ROBERTS' PETROLEUM TORPEDO.
TORPEDOES.
THE ROBERTS
PETROLEUM TORPEDO CO.
 Office at the
Rd PLANING MILL,
 Corner of Pine and Second Streets,
 (Near the Railroad,)
TITUSVILLE, PA.

Owing to the large and increasing demand for the Roberts' Torpedoes, and the fact that the Commissioner of Patents is refusing to issue a patent, and the decision of Judge F. C. ...

The following is the decision rendered by Judge Grier on the 12th day of September, 1868, in the United States Circuit Court at Philadelphia.

OPINION OF JUDGE GRIER

As I write with difficulty I can only state the conclusions to which my mind has come after a careful examination of this case.

The complainant has exhibited a patent dated 25th of April, 1865. This is prima facie evidence of a good title, and puts on the respondents the burden of proof that the patent is void or worthless.

It was after speculation had been reduced to practice, and after repeated experiments, that the complainant succeeded in overcoming the prejudice and ignorance of the people on the subject, and persuading the public that his invention was useful.

As the infringement of the patent is admitted, the only question will be as to the validity of complainant's patent of April 25, 1865.

NOTE—The passage referred to by Judge Grier in his former decision, 3 Wallace, p. 299, adopted as applicable to this case was as follows:

It is usually the case, when any valuable discovery is made, or any new machine of great utility is invented, that the attention of the public has been directed to that subject previously, and that many persons have been making researches and experiments. Philosophers and mechanics may have in some measure anticipated in their speculations the possibility or probability of such discovery or invention; many experiments may have been successfully tried, ending very near, yet falling short of the desired result. They have possessed something beneficial. The invention when perfected may truly be said to be the culminating point of many experiments, not only by the inventor, but by many others.

They may have profited indirectly by the unsuccessful experiments and failures of others, but it gives them no right to claim a share of the honor of the product of the successful inventor. It is an error of speculation has been reduced to practice, when experiment has resulted in discovery and when that discovery has been perfected by patient and continued experiments, when some new compound, art, manufacture, or machine has been thus produced which is useful to the public, that the party making it becomes a public benefactor and entitled to a patent.

And yet when genius and patient perseverance have at length succeeded, in spite of sneers and scoffs, some valuable invention or discovery, how seldom is it followed by reward! Envy robs him of the honor, while speculators, swindlers, and pirates rob him of the profits. Every unsuccessful experimenter who did or did not come very near making a discovery now claims it. Every one who can invent an improvement or vary its form, claims a right to prize the original discovery. We need not summon Morse, or Blanchard, or Woodworth to prove that this is the usual history of every great discovery or invention.

The present case adds another chapter to this long and uniform history.—2 Wallace, C. C. reports p. 292

CAUTION.
 The public is cautioned against employing any of the regular, authorized Agents of the Company, since the Roberts' Patent cover the use of the Torpedo and all explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights. Any parties intending any of the ROBERTS' PATENT'S will be held to account according to law, and as acting willfully and knowingly in defiance of law and the decisions of the Courts.

The Company have re-organized their business with a view to accommodate Oil Men in every part of the Oil Region. They have employed the most efficient Agents and Assistants that can be procured for the business. Each Torpedo is labeled with date of patents, together with the price of the Torpedo, and signed by an officer of the Company, or every Operator wishing a Torpedo may know its price and whether it came from our office.

Operators will confer a favor by reporting to this Office any negligence of Agents.

The following named persons have been appointed Agents and Assistant Agents for the Oil Regions of Pennsylvania and West Virginia.
