Yesterasy a delegation of young bloods from Corry, among the number being an inel vidual who introduced himself as the ase stat editor of the Comy Daily Blade and Coursy Weekly Telegraph, arrived in town with the arowed intention, as they openly stated of "ronning the town and raising |-- | generally." It appears the gay and festive youths had tarried in Timeville the day provious and "filled their kegs with henzine," coming down here to flaish their spree. They commenced the "days doings" by drinking vast quantitles of poor whish.y, and as the spirits went down their spiris went up, only to be taken down by a ten pound bag of flour which some individual their insults in silence for some time, threw at them. At the depot, last eventur. just before the departure of the & o'cluck freight train going north, these same individuals, especially the reputed Biads man, accompanied by several prostitates, outraged all menner of decency by tantr valgar, low-lived, blackguard language and actions. After getting into the cabous they received the contents of a ten yound bag of flour on their miserable curesteen as a parting salutation. We are credibly informed that the Blade man is a thood Templar and "high morality man" at he ne. The names of the parties are known to us but out of respect to their relatives and frieads to Corry, we refrain from giving them publicity. The next time they come : Advoluta Gentre, instead of raising the Bell One themselves, they will get "calsed" into the lookup. If they are wise they will I resider confine themselves to Corry "blue rule" and stay at home to drick it.

Wallearn it is the Intention of Me. James bes, Je, and staff, Mr. Benry Harley, and giter mominent New Yorkers, to visit the of regions refere long. They will be tenjustice to the distinguished visitors.

ROW AT ARMSTROND RON .- On Friday evening 10th inst., three rowdles from Petroleum Centre, by the names of Klach. Jack Winters and Mike Dugan, met Isalah Nobles, generally known by the sonbriquet of "Shorty," when the valorous three pitched on him and gave him a terrible beating They then pussed on to Weaver's piloon, where they proceeded to demolish things generally, and threatening the lives of any who dared to interfere. They left immediately for Parker's Landing and warrante were issued by Esq. Scott for their arrest, but thus far they have eluded the officers We trust they may be caught. Such scenes are cheap, when a human life only costs \$200. - East Brady Independent

The above parties are well known here, and not much good is known of them either. It is to be hoped they will be arrested and deals with according to law. We believe that warrants are out for their arrest at Shamburgh, for depredations committed

Among the list of unclaimed property to be sold at auction by the American Union Express Co., at Erie, on Saturday, March lith, are the following from this place:

pkg cod \$5.30 W. Davis, East Hickory; 2 wrenches and priongs Westiake & Co; 2 pks Anns Ellis; bor cod T. Davis, East Hickory; 2

The Gowanda Gazette says: We are advised from a reliable source that oil in pay. ing quantities is being daily pumped from a well in Limestone, town of Carolton, Catt. Co. Car loads have been sold to Marvin & Co , refiners at Jamestown, and quantities have been shipped to various points for lupricating purposes. One hundred and eighty barrels are now in packages and tank await ing shipment. The gravity of the oil ladicates 40 per cent., and in color it is beautiful amber. Two more wells are being put down, with a gratifying 'show.' " informed by one of the firm of Marvin & Co. that the oil from Limestone is of 42 dogress gravity and is of a good quality. During the past year they have received severalebundred barrels.

Now that ges pumps are coming into general use on oil wells, we take pleasure in recommending the Seneca Falls Gas Pump. with improved steel spring packing, manufactured at Seneca Falls, N. T., and for which the firm of Winsor Bros. are agents for the oil regions. Oil operators and other interested parties will find it to their advantage to examine this pump, a specimen of which can be seen at their hardware store.

PERSONAL -- Mr. M. C. Martin, Superinendent of the Central Petroleum Company, left town this morning for a trip to South ern California, for the benefit of his health. He intends to be absent till May.

Our townsman, Mr. L. H. Collom, arrived home last evening, after an extended trip through the Southern States. He is looking well.

Mr. Brad street, of the Rochester House, also returned home from a similar trip, a day or two since, much improved in health.

A goodly number of our citizens intend visiting Titusville, on the occasion of the appearance of the Richings-Bernard English Opera Troupe.

A new well on Pachell Run, struck a day er two since is said to be yielding 150 bar-rels per day. The well is 360 deep, and oil 32-gravity.

The formal transfer of the Union & Titus. ville Railroad to the Eric Railroad Company was executed on Friday last, and the latter bave taken possession.

The weather to-day is just mild enough to give a body the spring fever.

A man named Charles Peterson, while engaged in cleaning out an oil tank at Moreand & Co's refinery, Tisusville, yesterday afternoon, was overcome by the gas and suffocated to death, before he could be rescued He was 18 years old.

