To Colonists .- The attention of these intending to emigrate to the West the coming spring is called to the fact that the Erie and Atlantic & Great Western Railways have reduced their rates of fare and fraight to colonists and have issued tickets for that purpose. The colonists tickets issued by this Company are sold at greatly reduced rates, and entitle the bolder to first class passage on express trains, with 150 pounds of baggage free, at any time within twelve days from date of purchase. Parties purchasing these tickets are also entitled to have their household goods, implements and other freights forwarded, at reduced rates, by the car load or hundred pounds. Also, for the special accommodation of those desiring to visit the West to select lands or homesteads, and then return for their families, the Company sells excursion tickets to Kansas City, good for round trip passage within thirty days from date of purchase. -This route is the shortest, quickest, and in all respects most comfortable for those transporting their families and property to the great West. In the oil region those desiring to purchase colonist tickets should apply personally, or by letter, to the agents of the Eric Rallway Company, at Corry, Meadville, Oil City or Franklin. Those intending to remove West will consult their own interests by purchasing tickets via the Erie and A. & G. W. broad gauge route.

Kenyou's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of para fine and other obstructions, and the oil in the vetus is drawn towards the well. It has been accertained by actual test that the use of this pump causes a gradually increasuse of this pump causes a gradually increas-ing flow of oil. Oil operators are referred to Mr. Geo. Bonlton, Superintendent of the Columbia Farm, for information in regard to the practical work-ings of the Kenyon Pamp.
