**GOLD AT 1 P. M., 111 1/2**

One Mike McCoy, residing on the Hess farm, got on the "rampage" Thursday night and assaulted a girl named Mary Dalley, abusing her fearfully. It was proven on the examination before Justice Reynolds, this forenoon, that McCoy knocked the girl down, kicked her about the head and face, and then jumped on her breaking two of her ribs. In default of bail, the brute in human form was taken to Franklin on the 1:20 train, this afternoon, where it is to be hoped a full measure of justice will be dealt out to him. McCoy's wife and infant child were present at the examination before the Justice.

By a dispatch from Pithole, we learn that well No. 2, Haskell & Rhodes lease, Rooker farm, commenced testing day before yesterday, and is now yielding between fifty and sixty barrels of oil daily. As we predicted the Pithole oil field bids fair to again come into notoriety as of old.

A movement is on foot to raise funds by subscription to rebuild the sidewalks on the burnt district. We are informed that nearly enough money has been raised to warrant the commencement of the work. Our citizens and business men should subscribe liberally in aid of this movement as it is a public benefit.

Messrs. Foreman and Vandergrift, of Oil City, have commenced laying a new pipe line from the East Sandy oil field to Oil City. The receiving tanks at the Sandy end of the line are already constructed.

Among the patents granted to citizens of Western Pennsylvania for the week ending March 14, 1871, is No. 112,596—Oil well Drilling; John R. Hill, Roseville.

Easter Sunday comes this year on the 9th day of April. Eggs will suffer on that day.

We copy the following words of condolence from the Oil City Register. It will be seen that Bro. Johns thoroughly understands the position and takes grounds in accordance:

The Petroleum Centre Record in a very able manner defends that place against the attacks of a few of the sensational journals of the Oil Region. In view of the sad visitation the people had, a degree of neighborly sympathy is due them, and we should be pleased to see this expressed in a substantial shape. Many poor families were rendered houseless and homeless by the late fire. That this misfortune should be made the subject of mirth by sensational newspaper scribblers, is not only reprehensible, but is certainly unworthy of those who have any feeling for the misfortunes of others. We are pleased to learn that measures have been taken to build up the burnt district, and this time with a superior class of buildings, and we wish their town unlimited prosperity.

The success of the cultivation of quinine in India and Australia has induced the California State Medical Society to memorialize Congress with reference to the fitness of California for the growth of the Peruvian bark tree. In the two English colonies named, trees were imported from Peru, and large plantations made along the foot of the Himalaya mountains without the least trouble. The demand for pure quinine in India is great, as all the English use it in their regular drink, pale ale, to ward off the prevalent epidemic fevers. Although the Californians think that every part of the foot hills of the Nevada range is equally adapted to the growth of the cinchona tree, they think individual enterprise will not attempt its culture, unless aided by the government, as was done in the countries named.

Mr. M. S. Simmons has just received the largest lot of Canary and other song birds, ever brought on Oil Creek. The sweetest singing imaginable can be heard by calling at the drug store. "Merry warbling birds, joyous happy birds," &c.

The railroad from Erie to Titusville and the oil regions bids fair to be built soon. Hon. O. Noble, of Erie, has written letters, stating himself and a few associates have determined to build a road to the oil region; that \$100,000 has been subscribed as a beginning, and a charter procured. With proper support from the people the road will undoubtedly be built.

**BARAINS.**—By reference to the advertisement in another column it will be seen that Mr. H. C. Wachter is about to dispose of the stock of groceries saved by him from the late fire. As the goods must be sold out within a specified time, a rare opportunity is offered to our citizens to purchase groceries and provisions at a figure far below the original cost. Give him a call.

The miners of the bituminous coal region out of sympathy for the anthracite miners, have resolved to suspend work in a few days. The bituminous coal fields west through the Crenango Valley employ twenty thousand miners. The Lehigh Valley Railroad and other roads are now using bituminous coal and should these miners suspend work, the railroads will be deprived of their supply of coal.

Pennsylvania has within her borders 4,256 miles of railway all in operation. Counting double track and siding, there are 6,484 miles in good working order.

The jail of this county at present contains thirty one prisoners.

The election of officers for the new city of Oil City comes off on the first Tuesday in April.

Since the recent heavy rains Oil Creek has been on the "rise."

Language is the number in which a thousand precious and subtle thoughts have been safely imbedded and preserved. It has arrested ten thousand lightning flashes of genius, which unless fixed and arrested, might have been as bright, but would have also been as quickly passing and perishing as the lightning.

The neck-tie party, at the Oil Exchange Hotel, last night, was a very pleasant affair. A goodly number were in attendance, and much merriment was occasioned at the drawing of the neck-ties, and the pairing off of the ladies and gents.

The Indianapolis News says, jubilantly, "nearly all those who advertise in the News for girls succeed in getting them." How is it when they advertise for boys? asks an exchange.

