A correspondent of the Warren Ledger is very sanguine over the prospects of Warren county as oil territory. He says:

Then will our sturdy oil operators soar aloft on top of their majestic derricks, and look around for some new Oil Dorado, prospectively far ahead of the once famous Pit, hole, or our own Battle City. Warren County at no distant day is destined to be the Banner Oil County of Pennsylvania. The next great excitement will be between Tidioute and Irvinston, where lies 15 miles of undeveloped territory. The Magee brothers are the pioneers in this new outlet. They have a well down 300 feet, in the neighborhood of York or Crippin Hill about four miles back from the river. So far we are told the sand rock is excellent. We are no oil smeller or Spiritualist, but any man visiting the territory named, must say the best pebble rock in olddom exists there.

Editors Record.

On behalf of the M. E. Church, we desire to return sincere and hearty thanks to the many friends who contributed to the success of the "Mush and Milk Festival," on Friday evening last. The members of Columbia Cornet Band, the members and visiting members of Petroleum Centre Lodge, No. 715, I. O. O. F., J. G. Cross, the genial, gentlemanly host of the "Central," and the lady assistants one and all, are especially deserving of thanks and we gratefully acknowledge their generosity.

M. E. HESS,
J. W. THOMPSON, } Committee
N. B. SMILEY.

Mr. Hugh Mair, of Sugar Grove, Warren county, a friend of the soldier, has got into "little difficulties" through his intense devotion to the aforesaid soldiers, having forged several notes on prominent men of Warren, to the amount of \$2,500. He took a short cut for New York State as soon as the evidences of his crime came to light.

THEATRE.—Our citizens should bear in mind that this evening Mad. Zoe, the beautiful Cuban sylph, with a full N. Y. Dramatic Company, composed of the finest talent in the theatrical profession, open at Sober's Opera House, for a three night's engagement. The performance this evening will commence with the beautiful melodramatic and domestic play, written expressly for her by Chandos Fulton, Esq., entitled "Nita; or, Woman's Constancy," in which M'lie Zoe will appear in her great character of Nita, the Zingara Girl. The performance will conclude with the laughable farce of the "Spectre Bridegroom." We hope to see a crowded house.

Eleven years ago petroleum was unknown as an article of utility. Now the total capital invested in it, at home and abroad, is \$100,000,000, of which the American capital is \$70,000,000.

A goodly number of our citizens left town this afternoon to attend the English Opera at Titusville.

THE DEEPEST HOLE IN THE WORLD.—We clip the following from the Missouri Republican: When we quit work, on the arid plain well near the insane asylum, it was admitted that the hole was the deepest hole in the world. The St. Louis hole is now beat on by one in the vicinity of Potsdam, which is drilled to a depth of more than 5,500 feet. Commenced with the intention of boring an artesian well, it now serves a much more interesting purpose. At a depth of 300 feet a mighty stratum of rock salt was discovered, which has not yet been pierced entirely at the immense depth of 5,500 feet. Other holes, distant several hundred feet, have been bored in order to ascertain the circumference of the salt bed, and everywhere salt has been struck at a depth of about 300 feet.

Ten thousand acres of land in Fiji were recently purchased by a Scotchman for six pence an acre.

A southern paper tells about "Turkey showing her teeth." Ob, pahaw! turkeys' don't have teeth.

New York last week listened to sixteen concerts, at all of which a profit was made by the managers.

Rich music—A million air.

Hard to beat—A boiled egg.

How to get the exact weight of a fish—Weight him in his own scales.

Venezuela reports an abundant harvest of indigo, cotton and sugar.

The first church organ built in America was built in 1799.

They are having "swimming tournaments" in Chicago.

The proposed flag of the new German Empire is black, white, red and gold.

It is commonly believed that iron and steel become brittle by exposure to frost, and accidents on railroads in cold weather are often attributed to this cause. Recent experiments made in England go to show that the idea is not well founded, and that if there be any difference in elasticity in metals at high and low temperature, it is in favor of the latter. One investigator, Mr. Spence, subjected some cast iron bars to a trial of strength at 60 degrees and at zero, and found that the reduction of temperature, other things being equal, increased their power of resistance. It is urged, too, that quite as many breakings of axles and rails occur in summer as in winter, and that the true cause of them is bad workmanship or methods of manufacture.

The Hutchinson Family are soon to give a concert at Oil City.

On Thursday night last a fire broke out in the Corry wooden ware manufactory, but was extinguished in a short time by the firemen and citizens. Loss about \$500.

Meadville has been enjoying the sensation of a phantom masquerade, the participants being attired in ghostly fashions. All the ghosts of Meadville were in attendance, and the ghosts and the ghostesses "danced all night till broad day light," and went home highly pleased with the ghostly entertainment.

A couple were married the other day in Plainfield, Otsego county, N. Y., partook of their wedding dinner in Winfield, Herkimer county, took tea in Bridgewater, Oneida county, and were all the time under the same roof. The house stands "across the lines."

An exchange from Michigan is congratulating itself and its readers that a neighbor started a fire with kerosene oil without losing anything but his Sunday clothes, hair and part of his nose and whiskers.

Sharon will soon be lit with gas. All of the stock having been taken, the works will be commenced at once.

The Good Templars of Titusville celebrate the 4th anniversary of their lodge, on the 13th prox.

The earnings of the Allegheny Valley R. R. for a year past were \$1,685,033—Expenses \$873,082. Net receipts \$831,951.

The Typographic Advertiser has the following: "Concert Saloons—Airline Lightning Railway to Devildom—Most direct route."

There are at present thirty-one theatres in Berlin.

There are 1,089 log school houses in Illinois.

A yacht club on the Lakes has been formed at Buffalo.

BOOK BINDING.

The only authorized Agent of the Titusville Book Bindery will be here next Tuesday, and solicit work. Orders may be left at this office. 124-21.

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The ablest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Bonilton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO., Columbia Farm, Jan. 28.

MR. H. K. KENYON:
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,
G. W. BOULTON, Sup't.
J. P. BANCROFT, Manager
For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 517. Jan 31.
