Gold at 1 p. m., 111 1/2

NEW WELL AT PITTSBURGH.—Well No. 1, Phillips Bros. lease, James Rooker farm, was tubed on Saturday and commenced to pump at 5 o'clock p. m., starting off at the rate of 25 barrels per day, and has since increased to 40 barrels per day. The well is 890 feet deep, and has 26 feet of third or oil bearing sand-rock; also, has a strong volume of gas. These parties have another well on the same lease that will probably strike the sand to-morrow, and commence pumping by Wednesday next. This is the third large producing well struck in Pittsburgh within the past six weeks. No. 1, Haskell & Rhodes lease, same farm, continues to yield between 70 and 80 barrels of green oil per day; No. 2, same lease, struck last week, is yielding between fifty and sixty barrels per day. The prospects in that locality are very flattering. Quite a number of our citizens are interested in the Pittsburgh territory, and we shall endeavor to keep our readers posted as fast as developments progress.

A well was recently put down in Bennet Run, a short distance below the once celebrated Philadelphia lease, which has been pumping between three and four barrels per day. It is owned by Meadville parties.

The office of the Justice of the Peace for Cherry Township, is located in Bennett Run, just over the Cornplanter Township line, and about three-fourths of a mile from Petroleum Centre.

Our townsmen, Messrs. Wilbert and Pollock, are at present engaged in putting up a derrick, setting the engine, &c., for a new well on the Uncle Andy Kerr farm. This property is located about four miles north of Titusville, on Church Run, and is owned by Jacob Barnes, of Cherrytown. The farm has never been developed.

WATCH HIM.

An infamous scoundrel, passing under the name of Dr. Emmett, and pretending to be a dentist, has been in this place for more than a week past, duping our deceiving and toothless friends into the belief that he could do better and cheaper dentistry than our home practitioners. On Monday last a highly respectable young lady, of this place employed him to fill a tooth for her, and during the operation the brute kissed her, and undertook indecent liberties. The father and mother of the young lady being a way from home on a visit, she at once sought her father's friend and neighbor, I. S. Alden, Esq., who at once proceeded to the rooms of this lecherous devil, and administered a dose of Heenan's medicine that made the tooth doctor squeal. He would have received a more severe punishment had he not promised, and fully complied, to take the first train, either East or West, leaving Warren.

He is about 40 years of age, dark hair, and a cripple. He evidently possesses talent sufficient to talk well, and with a sweet smile, is without doubt a villain of the deepest dye. The public should watch him.—Warren Ledger.

NOTICE.—I am about to leave the Oil Region. Any person having any claims against me, or the firm of Codrington & Cornwell, are requested to present them at once. Any person knowing themselves indebted to me, or the above named firm, must settle immediately or their accounts will be collected by law. Burton & Kooker (our successors) are authorized to receive payments.

Ed. W. Codrington.

The attention of our citizens is called to the advertisement of the Parshall Hotel, Titusville, which will be found in another column. This hotel has but recently been opened by Messrs. Williams & Murray, both of whom are old and experienced hotel keepers and thoroughly understand the wants of their guests. The Parshall House is an ornament to Titusville, and bids fair to rival many of the hotels in our larger cities. Those of our citizens visiting Titusville can rest assured of receiving the best of treatment at the Parshall House, and should by all means "put up" at that hotel.

A well upon the Newell farm near West Hickory, owned by a Mr. Darrow, and which has been doing about five barrels per day, was torpedoed Thursday and has since yielded about forty barrels of oil daily.

The Pacific & Atlantic Telegraph Company have opened offices at Pitohole City and Stand Off City. Business is said to be good at both points.

By an act of the Legislature of the parsonages in the counties of Franklin, Adams, Crawford, Warren, Erie, Carbon, Allegheny, Venango, Schuylkill, Somerset, York, Mercer, Butler, Lawrence and Armstrong, are exempted from taxation.

TROUT LAW.—According to an act of the Legislature no person is allowed to catch speckled brook trout with any device save a hook and line; and it is unlawful to catch trout in any months save April, May, June and July. Five dollars fine is imposed for each trout caught unlawfully, and any person found with any of the speckled beauties in his possession is liable to be fined.

New Castle has a dancing club called the woodbines. When a member of the club asks a lady to waltz, he says: "Come where the woodbine twine his arm around thy waist."

The largest vessel afloat, except the Great Eastern, is the screw steamer Egypt, recently launched in the Mersey, England. She is 440 feet in extreme length, and 433 feet long at the load line. She is 44 feet beam, and the depth of hold is 36 feet, with a measurement of 5,150 tons. The engine are capable of working up to 2,500 horse power, and it is anticipated will drive the vessel at a speed of 13 knots an hour during ordinary weather. Six immense steamers are being constructed at Belfast which will constitute a new line between New York and Liverpool. The pioneer, the Oceanic, sailed a second time from Liverpool on Saturday, only to return again to repair a defect in her machinery. She is 440 feet in length, and built mainly of iron, with engines of 3,000 horse power, capacity of 6,000 tons burthen. The engines are the most powerful ever used in the merchant service. Her screw is four-bladed, and of steel. The Oceanic is built to carry 300 cabin and 1,000 steerage passenger, a number that in so large a vessel will find ample room.

Never trouble trouble till trouble troubles you, for trouble rarely troubles people who never trouble themselves about trouble.

