates and charges for the transportation of oil on the part of pipe lines, monopolies and combinations, and to bring about such unity and concert of action on the part of the whole community of producers as shall enable them to counteract and successfully oppose any combination which may design to enrich itself at the expense and to the detriment and damage of oil producers generally.

A dispatch dated Paris, Feb. 14, says: Everything has been arranged at Bordeaux by the committee to negotiate a treaty of peace, and the work of the treaty has been approved by Bismarck and Moltke. The treaty will be signed immediately, and the German troops will then march through Paris to Strasburg station, and there take trains for home. Trains will follow each other as rapidly as possible. The Assembly will then adjourn to Paris, and proceed with the reorganization of France.

The Fagundes Farm Oil Company, West Hickory, are making arrangements to put down fifteen new wells on their farm, as soon as the weather permits.

Quite a number of wells are going down on the Clapp farm, near Tidoute.

A pleasant social party was held at the Plumer House, in Plumer, last evening. A number of our citizens were present, and report having had a splendid time.

Where was ye local of the Titusville Courier on last Saturday night? A washerwoman in this place had her clothes striped of a quantity of ladies' apparel on that occasion.—Rogersville Bulletin.

Answers where?
The Wallace Sisters are booked for Oil City for three nights, commencing Monday, March 29th. They appear here soon.

PETROLEUM AND COMMERCE.—In spite of all the losses in petroleum, there are some statistics of the trade that are well worth noting. It represents a most important interest, and has added largely to the national wealth. Eleven years ago petroleum was unknown as an article of utility. Now the total capital invested in it, at home and abroad, is \$100,000,000 of which the American capital is \$70,000,000. The Mercantile Journal, to which we are indebted for these figures, says that the yield of petroleum in December was 16,431 barrels, (983 barrels a day less than in November.) The export of last year to Europe, in spite of the war that involved eighty millions of people, 140,000,000 gallons of refined oil, exclusive of Naptha and crude oils. The centres of the refining business are New York, Pittsburgh and Cleveland. The export trade naturally tends to New York, because some ninety per cent. of the capital employed in the foreign trade is located there, and because freights are half a cent a gallon cheaper from New York than from Philadelphia. Warehouse and dock charges are also less there. The latter fact accounts for the general tendency of the foreign trade to New York city. The business is done at less cost there, and so long as commerce finds this to be true, it will certainly make New York its chief depot. Her harbor and quarantine laws and regulations must be generally construed, and the result is certain to be an increase in her domestic and foreign traffic.

The war in Europe or the discovery of diamonds in Africa, does not interfere in the least with the trade of A. Alden, proprietor of the Jamestown Clothing Store, who continues to sell goods cheaper than the cheapest. His stock of clothing cannot be excelled in the oil regions for quality of material of which it is composed or style of make up. He is now selling men's and boy's clothing cheaper than it has ever before been offered in Petroleum Centre. Give him a call and see if what we say isn't true.

"The Little Church Around the Corner." This is the title of a beautiful new song just published and dedicated to Joseph Jefferson Booth & Sargent, the well known music dealers of Titusville, have received it, and will mail it to any address on receipt of 25 cents.

Our townsman, Messrs. J. W. Irwin and M. S. Simmons, leave tomorrow for a trip to the sunny South intending to be absent for several weeks.

The jury in the case of Charles Boone, the unfortunate man who was killed by the cars at Roseville, day before yesterday, rendered a verdict that the deceased came to his death by accidentally falling under the cars. No blame is attached to the railroad officials or employees.

Miss Alice Carey, the poetess, died in New York city, the 13th.

A fire broke out in the Downer Oil Works at Cory, on Monday afternoon, but was extinguished through the exertions of the fire department and citizens before any material damage had been done.

The Board of Excess in Titusville have granted sixty-two licenses, thirty-two of which are hotels.

A ship left New York, Tuesday, for the Cape of Good Hope, and the Diamond fields of South Africa.

The Erie Railway has executed a consolidated mortgage for thirty millions of dollars, twenty-four millions of which is to be expended in taking up existing mortgages, and the remainder in repairs to the road.

The Causing well, in the East Sandy oil district, has recently been torpedoed and is now flowing about 12 barrels per day.

The Titusville Herald's annual petroleum report appeared this morning. It contains a vast amount of statistical and other valuable information relating to the petroleum trade. All interested in the oil business should secure a copy of this report as it is valuable for reference.

The celebration in honor of the opening of the Union & Titusville R. R., comes off at Union to-day.

Cold nights have put a stop to gate sparking. If she don't ask you to come in now, you had better quit.

"Can you steer the maelstrom down the forest stairs?" asked a new captain of a new recruit. "Yes, sir, I can, if you stand below and doll it up."

An eastern paper, in a fit of revolutionary enthusiasm, says: "Hurrah for the girls of '64!" "Thunder cried a New Jersey paper, "That's too damned old! No, no! Hurrah for the girls of '17."