Mrs. Minor Hatch, of Titusville, attempted to "shuffle off this mortal coil" on Tuesday, by swallowing a teaspoonful of phosphoric rat poleon. The attempt was unauccessful.

Chib of Titusville, who will undoubtedly do Central House, to-morrow evening. Lots of un may be expected.

Probably the strewdest and most success ful dealer in counterfelt money in the country is John Mingie, of Lycoming county. Mingis is pretty well advanced in years, and for the three las decades has been cugaged in "shoving the queer" and encouraging others to imita's the example. In this long slege of racality he has met with but one misadventure. At Williamsport about three or four years ago the first indictment was found against him, but be managed to escape the penalty of the law by getting a man to personate a rich uncle of his and tender the \$10,000 ball required by the United States Court, which was nocapted in good faith, and since then Mingle has been a fugitive. He is said to own a couple of farms near Philadelphia, but the fact that detectives are after bim presents him from enjoying his raral possessions .-Helor every obvious reasons, leads a very migratory life, never allowing the "grass to grow under his feet." Once in a while be tracked, but the mysterious Mingis invariably velocipades a day before the pureners arrive. The government of the United States would pay handsomely for the arrest of this consumate villian.

DRILLING A WELL FOR OIL IN ONTARIO COUNTY, N. Y .- Some persons are putting down an oil well at Phelps, Ontario county. The Phelps Citizen of last week says: Last Friday, for the first time, our gas well gave positive indications of oil, real petrolsum, and up to the present such indications hold out, causing those engaged in boring and who have had sad experience in sink ing oil wells to feel quite sanguine of suc-

A lew days ago, by the bursting of an oll tank on the Erie Railway, near the Jersey City depot, the contents of forty barrels of oil were scattered about the tracks in all directions pear the car works. It remained congealed until Friday, when the heat of the sun again liquefied it, and it floated on the surface of a rast sheet of snow water. In the forences sparks from a western bound train ignited it, and in an instant the network of tracks was one sheet of flame.

A Shanghia paper is translating the narrative of a Chinaman named Plo, who, baving visited Europe, bas written for his country men an account of the strange" customs of the harbarians of the outer world. Ou board the steamer to the Red Sea he was intensely senused by the conduct of his ferlow passengers; "Some of the men's beards were much entangled, while the hair of others was loose," but be observed that the men had good figures, while the form of the softer sex was extremely handsome. The dress of the ladies seems to have pleased blio immensely, but of their masners he does not speak in the most flattering terms. "They turned out from their cabins early in the morning, and rested themselves on long ratten couches on the poop, their husbands attending by their sides. After meals the busband and wife generally walked up and dows the drck one bundred times or se, till they got tired; and then laid themselves on long ratten couches on the poop alongside each other, where they began twittering like swallows in a low toze, and embraced each other's arms like mandarin ducks."-We are idelined to think that Piu must have been mistaken as to the relationship betwees these interesting couples. The symptoms are not those of a connubial inter-

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Doubled Acting Oil Promp is acknowledged to be the best pump in with use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates ned sustains a constant and powerful suction, by means of which the seams or velus of the well are in a great measure cleared of para-tine and other obstructions, and the oil in the veius is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increas-ing flow of oil. It is well known by oil operatore that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the pathle that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boniton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the madagers of the Columbia Farm:

Oppies Columbia Farm, Jan, 28.

Commbia Farm, Jan. 28.

MR. H. K. KENYON:

Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump

to be the best in use.

Respectfully yours,

G. W. BOULTON, Sup',

J. P. BARCROFT, Manager

For further particulars, address H. K. KENYON, Potroleum Centre. P. O.

GOOD ADVIOR.

Ask no woman her age. Never joke with a widow. Never controller a toog that stutters. Be civil to all rich unal a and sunts. Wear your oldest but of course to aunts. Wear your oldest bat of course to an evening party. Always sit next to the carver at dinner. Keep your own secrets. Tell no burnan being you dye your whiskers. Wind up your conduct like a watch once every day, examine minutely whether you are "fast" ar "slow." Make Irsends with the sleward on board a steamer, these's no knowing how goon you may be in his power. Write not one more letter than you can help; the mas who keeps up a large correspondence is a marrier, tied, not large correspondence is a marrier, lied, not lo the stake, but to the post. But the best advice we can give to the reader is, that he should buy he alothing at the store of A. Aiden. Washington Street, Petroleum Cunat this house is the largest and cheapest in the city. He has also a large absortment of cloths, cassimeres, etc., and is prepared to make up suits in the neatest manner imaginable. He has also a full line of gen-tiemen's tfurnishing goods. This is one of the best and cheapest stores in the city. aginable