The peculiarities of cities are noted as follows by an exchange:

- Philadelphia is the most profane of cities.
- New York glories in Black Crook theatricals.
- Brooklyn is always in trouble with whiskey makers.
- Boston is troubled with skim-milk literature.
- Louisville is the most sportive place on the continent.
- Cincinnati confines her diet mainly to sausages.
- Baltimore is a paradise for firemen.
- Cleveland opens her ears to bio d and thunder sensations.
- Pittsburgh has a steely heart and a sooty visage.
- Chicago—well, Chicago is reforming.

The Supreme Court of Pennsylvania recently decided a case of very considerable importance. A owed B one hundred dollars, for which he gave his note, payable in ninety days. After the note had been signed, B, without the knowledge of A, inserted the words "and fifty" after the "one hundred," in the body of the note, and sold it to C. The note falling due, A refused to pay it, pleading that the "and fifty" was a forgery. Suit was brought by C against A, and although the forgery by B was admitted, C recovered judgment against A for one hundred dollars. The Supreme Court affirmed the judgment, intimating also that it ought to have been for \$150, but as the plaintiff below had taken no exception to the judgment as rendered, it could not be disturbed.

A few evenings since, as a passenger train was moving on in Maine, a pistol but let came through the window of the engine cab and struck the engineer, Mr. William F. Lewis, on the side with such violence that it passed clear through a small Testament in his vest pocket and lodged between the inner cover and the cloth. Owing to the noise of the train, neither Mr. Lewis nor his fireman heard the shot or noticed that the glass was broken until the next day, and Mrs. Lewis, examining her husband's vest, was the first to discover the bullet.

The West Chester Village Record thus refers to a worthy charity: "Through the exertions of Marshall J. Speakman, conductor on the Paoli train on the Pennsylvania Railroad, a subscription has been raised for the family of Enos J. Hoopes, the engineer who was lately killed at his post on his engine near Oakland. Struck by a passing car, knocked down and frightfully mangled, this heroic engineer dragged himself to the levers, signalled down brakes and shut off steam. The train is stopped, many lives are saved by his superhuman efforts, and in a few hours the hero is no more. To keep his family from want is a noble charity."

Parties having books belonging to Nicholson Bros. Circulating Library, are requested to return them to the Post Office Newroom, on or before Saturday, March 25th. A prompt return is especially urged.

Fanny B. Price is playing at the California Theatre, San Francisco.

The Clearfield Raftman's Journal says: Rafting has been quite brisk for more than a week past, in this region, and a goodly number of rafts started for the lower markets, but we presume the greater part of the timber is still back. The water in the streams is getting rather low for rafting, most of the snow having passed off already, and hence it will require pretty copious rains to raise the streams sufficiently high to float off the remaining timber.

A man living in Columbia, and owing the house that he lives in lately refused to bury his father, who died suddenly, but turned the body over to the Coroner to be buried as a pauper, signing his name to a paper as follows: "I hereby refuse to take charge of the corpse of my father, or pay for its burial."

Kenyon's New Double Acting Oil Pump for Pumping Oil or Water in Deep Wells.

Kenyon's New Double Acting Oil Pump is acknowledged to be the best pump now in use. One of its leading features is that it not only produces a continuous flow of oil or other fluid, but that it creates and sustains a constant and powerful suction, by means of which the seams or veins of the well are in a great measure cleared of paraffine and other obstructions, and the oil in the veins is drawn towards the well. It has been ascertained by actual test that the use of this pump causes a gradually increasing flow of oil. It is well known by oil operators that this improvement is of great value, and one that has been long sought for. The latest mechanics of our country have for years been at work trying to find out some new and untried plan to prolong the life time of an oil well; and nothing yet to our knowledge has been brought before the public that in any way equals the power of the Kenyon Pump, experience having taught that it is the long continued suction that has the power to keep up and increase the production of oil wells. Oil operators are referred to Mr. Geo. Bonilton, Superintendent of the Columbia Farm, for information in regard to the practical workings of the Kenyon Pump. We append the following testimonial from the managers of the Columbia Farm:

OFFICE COLUMBIA OIL CO.
Columbia Farm, Jan. 28.

Mr. H. K. KENYON:
Dear Sir:—We are using your Double Acting Oil Pumps in three of our oil wells and take pleasure in stating that we are getting more oil and gas from each of them than was previously obtained by the use of working barrels. We believe your oil pump to be the best in use.
Respectfully yours,
G. W. BOULTON, Sup't.
J. P. BARCROFT, Manager
For further particulars address H. K. KENYON, Petroleum Centre. P. O. Box 547. Jan 31.

"POICKRY!"

Enumerating a few of the articles to be found at

L. M. STERNBURG'S

Lumber Yard

Near Railroad, Petroleum Centre, Pa.

Friends and patrons, one and all, Your attention to my "blis" I would call; Times are dull an' money tight, But in these times I'm looking for light;

To those who are building rigs without number, I would inform—this is the place to buy Lumber; My motto is this: "Quick Sales and Small Profit," For business is healthy and I think much of it;

In quality my Lumber is second to none, And as for Shingles, I keep No. 1; Some may not look at it in the light I do, And for those I have a quality No. 2;

And to those who are particular—as some may be, I still have another quality called No. 3; have good seasoned Lumber, Dressed up nice, Which I will sell at a low cash price;

Such as Flooring, Ceiling and Siding, both Rough and Dressed, Lath, Battens and Surfaced Lumber, all of the best;

I also have Big Lumber of all kinds, At prices to compare with oil and hard times;

All kinds of Timber kept constantly on hand, And a box of Cigars of a very good brand;

My facilities for selling are surely without number I always keep good teams to deliver good Lumber;

so if you want Lumber, Rough, Dressed, Soft or Hard, You will find just what you want at L. M. S's Lumber Yard.
