Plumer is at present excited over & rare natural carionity, a calf horing been born in that place about two weeks ago, which has but one natural eye, the other one havin; something the appearance of a sack grown ever it. It has but one natural nortell, the other one being inside the mouth near the upper jaw. The mouth of the anim a is twisted around sideways. There is also a proluberance having the appearance of a single here growing out from the top of the head. Altogether it is a singular matformation. The ewners are A. K. Maxwell and R. Dygert of Plumer. They have leashave the animal on exhibition on Thurs

New Salpon -- Mr. Clint. Rabson, the well known proprietor of the Cozy Billiard Partor, has removed three of his billiard that will lead to its recovery tables, put up a partition, and opened a saioon and restaurant in the front part. He proposes to keep constantly on hand the purest of ales and wines, and the choicest of antivo and Havana cigars, &c. The room has been fitted up in elegant style and to one of the cosinat calcons in towo. That A. I mixelogist, George Arnold, presides ever the bar. Drop in and see "Clint." and "George," in the new saloon.

A besotted individual was picked up near the railroad depot, last evening, in an aluset fruzea condition. He was tired and and imagined some one had "put him in Lie

Several new advertisements, owong which we may mention Nicholeco & Blackmon's, social re-union of the Odd Fellows at T'. McDonald's and F. W. Ames', are unsvoldably created out to-day. They will 22d.

Perre Haut claims more banks than any interpolity of Its wize. One is a national pictor of being connected with the Wisner and a marker thirteen or re are of the fare murder. The man has been taken to Titussent kene nathrines.

PERSOLETE IN PARIS -Paris during the ! pany, but "instead of gas, lamps barning of Hanover, is thantauqua County, N. Y ... petroleum were pisced inside the lanterns of to the Dunairk Journal, says: on of every first long mod. About 5,000 been hearing recently, in fict, for some mall particles temps were employed, and weeks, we have heard of it, and being anxia xicen thousand kilogrames, or 15 7 jons. The city allowed one cout an hour for the service, and as the lamps were kept light for fifteen hours out of the twenty four, the the ravine, and thought he discovered suffi Intal cost of lighting Paris was \$2.250 a cient evidence to indicate oil. He put a day. The oil used was used was the same match to the spot, which immediately igni-that the city had soized at the commence- et, and barned with a steady blaze. Hment of the siege, in order to fill the dirches blew it out, and the next thing done by READY-MADE CLOTHING Survey 19, it was stated that 3,000 tons of after this his brother, being on a visit in that date 7,000 tons were still on hand. The ships and restaurants of Paris were also Tols gentleman is a practical sitman; and filled with the odor of borseflesh and petro-

> A GROUNDLESS FRAR - be Oil City Register gets off the following good thing on

We learn that some of our Franklin neighbors bject to the consolidation of our City and Venango City. When our neighbors esertain the boundaries as adopted by the councils, they will cease to be alarmed. -Our people have no desire to include Frank lin wit -in the limits of the proposed city. The county seat, with its demoralizing influences is not considered by the citizens of our two towns as a desirable acquisition -We propose to consolidate under a city charter, did not consider it essential to consuit the Franklin folks, and reasonably supposs that a majority of her citizens will not consider themselves especially interest-

Subscription papers are in circulation to raise sufficient money to erect a suitable monument over the grave of Col. John W. McLane, the gallant Colonel of the 831 Pa. Vols , who was killed in the battle of Gaines

No doubt there are many soldiers of the gallant old 831 in the oil regions who would willingly subscribe in aid of so laudable an object as the above.

Mr. Richard Linn, of Rouseville, has recently became associated with Mr. J. H. Bowman, in editing and publishing the Petroleum Monthly. The Bulletin says Mr. L. is an experienced journalist and withal a sound thinker and versatile writer, and will add materirly to the attractions of that already popular Monthly.

Tals evening the Juvenile Dramatic Association of the Catholic institute of this place, give an exhibition in the new school house, near the Catholic church. A good bill has been selected and the little ones have been thoroughty trained in their several parts, consequently a good entertainment may be expected. The parents and friends of the little ones should turn out and give their a crowded house

The Petroloum Monitty for February is ont and our mases any previous numbers of that excellent magazine yet issued. It con tains a splendid picture of Geo. M. Mowbray, the inventor of nitro-glycerine, and who has been closely identified with the oil interests of this region to years, and a sketch of his life. There are several valua ble articles to relation to the oil business in it. We commend it to all who desire to obtain correct information in regard to the great oli regions of Pennsylvania. Published at Oil City. Terms-\$3.00

ROBBERY -Some during thief early last evening exerted off from in front of M. J. en carpet, valued at \$30. The not was an and closs one, as people were passing by at the time. Mr. S offers a reward of \$10 for the recovery of the property or information

The U. S. steamer Teansesee, having on board the San Domingo commission, for the safetp of whom much concern has been felt all over the country, has arrived safe at its destination.

