RED PLANING MILI

praer of Pine and Second Streets, (Near the Ratirond,)

TITUSVILLE, PA. :

Owing to the large and increasing demand for the Reberts' Torpedoes, and the late decision of the Commissioner of Patents in resusing to Wim. Reed a patent, and the decision of Judge S. C. Grier sustaining the Roberts' patent they have LOWERED the price of their Torpedoes

TWENTY, PER CENT.

so that every Operator can afford to try a Torped before abandoning a Well.

The following Is the decision rendered by Judge Orler on the twenty-second (22) day of September, 1820, in the United States Circuit Court at Phinadelpia. The case was around three days by Charles M. Keller of New York, B. F. Lucas and S. A. Purviacce of Pittsburgh, for defendants, and George Barding of Phinadelphia, and George H. Christy, of Pittsburgh, for plaintiff.

OPISION OF JUDGE GRIER.

Citabanga, for plantuff.

OPINION OF JUDGE GRIER.

As I write with difficulty I can only state the conclusions to which my mind has come after a careful-examination of this case.

The combinant has exhibited a patent dated 25th of April, 1895. This is prima facil evidence of a goal title, and puts on the respondents the barden of proof that the patent is void or worthless.

I nace not repeat my remarks in the case of Goodynar vs. Day (2 Wall, C. C. Riog; 22%), but now shopt them as affording a rule of decision which applies clearly to the present case.

As the infringement of the patent is admitted, than only justice will be as to the validity of compilants patent of April 25, 1838.

"It was after speculation has been reduced to precise," and after repeated experiments, that the companisant succeeded in overcoming the projudice and knowledge of the people on the subject, and persuading the public that his invention was account ever he had established its great utility and value, and "when his genius and patient perseverance, in spite of snoers and scotly," were completely successed, that I deed, who had defore made experiments on the same subject, and was unsuccessful, immelied that he had the best right to the invention, and superimentation and the same subject, and was unsuccessful immelied that he had the best right to the invention, and subject of same month the respondence formed themselves into a company or corporation called "The Rosel Torpedo Company," for a paint for substantially the compalinants" in vention, and supporting the expense of litigation, and characted in our tention. The property granted by the District Judge.

Let a decreas be contered for companion to take an account according to the prayer of the bill.

R. C. GRIERI, Judge.

An account according to the prayer of the bill.

R. C. GHIER, Judge.

ROTE.—The passage referred to by Judge Grier in his former decision, 5 Wallace, p. 209, adopted as applicable to this case was as follows:

"It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, into the attention of the public has been turned to that subject previously, and that many peecons have been making researches and experiments. Philosophers and mechanicians may have magnetic that subject previously, and that many peecons have been making researches and experiments. Philosophers and mechanicians may have magnet measure anticipated in their speculations case possibility or probability of such discovery or invention many experiments have been accessfully tried, coading very near, yet failing short of the decired result. They have produced nothing beneficial. The threation, but by many othors, if any lave profited indirectly by the masse caseful experiments and failures of others, but it gives then no right to clasm a share of the honor of the profite in the collection of the honor of the profite in the profite of the successful inventor. It is when speculation has been reduced to practice, when experiment has resulted in discovery and when that discovery has been perfected by partient ann continuous experiments, when some new compound, art, mananacture, or machine has been thus produced which is need to the public, that the party making it becomes a public benefactor and entitled to a patent. "And yet when genins and patient perseceration have at longth succeeded, in aptic of sheers and scoffs, some valuable invention or discovery, how sodom is it followed by reward." Envy robs him of the honor, white specinators, swindlers, and pirates rob him of the profite. Every mose making a discovery one claims it. Every one who can invent an improvement or vary its form, claims a right to dirace the original discovery. We need not summons Morst, or Blanchurd, or Woodworth to prove that this

#### CAU PION.

The public is autioned against employing any at the regulart, authorized Agents of the Company, since the Roberts Patent cover the use of the Property of the Roberts Patent cover the use of the Propess and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any parties infraging any of the ROBERTS PATENTS will be feelt with according to law, and as acting willfully and thousingly is defiance of law and the decisions of the Courts.

The Company have re organized their business with a view to accommodate oil since he every part of the Oil Region. They have employed the most efficient agents and Assistants that can be procured for the Susiness. Each Torpedo is labelled with date at potents, together with the price of the Torpedo, and signed by an officer of the Company, so every Operator wishing a Torpedo may know its price and whether it came from our office.

Online any negligence of Agents.

The fedlowing named parsons have been appointed agents and Assistant Agents for the Oil Regions of Peansylvania and West Virginia.
