The eil that caused the fearful loss of life at the late New Hamburg dieaster was principally crude, and had heen, shipped from the upper creek a day or two previous to the accident for New York. Mesers. Lombard & Ayres were part owners of the amount burned, though in their case it was

MUSH AND MILK-In abundance, will be fur nissed at the Festival to be given at the Central House, for the benefit of the M. E. Church, of this place, on Friday evening elext. Come out and have a good old-fash ioned time. Give what you please, to J. C. Scott, Treasurer, who will be in attend-

CORRY SCHOOL COMPOSITION .- On a recent declamation day in a Corry select school, a promising young idea shot off the subjoined:

Our yaller hen has broken her leg, O, never more she'll lay an egg,
The brindle cow has gone plumb dry,
And sister Sal has eat the pic.
This airth is full of sin and sorrow:
We're born to-day and die to-morrow.

Wonder it the editor of the Corry Blade didn't have a hand in getting up the above? Bet a cheese be did.

The same old discovery of petroleum has been made, this time to Bucks County.

A special meeting of the Toung Men's beld at the Presbyterian Church, at 714 0'clock this evening. A full attendance is earnestly requested. By order.

Rev. C. M. Heard, formerly of this place. but now stationed at Ridgeway, Eik county was the recipient of a donation of \$150, at that place, on Friday evening

PERSOLUTE IN THE PRODUCTION OF STRAM. - The Chicago Post of the 15th hos the fellowing interesting article. Saturday afterstoon, at the machine shops of the Illi nois Central Railroad, a large number of our solid and scinatific citizens witnessed the workings of a patent by which petroleum, is used as mel for producing steam. Petroleum for steam production has been already successfully adopted in the East, and the advent of its use for the same pur pose in the West must mark a very deciked era in mechanics. The advantages claimed for it over cont are.

1. Much greater power from the same boiler capacity. Mr. Holton, the master o the Il ijuois Central shops, stated on Saturday afternoon that he could obtain more steam from one boiler with petroleum for fuel than from two boilers fed by

machinery for the consumption of petro- the Conof coal.

3. Greater evenness in running, clean liness in the surroundings of the machine. ry, and in the personal habits of the employees.

4. Petroleum as feel is a saving of fifty per cent, over the expense of coal,

The application of the principle, with Whipple & Dickinson's machine, to the locomotives of the road, is under consideration, and the difficulty will be merely of nechanical detait. Fire-boxes, cinders, and smoke will disappear, and neatness with in the cars will be accompanied by less expense and cheaper fare, let us hope, with-

THE APPY CONCERT .-- On the 2d day of March the Appy Concert are to give one grand concert at Sobel's Opera House, and a rich musical treat is in store for our people. The troupe is composed of artists of the very highest order of talent, and their entertainments have been universally well seceived! The selection of pieces for the occasion comprises some of the choicest operatic and other music. The following is from the Buffalo Commercial:

Most of our music loving readers will recognize in the name of Heart Appy, one of the few masters of that wonderful instrument, the violin. Mr. Appy's whole life as a violin player has been a constant success. At the age of 18 he had the highest bonor of his country conferred upon him, viz: that of "solo violinist to the King of Holland," and he now possesses a reputation both in Europe and in this country of which be may well be proud. It will be remembered by many that Mr. Appy was the solo violinist with Jenny Lind when she gave her farewell concert in this country.

To-morrow evening the last of the series of social hops will be held at the Oil Exchange Hotel. We have frequently had occasion to mention these social parties as being the best of the season. Mine bost Johnson not only knows how to keep a hotel, but understands the best methods of entertaining his guests as these parties bear evidence to. We predict a large, attendance to-morrow evening of the clite and fashion of the place, and feel safe in saying that an old fashioned social time will be bad.

A fire on the Smith farm, on Friday, destroyed the house of a Mrs. Smith, and came near burning up her three small children. Fire is supposed to have originated from children playing at the stove. The office of Cornen & Beers was saved with the atmost difficulty.