General Magruder, a prominent confederate General during the late rebellion, died at Galveston, on Saturday last.

The new O. C. & A. E. R. depot, at Titusville, was opened to the public for the first time yesterday.

Guilery at Oil City.

We acknowledge the receipt of an invita-Rouseville, on Wednesday evening, Feb.

Officer Armstrong, of Corry, has arrested a men named Lee, alias Marshal, on surville for examination.

PETROLEUMIN CHAUTAUQUA COUNTY, N. deac, was lighted by the regular Gas Cour. Y - A correspondent writing from the town

the dulty consumption of coat oil was about one to bey before our readers the facts in the case, we visited the scene of living fire yesterday the 12th Inst. About three months ago, Elder Mend was walking along around the ramparts in case of escult. On was to say nathing about it. A few weeks settained bed been used in Paris, and on bim, he took him for a strait around his has been accertained by actual test that the farm, and wandered, along to this place .ighted with coal oil, and every place was without any previous conversation on the subject, as he neared the spot, he exclaimed--"A smell of oil here " This was the point sought for by the Eider, and tested to confirm his ows convictions. They then lighted up as had been done before, and both were satisfied that there must be oil in the tocion. The land on which these traces of oil were found is adjoining Elder Mead's farm, situated about three miles east of Forestville. It is a ravine about 125 feet below the surface; of soft, shelving sock, extensively inhabited by worms, and emits, when dug into, the smell of petroleum. When we made the somewhat perilous descent, we found the blaze going it good and strong. It had been dighted on the 4th inst. Mr. A. H. Welch's father-iplaw had put on the flame which had been burning steadily for six days. In order to satisfy ourself, we had the lights put out. and then with a match lighted them with our own hands. In one hollow place we heard a peculiar, and to us an unusual noise as of water possing through the procose of filtration. On applying a match a light explosion with flame occurred. As a mat er of course the fisme is the product of gas We hope the matter will be taken in hand, and means adopted to thoroughly test it for oil. We have had no experiencin crud . oil, oil wells &c., &c., but trusting to those who are familiar with such seenand works, we should not be surprised if all could be found. In excavating the oder of petroleam was very perceptible. If we bear of any further developments, will advise you."

> An old lady heard about the strike of the wire drawers in Worcestet, Mass., and sold that of all new fangled things, wire drawers must be the queerest.

Several petty robberies were perpetrated at different places in town, last evening.-Our eltizens and business men should be or the siert, and endeavor to secure the arrest of the miserable saesks.

Do not forget the social party at the Off Exchange Hotel, this evening. A good time may be expected.

The lay ug of the track on the new grade of the O. C. & A. R. R. from Rouseville to Oil City, has been completed to Kersey's switch.

A traveling piano player undertook to whip an Illinois editor, and when be got through he had only one ear for music.

"Grushed by a falling tree," "killed by a circular saw," and "torn to pieces by a rapidly revolving shatt," are standard items down east-as regular as the changes of the seasons and a good deal more frequent.

Over eleven thousand tectories in the Un ted States are engaged in the manufacture of pure Havana eigars, and the supply always equals the large demand.

The lugatics who come over from England in the minute vessel City of Ragues are fitting up their craft for the crezy return trip across the Atlantic , and will start as oon as the ice is out of the rivers

Six new puddling and one new heating furnace for beating rail eads have been built in the Brady's Bond Rolling Mill .-The new three high eight inch rolls in roduced in this mill work admirably.

Turfmen are excited over a match made with Leonard W. Jecome by John Hunter. who wagers that he will produce a horse that can run one mile, carrying his proper Capi. Travis has opened a Shooting weight for age, in one minute and forty-ons-conds, over the Saratoga Course, at the Arat Summer meeting. The best time hithtion from the committee to attend the grand erto made for an even mile was made by Judge Curtis, at the July meeting at Saratoga last year, carrying full weight, in

Kenyon's New Double Acting On Pump for Pumping off or Water in Deep Wells.

Kenyon's New Double Acting Oil Presp acknowledged to be the best pump in use. One of its leading features is a sit not only produces a court Buous flow of sit or other fluid, but that it creates of enstains a constant and powerful encharawell are in a great measure cleared of para-flar and other obstruct one, and the oil in the returns dearn towards the well. It mes of this pump causes a gradually increasing flow of oit. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablist mechanics of our country have for years been at work trying to flod out some new and untried plants protocy. the life time of an oil well; and nothing we the pur knowledge has been brought before the pur letter in any way equals the power of the Kenyon Pump, experience having matchet that it is the long continued suction that has the power to keep up and in-crease the production of oil wells. Oil operators are reterred to Mr. Geo. Boulton, Supermenters of the Common Farm, for information in regard to the practical work-ings of the Kenyon Pump. We append the ings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO.

Commbia Farm, Jan. 28.

Mn. H. K. KENTON:
Dear Sir: -We are using your Double Acting (all Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of

than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,

G. W. Houlron, Sup't.

J. P. Barckort Manager