The Valentine trade was not lively yesterday, and many of the fair sex were disappointed at the non-receipt of valentines.

C. H. Jack, of Rockland, Venango County, has been working about oil wells for eight years, and during that time has had his skull fractured by a piece of pipe falling from a derrick; had his arm caught in the "ball wheel" and his body whirled around several times before the machinery was stopped, was accidentally shot through the abdomen; and had all the fingers on one hand smashed in the machinery, besides numerous minor accidents and mishaps.—He is only twenty-four, but looks like a veteran prize fighter.

Superintendent J. M. Fouzey, of the Hudson River Railroad, is out with a card in regard to the newspaper charges that he neglected to have the missing at New Hamburg properly sought and cared for. He says that before daylight on Tuesday he learned how many sleeping car passengers were missing, and at once placed with a Poughkeepsie undertaker all the men needed to recover the bodies. The railway men were kept at this work until five p. m., and work was not begun upon the bridge until it was certain that every body missing from the car had been recovered.

NEW WELLS.—A seventy-five barrel well was struck yesterday on the Wilkins tract, at Fagundes. Another well in the same locality, estimated at between thirty and forty barrels, was struck on Monday. The latter is owned by Angus McPherson. A report was in circulation last evening that a well at East Sandy, which had been torpedoed, was flowing several hundred barrels. We do not vouch for its correctness.—Herald.

George B. Brand, Esq., of Rochester, N. Y., died on Sunday last. Mr. B was for some time engaged in speculation at Pithole, and other points in the oil region.

The Holland Testimonial amounts to over \$15,000 being an average of \$10 from each player and employee giving benefits. How great the gift really is appears from the fact that the average pay per week of the theatrical profession and the employees of theatres in New York is probably not more than \$10. In this we include all, from the best paid actors, down through all the grades of performers on the stage, behind the scenes, ushers, the ballet, the boys, &c. Many of these are engaged, when not in the theatre, in other avocations. They are hard worked, and an over-worked class.

There is a farmer in Bristol, Connecticut who deserves commendation in the penitentiary more than some men that are there.—His cart loaded with wood caught on a railroad crossing in such a manner that his oxen couldn't start it. He unshipped his cattle, remembering that a train was due, and calmly awaited results. The cars came on at full speed, the farmer doing nothing to stop them, and the engineer, in sliding snow, failing to see the obstruction till too late. Its speed probably saved the train, for it swept the obstruction from the track with a crash scattering the wood like straw. It was almost miraculous that the man's stupidity did not result in the loss of many lives.

A Pittsburgh paper of recent date contains this advertisement:

"Three young ladies of Allegheny wish to engage three young gentlemen to take them to the lecture this winter. Car fare and drinks included, and refreshments at the homes of the ladies afterward."

A sixteen year old girl near Pittsburgh, last week, kicked her father through the house, across the yard, and locked him in the cow stable, because he went to town and spent all his money for whisky instead of buying her a new bonnet as he promised.

The notorious woman stabber of Williamsburg, N. Y., was captured on the 6th inst., while attempting to grab a detective who was disguised as a woman. He refused to give his name, and all he would state was that he was determined to have his revenge upon the sex for the shameful manner in which he had been treated by a girl who had promised to marry him. He is supposed to have been deranged.

Wahoo Bitters man was in town yesterday, setting forth the merits of that article.

We have a full assortment of Skates.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The most mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO.
Columbia Farm, Jan. 28.
Mr. H. K. KENYON:

Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.
Respectfully yours,
G. W. BOULTON, Sup't.
J. P. BARCROFT, Manager
For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 547.
Jan 31.

GOOD ADVICE.

Ask no woman her age. Never joke with a widow. Never contradict a man that stutters. Be civil to all rich nobles and aunts. Wear your oldest hat of course to an evening party. Always sit next to the carrier at dinner. Keep your own secrets. Tell no human being you dye your whiskers. Wind up your conduct like a watch once every day, examine minutely whether you are "fast" or "slow." Make friends with the steward on board a steamer, there's no knowing how soon you may be in his power. Write not one more letter than you can help; the man who keeps up a large correspondence is a martyr, tied, cut to the stake, but to the post. But the best advice we can give to the reader is, that he should buy his clothing at the store of A. Alden, Washington Street, Petroleum Centre, Pa. The stock of ready made clothing at this house is the largest and cheapest in the city. He has also a large assortment of cloths, cassimeres, etc., and is prepared to make up suits in the neatest manner imaginable. He has also a full line of gentlemen's furnishing goods. This is one of the best and cheapest stores in the city.

Gaffney has a large lot of scotch ale and London porter especially or family use, by the bottle or case.

BIRDS.—The best Singing and cheapest Canary Birds in the oil regions are to be had at