A dispatch from Pougokeepsie, dated Feb. 19, says: E. R. Lowe, the New York diver, made a descent at the wreck this fore the bobies of Doc. Simmons, engineer of the express train, and the etranger engineer, who was on the engine with bim. From papers and letters found upon the person of the latter his name is ascertained to be James Humphrie, of Carmansville, Pa. The lower part of nis body was badly mutilated. The body of Doc. Simmons did not appear to be much burt. There was a cut under his right ear and in the side, and one on his chin, neither of them visible when taken from the water, but discovered when the body was washed. The remains were both neatly coffined this afternoon, when the under taker's room was thrown epen to the public, and throngs of men and women and children Christian Association of this place, will be en to Naw York in the morning. This makes twenty-two bodies in all that have been recovered, and it is thought there is no more. To-morrow the diver will make another descent to bring up, if possible, the sunken baggage and express matter.

Pleasantville is looking up. A fifteen barrel well was recently struck on the Arm strong farm.

The Legislature adjourned on Friday last for nine days, in observance of the 22d of February, Washington's birthday

LENT -The season of Lent commences on Ash Wednesday, February 22d, and is the first of the forty days of fasting observed by the Episcopal and Roman Catbolic churches before Easter, in commemoration of our Saviour's fasting in the Wilderness. The name comes from the Saxon leng. (spring,) from the time of the year in which it is observed. The observance is of great antiquity, for from the early ages of Christianity it has been usual to set aside frome time for special exercises just before Easter. At first it extended only to forty bours, then to thirty-six days; and in the 9th century four days were added. One authority eave Lent was instituted about the year 130 in refer.

by Act of Parliament. The earliest day on which Shrove Tuesdayi,can fall in any year a February 3, and the latest Merch. 9tb. It occurs this year on the 21st inst.

A "WHALER."-Professor Guaning delivered a lecture the other day in Hammond Hall, Philadelphia, in which he advanced a new theory to reference to the origin of petroleum. His idea appears to be, that the myriad of whates which are now defunct must have had blubber ucless the sunbeams acting upon it at the bottom of the sea did not convert it into petroleum? In reply to his most extraordinary theory, we would suggest, that the only blubber whale who has anything to do with petroleum is most likely above ground, and when acted on by the moonbeams, it spouts in Harmonial Hall Philadelphia.—H-zald.

The new well on the Baker farm adjoin ingithe Henderson farm near Tidioute, now producing 120 barrels a day.

The daily production of the West Hickory district is 1.613 barrels per day, and of Tidioute 860 barrels.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double, Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that sustains a constant and powerful suction, by means of which the seems or veins of the was instituted about the year 130 in referbered to the miraculous fasts of Moses and Elijah, and that of the Saviour, aiready mentioned. Ashes were placed on the heads of penisonts. Firsh was forbidden and at times the interdiction extended to eggs, milk and wine. After the Litany the Communion service is this day said in church.

Ash Wednesday is preceded by Shrove Tuessay. In Roman Catholic countries it was once campulsory upon the people to confess their sins, and be shriven, by the priest on this day. A harbarous custom was prevalent at one period—that, of throwing sticks or stones at cocks; and cock-fighting was common in England until prohibited by Act of Parliament. The earliest day on Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE CÔLUMBIA OTL CO.
Columbia Farm, Jan. 28.

Mr. H. K. KENYON:

Dear Sir:-We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in atating that we are getting more oil and gas from each of them than was previously obtained by the use of

working barrels. We best to use.

To be the best in use.

Respectfully yours.

GOOD ABYIUE.

Ask no woman her age. Never joke with a widow. Never contradict a man that stutters. Be 'civil to all rich ancles and aunts. Wear your oldest hat of course to an evening party. Always sit next to the carreer at dinner. Keep your own secrets. Tell no human being you dye your whiskers. Wind up your conduct like a watch once every day, examine minutely whether you are "fast" or "slow." Make friends with the steward on board a steamer, there's no knowing how soon you may be in his power. Write not one more letter than you can help; the man who keeps up a large correspondence is a marter, tied, not to the stake, but to the post. But the best do the stake, but to the post. But the best advise we can give to the reader is, that he should buy he clothing at the store of A. Alden. Washington Street, Fetroleum Centre, Pa. The stock of ready made clothing at this house is the largest and cheapest in the city. He has also a large assortment of cloths, cassineres, etc., and la prepared to make up suits in the nestest manner imaginable. He has also a full line of gentlemen's thurnishing goods. This is one of the best and cheapest stores in the city. aginable He has also a full line of gen-tiemen's tfurnishing goods. This is one of the best and cheapest stores in the city.