Attention is called to the advertisements of "Houses for Sale."

St. Patrick's Day was quite generally celebrated by our Irish fellow citizens.

All styles light harness, cheaper than the cheapest, made from Moffat's oak stock, and warranted, at J. E. Knox's.

**FRENCH EXPERIMENTS WITH PETROLEUM.**—In a report made to the French Academy of Sciences, by M. Deville, on the physical and heating properties of mineral oils, that distinguished chemist dwells largely on the dangers incident to the use and storage of petroleum, and on the modes of preventing the disasters which are of such frequent occurrence. The common opinion, that all such cases are due to one cause, namely, to the highly inflammable nature of the volatile ingredients contained in those oils, which, by admixture with air for explosive compounds, is, according to M. Deville, not wholly correct, though unquestionably a cause of real danger. Many of the fires and accidents which occur may be attributed, he says, to the very great expansion in bulk which mineral oils undergo by increase of temperature. If petroleum had been barreled during the cold season, it will expand largely with the first appearance of hot weather, and will then burst the containing vessel, one the same principle that ice ruptures water conduits and hydrants. The inflammable material then oozes out, frequently without being noticed, and is a lurking cause of danger.

**PETROLEUM CENTRE.**—This place is rising Phoenix-like from its ashes. We are informed that six new buildings are already commenced on the burnt district. This fact speaks well for the enterprise of the place.—Corry Republican  
This evidence of good will on the part of our Corry neighbors will be appreciated, not only by those who suffered from the devouring element, but by all interested in the welfare of the place.

A roasted onion bound upon the pulse on the wrist will, it is claimed, stop the most inveterate toothache in a few minutes.

A young man, whose moustache is visible by the aid of a microscope, was the victim of misplaced confidence a short time ago. He had been particularly sweet on a very young lady, and had previously paid her several visits. The girl's parents, thinking both too young to begin keeping company with each other, gave them a gentle hint to that effect—first, by calling the girl out of the room and sending her to bed; and second by the lady of the house bringing into the room a large slice of bread and butter, with molasses attachment, and saying to the youth in her kindest manner, "There, baby, take this and go home; it is a long way, and your mother will be anxious."

A few weeks ago a dentist arrived in Warrenton, Virginia, and advertised that he would "remove" all of a person's teeth for \$1, and insert a new set for \$10, besides giving six months credit." He was busy for two weeks pulling teeth, and at the end of that time half the people of the town had empty gums. But while the people were waiting for the dentist to fit them with new sets, the abandoned scoundrel eloped with the hotel-keeper's wife; and now there are hundreds of people in Warrenton who can not eat anything tougher than soup and farina.

At Memphis, on Tuesday, a great sensation was created by the announcement of an elopement of a well-known citizen, and a married man, with a school girl fifteen years of age. The previous night, at Columbus, Ohio, a Miss Marlart eloped with a married man named Sullivan, the pair taking the cars for Cincinnati, since which time nothing has been heard from them.

**Bargains, Bargains, H. C. WACHTER**

Will sell the remainder of his STOCK OF GROCERIES saved from the late fire, at greatly reduced prices for cash. Part of this stock is stored in Saunders' Coal office and part in Bowen's grocery at the railroad crossing, and must be sold immediately. The stock consists of a general assortment of

**HATS and CAPS** of all styles, at A. ALDEN'S.

**Kenyon's New Double Acting Oil Pump** for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn toward the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The able mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Boulton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO. }  
Columbia Farm, Jan. 28, }

**MR. H. K. KENYON:**  
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.

Respectfully yours,  
G. W. BOULTON, Sup't.  
J. P. BARCROFT, Manager  
For further particulars address H. K. KENYON, Petroleum Centre, P. O. box 517.

**L. M. STERNBURG'S**  
**Lumber Yard**  
Near Railroad, Petroleum Centre, Pa.

Friends and patrons, one and all. Your attention to my "biz" I would call: Times are dull and money tight; But in these times I'm looking for light; To those who are building rigs without number, I would inform—this is the place to buy Lumber; My motto is this: "Quick Sales and Small Profits." For business is healthy and I think much of it; In quality my Lumber is second to none, And as for Shingles, I keep No. 1; Some may not look at it in the light I do, And for stone I have a quality No. 2; And to those who are particular—no some may be, I can't have another quality called No. 1; I have good seasoned Lumber, Dressed up nice, Which I will sell at a low cash price; Such as Flooring, Ceiling and Siding, both Rough and Dressed; Lath, Battens and Surfaced Lumber all of the best; I also have Big Lumber of all kinds, At prices to compare with oil and hard times; All kinds of Timber kept constantly on hand, And a box of Clags of a very good brand; My facilities for sailing are surely without number, Always keep good teams to deliver good Lumber; go if you want Lumber, Rough, Dressed, Soft or Hard, You will find just what you want at L. M. S's Lumber Yard.
