

ROBERTS' TORPEDO COMPANY.
TORPEDOES.
THE ROBERTS
PETROLEUM TORPEDO CO.
 Office at the
RED PLANING MILL,
 Corner of Pine and Second Streets,
 (Near the Railroad.)
TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberts' Torpedoes, and the late decision of the Commissioner of Patents in favor of Wm. Hood a patent was granted to Judge J. C. Grier sustaining the Roberts' patent they have **LOWERED** the price of their Torpedoes
TWENTY PER CENT.

so that every Operator can afford to try a Torpedo before abandoning a Well.

The following is the decision rendered by Judge Grier on the twenty-second (22) day of September, 1899, in the United States Circuit Court at Philadelphia. The case was argued three days by Charles M. Keller of New York, B. F. Lucas and S. A. Purviance of Pittsburgh, for defendants, and George Harding of Philadelphia, and George H. Christy, of Pittsburgh, for plaintiff.

OPINION OF JUDGE GRIER.

As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 26th of April, 1898. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless. I need not repeat my remarks in the case of Good-year vs. Day 12 Wall, U. S. 109, 229, but now adopt them as affording a rule of decision which applies clearly to the present case.

As the infringement of the patent is admitted, the only question will be as to the validity of complainant's patent of April 25, 1898.

"It was after speculation had been reduced to practice," and after repeated experiments, that the complainant succeeded in overcoming the prejudice and ignorance of the people on the subject, and persuading the public that his invention was really new and had established its great utility and value, and when his genius and patient perseverance, in spite of sneers and scoffs, were completely successful, that he had the best right to the invention, and after purchasing one or more complainant's torpedoes, he applied on the 1st of November, 1897, for a patent for substantially the same combination of devices and a claim containing in complainant's patent. On the 14th of the same month the respondents formed themselves into a company or corporation called "The Reed Torpedo Company," for the purpose of defeating the complainant's invention, and supporting the expense of litigation, and this defendant him of the fruits. They have perverted, even after the preliminary injunction very properly granted by the District Judge.

Let a decree be entered for complainant for a perpetual injunction, and a Master appointed to take an account according to the prayer of the bill.
 J. C. GRIER, Judge.

Note.—The passage referred to by Judge Grier in his former decision, 3 Wallace, p. 299, adopted as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been turned to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanics may have in some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments have been successfully tried, coming very near, yet falling short of the desired result. They have produced nothing beneficial. The inventor who, perfected may truly be said to be the culminating point of many experiments, not only by the inventor, but by many others. He may have profited indirectly by the unsuccessful experiments and failures of others, but it gives them no right to a share of the honor of the successful inventor. It is when application has been reduced to practice, when experiment has been perfected, and when that discovery has been perfected by patient and continued experiments, when some new composition, art, manufacture, or machine has been thus produced, which is useful to the public that the party making it becomes a public law-factor and entitled to a patent. And yet when genius and patient perseverance have at length succeeded, in spite of sneers and scoffs, some valuable invention or discovery, how seldom is it followed by reward! Many raise him of the honor, while speculators, swindlers, and pirates rob him of the profits. Every unsuccessful experimenter who did or did not come very near making a discovery now claims it. Every one who can invent a discovery now claims it. Every one claims a right to share the honor, and very often, we need not summon sneers, or Blanchard, or Woodworth to prove that this is the usual history of every great discovery or invention."

"The present case adds another chapter to this long and uniform history."—2 Wallace, C. C. Reports p. 292

CAUTION.

The public is cautioned against employing any unauthorized Agents of the Company, since the Roberts' Patent covers the use of the Torpedo and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any parties infringing any of the ROBERTS' PATENTS will be dealt with according to law, and as settling willfully and knowingly in defiance of law and the decisions of the Court.

The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labeled with date of patent, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know its price and whether it came from our office.

Agents will confer a favor by reporting to this Office any negligence of Agents.

The following named persons have been appointed Agents and Assistant Agents for the Oil Regions of Pennsylvania and West Virginia.

LIST OF AGENTS.

- TITUSVILLE, CHURCH RUN AND VICINITY—STEPHEN GOY, Office, Hamilton's Cigar Store, address Titusville, Pa. Assistant John Van Beriver.

Drilling Jars
 We would respectfully announce to our customers and the public generally that we keep constantly on hand

Cast Steel Drilling Jars!
 Which for Strength and Durability excel any Steel Lined Jar heretofore in use.

The Advantages we Claim
 Over Lined Jars are that, being ALL STEEL, they are stronger than Jars composed partly of iron; that presenting a steel surface to the rock, they are protected from wear on the outside, and will keep their shape longer.

We also keep on hand
Cast Iron Working Barrels.
